6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your dresser:

- **Cleaning Fabric Drawers:** Spot clean fabric drawers with a damp cloth and mild soap. Do not machine wash or submerge in water. Allow to air dry completely.
- **Cleaning Frame and Top:** Wipe the steel frame and wooden top with a soft, dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Check Fasteners:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Adjust Feet:** If the dresser becomes wobbly, re-adjust the plastic feet to ensure stability on your floor surface.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dresser is wobbly.	Uneven floor; loose feet; loose frame connections.	Adjust the plastic feet until stable. Check and tighten all frame screws.
Drawers do not slide smoothly.	Drawer is overloaded; fabric is caught; drawer not fully unfolded.	Reduce contents in the drawer. Ensure the drawer is fully unfolded and the bottom panel is correctly inserted. Check for any obstructions.
