## OPERATING INSTRUCTIONS

### To Open the Bed:

1. **Clear the Area:** Ensure the space in front of the cabinet is clear of obstructions.
2. **Unlock (if applicable):** If your model has a locking mechanism, disengage it.
3. **Pull Down:** Gently pull the bed handle downwards. The bed will pivot smoothly from the cabinet. Guide it until it rests fully on the floor supports.
4. **Extend Legs:** Ensure the support legs are fully extended and locked into place for stability.

2. **Retract Legs:** Fold the support legs inwards.
3. **Lift Up:** Using the handle, gently lift the bed frame upwards, guiding it back into the cabinet.
4. **Secure:** Push the bed fully into the cabinet until it is flush. Engage any locking mechanism to keep it securely closed.
