## MAINTENANCE

---

Proper care and maintenance will ensure the longevity and continued safety of your SOFTSEA bed frame.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish. Dry immediately with a clean cloth.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any loose hardware to maintain structural integrity and prevent squeaking.
- **Drawer Maintenance:** Ensure the drawer glides are free of debris. If drawers become stiff, a small amount of silicone-based lubricant can be applied to the glides (avoid oil-based lubricants on wood).
- **Avoid Excessive Moisture:** Do not expose the bed frame to excessive moisture or humidity, as this can cause warping or damage to the wood and MDF.

## TROUBLESHOOTING
