OPERATING INSTRUCTIONS

Using the Storage Drawers

The two under-bed storage drawers are designed for easy access and can be positioned on either side of the bed. Simply pull the drawer outward to open and push inward to close. These drawers are ideal for storing bedding, clothes, toys, or other personal items, helping to keep your bedroom tidy and organized.

Guardrails

The integrated guardrails on both sides of the bed provide an added layer of safety, preventing accidental falls during sleep. Ensure no objects obstruct the guardrails' function.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts and fasteners to ensure they remain tight. Re-tighten if necessary to maintain structural integrity and safety.
- **Drawer Maintenance:** Keep the drawer wheels free of dust and debris to ensure smooth operation.
- **Avoid Excessive Moisture:** Protect the wood from prolonged exposure to moisture or extreme temperature changes.
