

YEELIGHT Cube Lite Smart Lamp

YEELIGHT Cube Lite Smart Lamp User Manual

Model: Cube Lite Smart Lamp

Brand: YEELIGHT

1. INTRODUCTION

The YEELIGHT Cube Lite Smart Lamp is an innovative lighting device designed to enhance your environment with dynamic and customizable illumination. Featuring 16 million color options, pre-set modes for clock, text, and emojis, and smart app control, this lamp offers versatile functionality for various settings. Its all-in-one panel design ensures easy setup and integration into your smart home ecosystem.

2. WHAT'S IN THE BOX

Before you begin, please ensure all components are present in the package:

- 1 x Smart Light (YEELIGHT Cube Lite Smart Lamp)
- 1 x Data Cable (USB-C)
- 1 x Instruction Manual (this document)

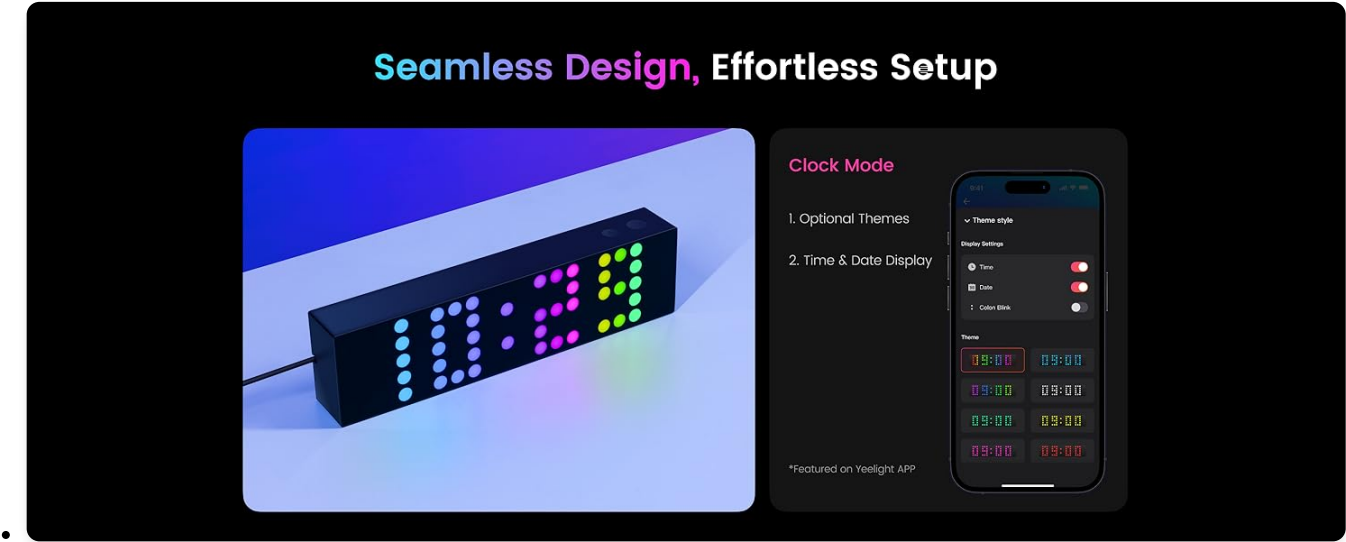

Image: An illustration detailing the items included in the YEELIGHT Cube Lite Smart Lamp product box, ensuring users can verify their package contents.

3. SETUP

3.1 Initial Placement and Power Connection

The YEELIGHT Cube Lite Smart Lamp features a compact, all-in-one design, allowing for flexible placement. Position the lamp on a desk, shelf, bedside table, or wall. Connect the provided USB-C data cable to the lamp and a suitable power adapter (not included) or USB port.

Seamless Design, Effortless Setup

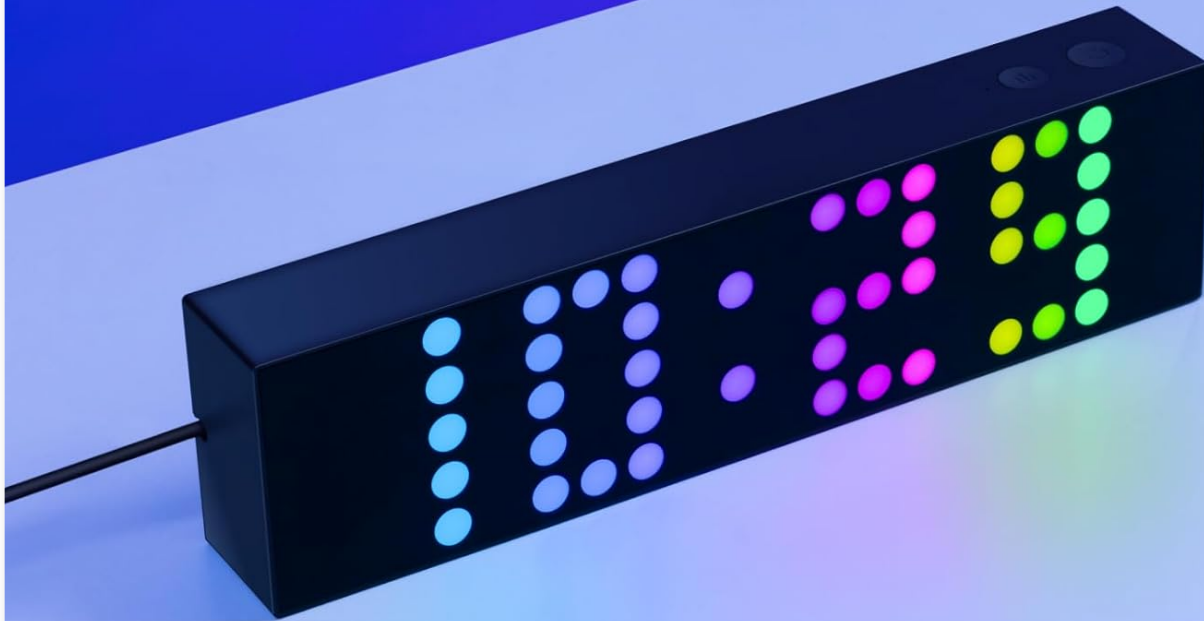

Image: The YEELIGHT Cube Lite Smart Lamp showcasing its seamless design and effortless setup, displaying the time in a colorful pixelated format.

3.2 App Installation and Pairing

1. Download the **Yeelight App** from your device's app store (available for iOS and Android).
2. Open the Yeelight App and follow the on-screen instructions to create an account or log in.
3. Ensure your smartphone is connected to a **2.4 GHz Wi-Fi network**. The Cube Lite Smart Lamp requires a 2.4 GHz connection for successful pairing. If you have a dual-band router, you may need to temporarily disable the 5 GHz band or ensure your phone is connected to the 2.4 GHz SSID.
4. In the app, tap to add a new device. The app may prompt you to scan a QR code on the lamp or its packaging for quick pairing.
5. Follow the app's instructions to connect the lamp to your Wi-Fi network.

4. OPERATING THE LAMP

4.1 Physical Controls

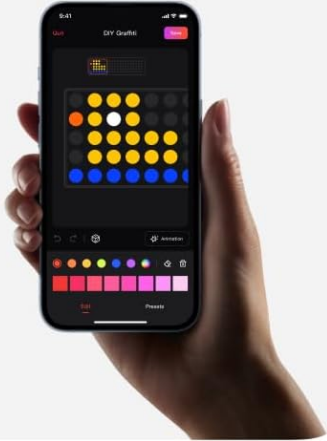

The Cube Lite Smart Lamp features minimal physical controls, primarily relying on app control. Refer to the lamp's side or back for any physical buttons, typically for power or mode cycling.

4.2 App Control Features

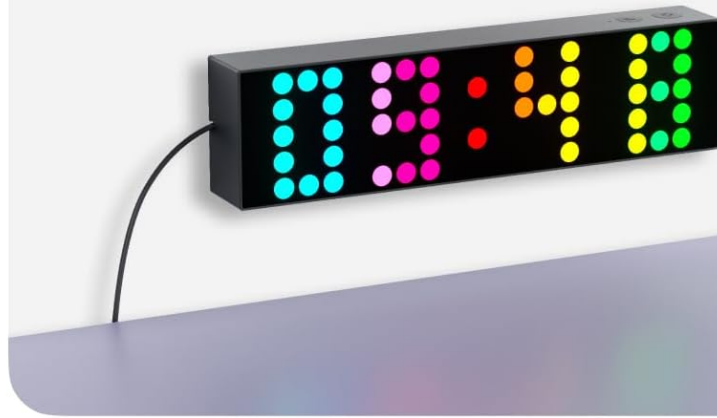

The Yeelight App provides comprehensive control over your Cube Lite Smart Lamp:

- **16 Million RGB Colors & Dynamic Light Effects:** Choose from a vast spectrum of colors and apply various built-in dynamic lighting effects. These effects can be switched with a single tap in the app.
- **Pre-Set Clock, Letters, and Emoji Modes:** Access a variety of pre-programmed displays, including time, customizable letters, and fun emojis. These modes are ready to use without complex setup.
- **Custom DIY & Creative Sharing Community:** Design your own pixel art and lighting patterns. The app allows you to create unique designs and share them within the Yeelight community, as well as discover designs from other users.
- **Music Flow:** Enable the music flow feature to synchronize the lamp's lighting effects with audio from your mobile device or other sound sources.
- **Smart Home Compatibility:** The lamp integrates seamlessly with various smart home ecosystems, including Apple Home, Google Home, Amazon Alexa, and Samsung SmartThings, offering voice control and automation possibilities.

5. MAINTENANCE

5.1 Cleaning

To clean the YEELIGHT Cube Lite Smart Lamp, gently wipe its surface with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the lamp's finish and internal components.

5.2 General Care

- Keep the lamp away from direct sunlight, high temperatures, and humid environments.
- Do not disassemble the lamp. Any unauthorized disassembly will void the warranty.
- Ensure the lamp is placed on a stable surface to prevent accidental falls.

6. TROUBLESHOOTING

If you encounter issues with your YEELIGHT Cube Lite Smart Lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not power on.	No power supply or faulty cable.	Check if the USB-C cable is securely connected to the lamp and a working power source. Try a different USB port or power adapter.
Unable to connect to Wi-Fi.	Incorrect Wi-Fi band (not 2.4 GHz), wrong password, or network interference.	Ensure your router is broadcasting a 2.4 GHz network and your phone is connected to it during setup. Verify the Wi-Fi password. Move the lamp closer to the router.
App shows device offline.	Lamp lost Wi-Fi connection or app synchronization issue.	Check your Wi-Fi connection. Restart the lamp by unplugging and replugging it. Close and reopen the Yeelight App.
Limited customization options in app.	Misunderstanding of app features or specific mode limitations.	Explore all sections of the Yeelight App, including the DIY and community sections for more options. Some pre-set modes may have limited customization.

7. SPECIFICATIONS

Detailed technical specifications for the YEELIGHT Cube Lite Smart Lamp:

Feature	Specification
Model Name	Cube Lite Smart Lamp
Product Dimensions	1.4"D x 9.6"W x 2.5"H (3.56 cm D x 24.38 cm W x 6.35 cm H)
