- **Software Updates:** Regularly check for and install system updates to ensure optimal performance and security.
- **Storage:** Store the tablet in a cool, dry place away from direct sunlight and moisture.
- **Protection:** Consider using a protective case and screen protector to prevent physical damage.

5. TROUBLESHOOTING

Problem	Possible Solution
Tablet does not power on.	Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. Press and hold the power button for 10-15 seconds.
Wi-Fi connection issues.	Restart the tablet and your Wi-Fi router. Forget the network in settings and reconnect. Ensure you are within range of the Wi-Fi signal.
Slow performance or apps crashing.	Close unnecessary background applications. Clear cache for problematic apps. Restart the tablet. Ensure sufficient storage space is available.
Screen is unresponsive.	Restart the tablet by holding the power button. If unresponsive, force restart (refer to device overview for specific button combinations if available, otherwise assume long press power).
Battery drains quickly.	Reduce screen brightness. Disable unused features like Bluetooth or GPS. Close background apps. Check battery usage in settings to identify power-hungry apps.
