Brand: Pecute

---

## INTRODUCTION

---

This manual provides comprehensive instructions for the safe and effective use of your Pecute Expandable Pet Carrier Backpack and Dog Car Crate. Designed for versatility, this carrier offers a comfortable and secure environment for your pet during travel, whether as a backpack or a car crate. Please read all instructions carefully before initial use.

## KEY FEATURES

- **Expandable Design:** The carrier features an expandable back section, increasing internal space and air circulation for enhanced pet comfort. Expanded dimensions are approximately 13.4" L x 24.4" W x 17.3" H.
- **Optimal Ventilation & Comfort:** Equipped with four-sided breathable mesh windows for ample airflow and visibility. Multiple entry and exit points facilitate easy pet access. A removable and washable pet cushion is included for comfort.
- **Stable and Portable Structure:** Constructed with a steel wire frame, PP, and honeycomb top/bottom boards for stability, preventing collapse. Weighing approximately 5.7 lbs, it is lightweight for portability.
- **Spacious Interior (Car Crate Mode):** Measures 61 x 45 x 52 cm (24 x 17.7 x 20.5 inches), suitable for dogs under 15kg, providing sufficient room for movement.
- **Breathable and Concealed Options:** Features three-sided roller blinds and four-sided nylon mesh, offering privacy, sunshade, rain protection, and continuous ventilation.

## SETUP INSTRUCTIONS

- 1. Unpacking:** Carefully remove the carrier from its packaging. Ensure all components, including the removable cushion, are present.
- 2. Expanding the Carrier (Backpack Mode):**
  - Locate the zipper for the expandable back section.
  - Unzip this section completely to extend the mesh compartment.
  - Ensure the expanded section is fully open and stable.
- 3. Preparing for Car Crate Mode:**
  - If using as a car crate, ensure the expandable section is zipped closed.
  - Verify the steel wire frame and honeycomb boards are correctly positioned to maintain the crate's rigid shape.
- 4. Insert Pet Cushion:** Place the removable pet cushion at the bottom of the main compartment for your pet's comfort.

## OPERATING INSTRUCTIONS

### Using as a Pet Backpack:

1. **Pet Entry:** Allow your pet to enter through the top opening or one of the side mesh doors. Encourage them with treats or familiar toys.
2. **Secure Pet:** If your pet is prone to jumping, use the internal leash attachment to secure their harness.
3. **Adjust Straps:** Put on the backpack and adjust the shoulder straps for a snug and comfortable fit. Ensure the weight is evenly distributed.
4. **Ventilation:** Keep mesh windows open for maximum airflow.
5. **Storage Pockets:** Utilize the side pockets for carrying pet essentials like treats, waste bags, or small toys.

### Using as a Dog Car Crate:

1. **Placement:** Place the carrier on a flat, stable surface in your vehicle. For optimal safety, secure it using a seatbelt through the designated loops (if available) or by placing it in a footwell.
2. **Pet Entry:** Open one of the side doors for your pet to enter.
3. **Ventilation & Privacy:** Adjust the roller blinds as needed for sun protection or privacy, while ensuring adequate mesh areas remain open for ventilation.

## MAINTENANCE

- **Cleaning the Cushion:** The removable pet cushion cover is washable. Follow the care label instructions, typically machine wash cold on a gentle cycle and air dry.
- **Spot Cleaning:** For the main carrier body, spot clean with a damp cloth and mild soap. Avoid harsh chemicals that could damage the fabric or mesh.
- **Drying:** Ensure the carrier is completely dry before storing to prevent mold or mildew.
- **Storage:** Store the carrier in a cool, dry place away from direct sunlight when not in use.

## TROUBLESHOOTING

### **Pet refuses to enter the carrier:**

Allow your pet to explore the carrier at their own pace. Place familiar blankets, toys, or treats inside. Gradually introduce them to the carrier over several days, starting with short periods of time.

**Carrier feels unstable:**

Ensure all zippers are fully closed and the internal support structures (steel wire frame, honeycomb boards) are correctly aligned and engaged. The carrier is designed for stability when properly assembled.

**Insufficient ventilation:**

Verify that all mesh windows are unobstructed. If using the roller blinds, ensure enough mesh area is exposed for adequate airflow. Avoid covering the carrier with additional materials.
