

## LRFDRESS TT-AP005

# LRFDRESS TT-AP005 Air Purifier Replacement Filter User Manual

For TaoTronics TT-AP005 Air Purifier

## 1. INTRODUCTION

---

Thank you for choosing the LRFDRESS TT-AP005 Air Purifier Replacement Filter. This filter is specifically designed for the TaoTronics TT-AP005 Air Purifier to ensure optimal performance and air quality. It features a combined HEPA and activated carbon filtration system, working together to capture airborne particles and absorb odors.

This manual provides essential information on the installation, maintenance, and specifications of your replacement filter.

## 2. SAFETY INFORMATION

---

- Always unplug the TaoTronics TT-AP005 Air Purifier from the power outlet before attempting to replace the filter.
- Keep replacement filters out of reach of children and pets.
- Do not wash or reuse the filter. Replacement filters are designed for single use and should be disposed of after their lifespan.
- Handle the new filter by its frame to avoid touching the filter media directly.
- Ensure the filter is installed correctly and securely before operating the air purifier.

## 3. PACKAGE CONTENTS

---

Your package should contain the following items:

- 2 x LRFDRESS TT-AP005 Air Purifier Replacement Filters

Image: Two LRFDRESS TT-AP005 replacement filters, as typically packaged.

#### 4. SETUP (FILTER INSTALLATION)

---

Follow these steps to replace the filter in your TaoTronics TT-AP005 Air Purifier:

1. **Power Off and Unplug:** Ensure the air purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Depending on your TaoTronics TT-AP005 model, locate and open the filter compartment cover. This usually involves twisting the base or unlatching a panel. Refer to your original TaoTronics TT-AP005 user manual for precise instructions on accessing the filter compartment.
3. **Remove Old Filter:** Carefully remove the used filter from the air purifier. Dispose of the old filter responsibly.
4. **Insert New Filter:** Unpack a new LRFDRESS TT-AP005 replacement filter. Insert the new filter into the air purifier, ensuring it is seated correctly and securely. The filter should fit snugly without force. Pay attention to any directional arrows or labels on the filter or air purifier.
5. **Close Compartment:** Close the filter compartment cover securely.
6. **Plug In and Power On:** Plug the air purifier back into the power outlet and turn it on.
7. **Reset Filter Indicator (if applicable):** If your TaoTronics TT-AP005 Air Purifier has a filter replacement indicator light, follow the instructions in your air purifier's manual to reset it. This typically involves

pressing and holding a specific button for a few seconds.

## 5. OPERATING (FILTER FUNCTION)

---

The LRFDRESS TT-AP005 replacement filter functions as an integral part of your TaoTronics TT-AP005 Air Purifier. It is a 3-in-1 filtration system designed to improve indoor air quality:

- **Pre-Filter:** Captures larger particles such as dust, lint, fibers, and pet fur, extending the life of the HEPA filter.
- **True HEPA Filter:** Effectively captures 99.97% of airborne particles as small as 0.3 microns, including pollen, dust mites, pet dander, and mold spores.
- **Activated Carbon Filter:** Absorbs various household odors, smoke, cooking smells, and volatile organic compounds (VOCs), providing fresher air.

Once installed, the filter works continuously with your air purifier to clean the air in your environment.

## 6. MAINTENANCE

---

Regular filter replacement is crucial for maintaining the efficiency and effectiveness of your air purifier.

### Filter Lifespan

The typical lifespan of the LRFDRESS TT-AP005 replacement filter is **6 to 12 months**. This duration can vary significantly based on several factors:

- **Air Quality:** Higher levels of pollutants, dust, pet dander, or smoke will shorten the filter's life.
- **Usage Frequency:** Continuous operation will require more frequent replacement than intermittent use.
- **Environment:** Homes with pets, smokers, or located in areas with high pollution may need more frequent filter changes.

### When to Replace the Filter

You should replace the filter when:

- The filter replacement indicator light on your TaoTronics TT-AP005 Air Purifier illuminates.
- You notice a decrease in airflow from the air purifier.
- There is an increase in odors or a noticeable decline in air quality.
- The filter appears visibly dirty or discolored.

### Disposal

Used filters should be placed in a sealed plastic bag before disposal to prevent the release of captured pollutants back into the air.

## 7. TROUBLESHOOTING

---

If you encounter issues after replacing your filter, consider the following:

- **Air Purifier Not Turning On:** Ensure the air purifier is properly plugged into a working power outlet. Check that the filter compartment cover is fully closed and secured, as some purifiers have safety switches that prevent operation if the cover is open.
- **Filter Indicator Light Remains On:** After installing a new filter, you may need to manually reset the filter life indicator. Refer to your TaoTronics TT-AP005 Air Purifier's user manual for specific instructions.

on how to reset the filter light.

- **Reduced Airflow or Poor Air Quality:** Verify that the new filter is installed correctly and is the appropriate model (TT-AP005) for your air purifier. Ensure there are no obstructions to the air intake or outlet vents of the air purifier.
- **Unusual Noises:** Check that the filter is seated properly and not loose within the compartment.

If problems persist, consult the original TaoTronics TT-AP005 Air Purifier manual or contact the air purifier manufacturer's support.

## 8. SPECIFICATIONS

---

<b>Model Number</b>	TT-AP005
<b>Filter Type</b>	Combined HEPA + Activated Carbon (3-in-1)
<b>Compatibility</b>	TaoTronics TT-AP005 Air Purifier
<b>Dimensions (L x W x H)</b>	7.5 x 7.5 x 7.5 inches (190 x 190 x 190 mm)
