SETUP

Initial Bluetooth Pairing

1. Ensure your JBL Tour One M3 Smart Tx headphones are charged.
2. Power on the headphones by pressing and holding the power button until the LED indicator flashes.
3. On your device (smartphone, tablet, laptop), go to Bluetooth settings and select "JBL Tour One M3" from the list of available devices.
4. Confirm pairing if prompted. The LED indicator on the headphones will turn solid blue when connected.

Connecting with JBL Smart Tx Audio Transmitter

The JBL Smart Tx allows you to connect to various audio sources wirelessly, including in-flight entertainment systems, TVs, and PCs.

1. Connect the JBL Smart Tx to your desired audio source using the appropriate cable (3.5mm analog or USB-C digital).
2. Power on the JBL Smart Tx.
3. The Smart Tx will automatically search for and connect to your JBL Tour One M3 headphones. Use the touch screen on the Smart Tx to manage connections and settings.

Immersive JBL Spatial 360 Sound with Head Tracking

Enjoy a natural, realistic, and accurate immersive audio experience for music, movies, and games. Integrated head tracking ensures sounds remain fixed in space even when you move your head.

A woman with long dark hair is shown in profile, wearing large, light-colored over-ear headphones. The headphones have a prominent 'JBL' logo on the ear cup. The background is a soft, out-of-focus outdoor setting.

IMMERSIVE **JBL SPATIAL 360** SOUND WITH HEAD TRACKING

Smart Talk

Smart Talk automatically pauses your music when it detects your voice, allowing for quick conversations without removing your headphones. Settings can be fine-tuned in the JBL Headphones app.

Personi-Fi 3.0

Create a personalized audio profile by taking a hearing test in the JBL Headphones app. Utilize the 12-band EQ and separate L/R balance optimization for your ideal sound across the entire frequency range.

Call Features

Four adaptive beamforming microphones, powered by an AI algorithm, ensure crystal-clear calls by eliminating echoes and ambient noise. The JBL App allows customization of your voice and others' voices during calls, and the headphones are Zoom certified.

MAINTENANCE

Cleaning

Wipe the earcups and headband with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. Ensure all ports are dry before charging or connecting cables.

Storage

When not in use, store the headphones in their provided carrying case to protect them from dust, scratches, and impacts.

TROUBLESHOOTING

- **No Power:** Ensure the headphones are fully charged.
- **No Sound:** Check Bluetooth connection, volume levels on both headphones and source device. Ensure the correct input is selected on the Smart Tx.
- **Poor Sound Quality:** Verify audio source quality. Adjust EQ settings in the JBL Headphones app.
- **Noise Cancelling Not Effective:** Ensure earcups form a good seal around your ears. Adjust ANC settings in the JBL Headphones app.
- **Smart Tx Connectivity Issues:** Ensure Smart Tx is powered on and correctly connected to the audio source. Check that the headphones are paired with the Smart Tx.
