SuperATV CFMOTO ZForce 950 Sport 4 Full Skid Plate User Manual

Brand: SuperATV | Model: FSP-CF-ZF9504

PRODUCT OVERVIEW

This manual provides essential information for the installation, operation, and maintenance of your SuperATV CFMOTO ZForce 950 Sport 4 Full Skid Plate. This product is designed to provide robust undercarriage protection for your vehicle.

A Full Skid Plate protects your ZForce's undercarriage with armor that can take the hits. Our CFMOTO ZForce 950 Sport 4 skid plate gives you the protection you and your crew need. It's built to keep rocks, logs, and anything else from wrecking your UTV or penetrating your cab.

INSTALLATION AND SETUP

The SuperATV Full Skid Plate features a patented interlocking design for a secure and straightforward installation. All necessary hardware is included and designed for flush mounting to ensure a smooth underside.

Key Installation Features:

- **Patented Interlocking Design:** Ensures an easy, secure, and gapless fit.
- **Countersunk Hardware:** Provides a perfectly smooth surface, preventing snags on obstacles.
- **Simple Bolt-On Installation:** Panels bolt directly to your vehicle's frame for a secure fit that resists loosening.

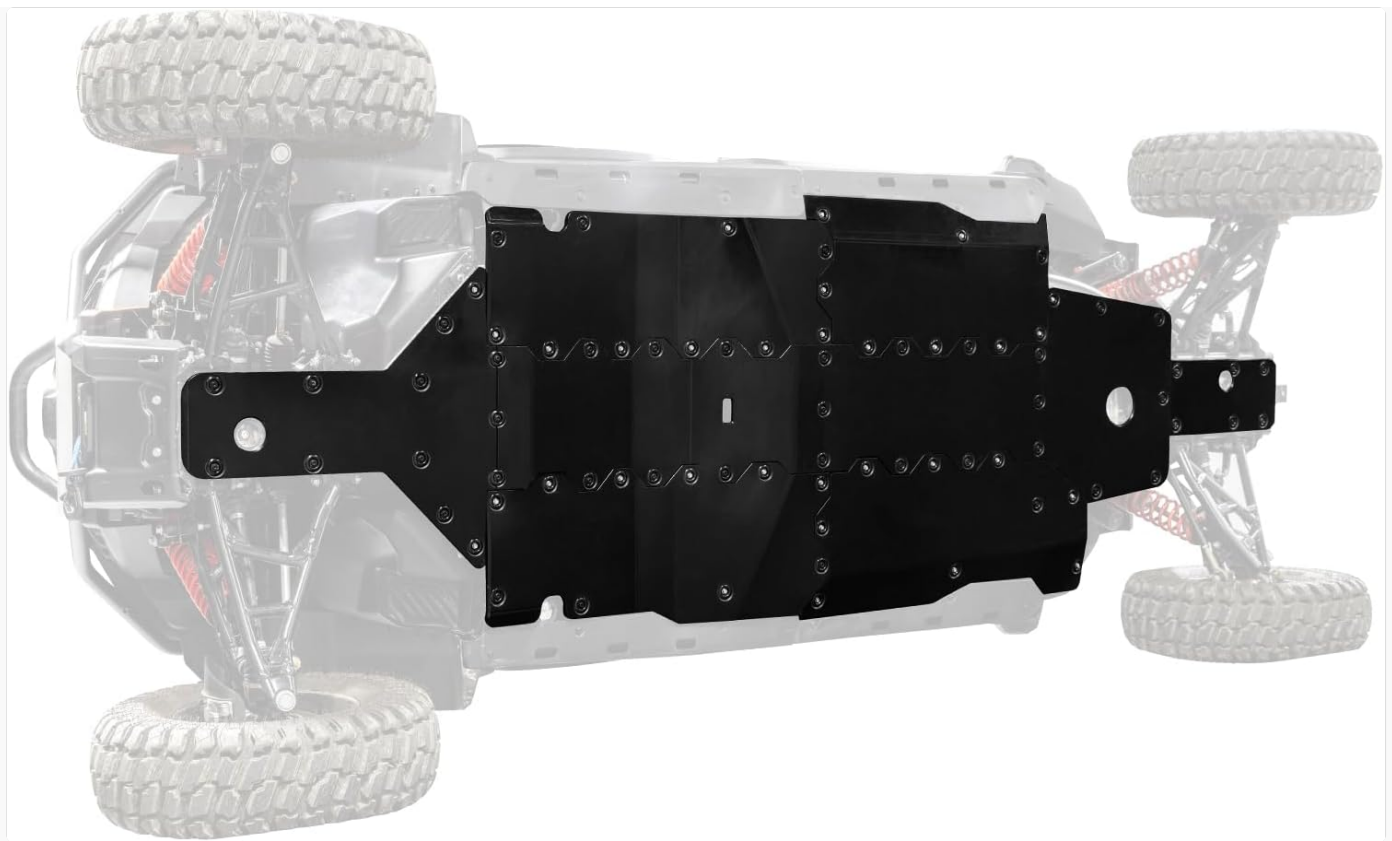

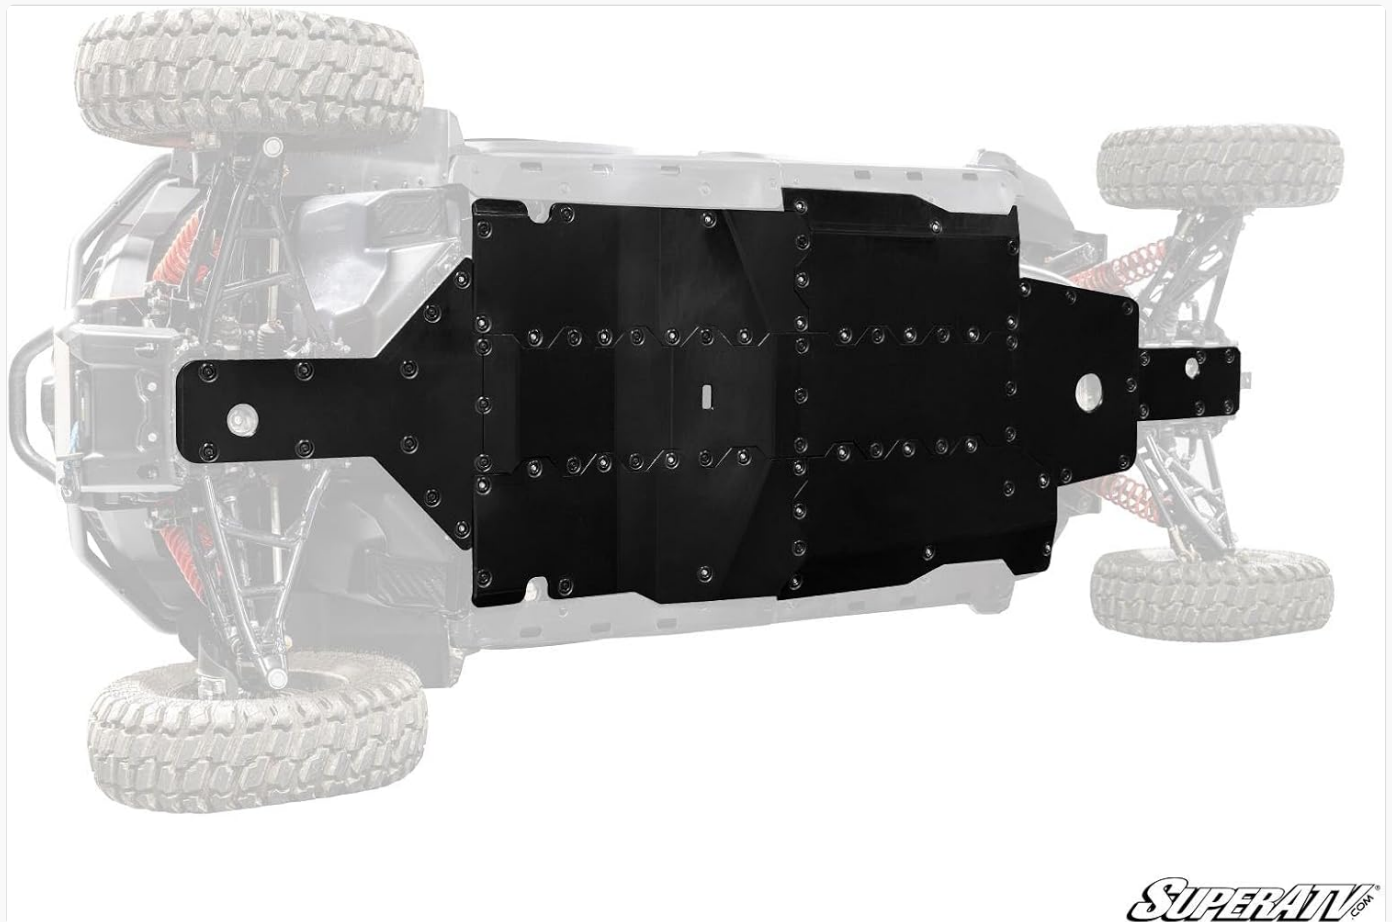

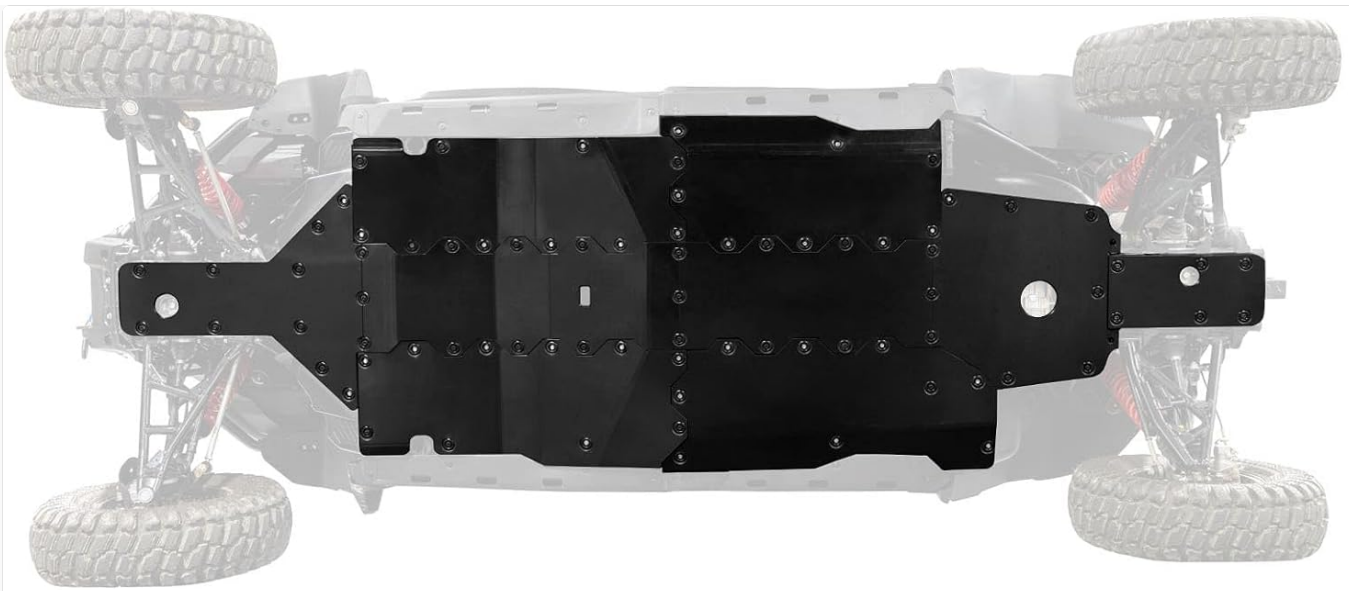

Figure 1: The SuperATV Full Skid Plate fully installed on the underside of a CFMOTO ZForce 950 Sport 4. This image highlights the extensive coverage provided by the multi-panel system, secured with numerous countersunk bolts.

Figure 4: View of the rear portion of the SuperATV Full Skid Plate, demonstrating how it extends to protect critical components towards the back of the UTV's undercarriage.

PRODUCT FUNCTION AND OPERATION

The SuperATV Full Skid Plate is engineered to provide comprehensive protection for your CFMOTO ZForce 950 Sport 4's undercarriage. Its primary function is to shield vital components from damage caused by impacts with rocks, logs, stumps, and other trail debris.

Operational Benefits:

- **Impact Resistance:** Made from 1/2" ARMW, a proprietary blend of UHMW, it offers exceptional resistance to abrasion, breaking, and bending.
- **Smooth Gliding:** The perfectly smooth, gapless design with countersunk hardware allows the vehicle to slide over obstacles without getting hung up.
- **Enhanced Safety:** Prevents debris from penetrating the cab, ensuring a safer riding experience for occupants.

This skid plate ensures your UTV's critical systems, such as the drivetrain, fuel lines, and electrical components, remain protected during aggressive off-road use.

MAINTENANCE

Maintaining your SuperATV Full Skid Plate is straightforward, primarily focusing on cleaning to ensure longevity and optimal performance.

Cleaning Instructions:

- **Drainage Ports:** The skid plate panels are equipped with built-in drainage ports. These ports allow for easy washing out of accumulated mud, dirt, and debris.
- **Washing:** Use a hose or pressure washer to spray water through the drainage ports and across the surface of the skid plate to remove dirt.
- **Inspection:** Periodically inspect the skid plate for any signs of damage or loose hardware. Tighten any bolts as necessary.

Regular cleaning prevents buildup that could potentially trap moisture or debris, ensuring the continued protection of your vehicle's undercarriage.

TROUBLESHOOTING

The SuperATV Full Skid Plate is a passive protection component and typically requires minimal troubleshooting. Most issues would relate to installation or physical damage.

Common Considerations:

- **Loose Hardware:** If you notice any rattling or movement from the skid plate, inspect all mounting bolts and tighten them to the manufacturer's recommended torque specifications.
- **Excessive Wear/Damage:** While highly durable, extreme impacts can cause localized wear or damage. If significant damage occurs, consider replacing the affected panel(s) to maintain full protection.
- **Fitment Issues:** Ensure the skid plate is installed on the correct vehicle model and year as specified in the product fitment. Refer to the installation guide for proper alignment.

For any persistent issues or concerns not addressed here, please contact SuperATV customer support.

SPECIFICATIONS

Feature	Detail
Product Name	CFMOTO ZForce 950 Sport 4 Full Skid Plate
Brand	SuperATV
Model Number	FSP-CF-ZF9504
Material	1/2" Proprietary ARMW (UHMW Blend)
Weight	Approximately 73 pounds
Package Dimensions	42 x 29 x 8 inches
Fitment	CFMOTO ZForce 950 4 Sport : 2023+
Design Features	Patented Interlocking Design, Countersunk Hardware, Built-in Drainage Ports
