Raysfung P-JDJL24-P003-01-1new

Raysfung Large Metal Chicken Coop Instruction Manual

Model: P-JDJL24-P003-01-1new

INTRODUCTION

This manual provides essential instructions for the safe assembly, operation, and maintenance of your Raysfung Large Metal Chicken Coop. Please read this manual thoroughly before beginning assembly or use to ensure proper function and longevity of the product. Retain this manual for future reference.

SAFETY INFORMATION

- Always wear appropriate safety gear, such as gloves, during assembly to prevent injury.
- Ensure all components are securely fastened before use. Regularly check for loose parts.
- Position the coop on level ground to ensure stability.
- Keep children and pets away from the assembly area.
- Do not modify the product in any way, as this may compromise its structural integrity and void any warranty.
- In strong winds or severe weather, ensure the cover is securely fastened and consider additional anchoring if necessary.

PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, contact customer service.

- Galvanized Steel Pipes (various lengths and connectors)
- Hexagonal Wire Mesh
- PE Fabric Waterproof Cover
- Lockable Galvanized Metal Door Assembly
- Ground Stakes
- Ball Bungee Cords (for cover attachment)
- Assembly Hardware (bolts, nuts, etc.)
- Instruction Manual

SETUP AND ASSEMBLY

Assembly typically requires two people. Follow the detailed installation instructions provided in the package. The general steps are outlined below:

1. **Frame Assembly:** Connect the galvanized steel pipes to form the main structure. Ensure all connections are tight and secure. The frame includes reinforced rods for stability.
2. **Wire Mesh Installation:** Attach the hexagonal wire mesh to the assembled frame. Ensure the mesh is taut and securely fastened to prevent gaps.
3. **Door Installation:** Install the lockable galvanized metal door assembly. Verify that the door opens and closes smoothly and the latch functions correctly.
4. **Cover Placement:** Drape the PE fabric waterproof cover over the spire roof frame. Secure the cover using the provided ball bungee cords, ensuring it is taut to prevent water accumulation.
5. **Anchoring:** Use the ground stakes to anchor the coop firmly to the ground, especially in areas prone to wind.

OPERATING INSTRUCTIONS

The Raysfung Large Metal Chicken Coop is designed for ease of use and animal safety.

- **Access:** The walk-in design features a large, lockable door (5.41 ft high, 2.13 ft wide) for convenient entry and exit, facilitating feeding, cleaning, and animal care. Always ensure the door is securely latched to prevent escapes and deter predators.
- **Protection:** The 160g thickened PE fabric cover provides waterproof and UV-resistant protection, shielding poultry from rain, sun, and other elements. The spire roof design prevents water accumulation. The durable hexagonal wire mesh and sturdy frame are designed to prevent chickens from escaping and to deter common predators such as coyotes, eagles, foxes, and raccoons.
- **Multipurpose Use:** This coop is suitable for various poultry and small animals, including chickens, ducks, rabbits, and geese.

Image: The coop's design provides protection against common predators, ensuring the safety of your poultry.

Regular maintenance will extend the lifespan of your chicken coop and ensure a safe environment for your animals.

- **Cleaning:** Periodically clean the galvanized steel frame and wire mesh with mild soap and water. Rinse thoroughly and allow to dry. The PE fabric cover can also be wiped clean.
- **Inspection:** Regularly inspect all structural components, including pipes, connectors, and wire mesh, for any signs of damage, rust, or wear.
- **Fasteners:** Check all bolts, nuts, and bungee cords to ensure they remain tight and secure. Tighten any loose fasteners.
- **Cover Condition:** Inspect the PE fabric cover for tears or damage. Repair or replace as needed to maintain waterproof and UV protection.
- **Ground Anchoring:** Verify that ground stakes are firmly in place, especially after heavy rain or strong winds.

TROUBLESHOOTING

This section addresses common issues you might encounter.

- **Loose Components:** If any part of the frame or mesh feels loose, re-check and tighten all connections and fasteners.
- **Water Accumulation on Cover:** Ensure the PE fabric cover is taut and properly secured with bungee cords. The spire roof design is intended to prevent pooling, but sagging can occur if not properly installed.
- **Mesh Damage:** If the wire mesh is damaged, repair it promptly to prevent animal escape or predator entry. Small tears can often be mended with wire.
- **Door Not Latching:** Check for obstructions in the latch mechanism or misalignment of the door frame. Adjust as necessary to ensure a secure closure.

SPECIFICATIONS

Feature	Detail
Model Number	P-JDJL24-P003-01-1new
Product Dimensions (L x W x H)	116.4" x 77.1" x 77.1" (9.7 ft x 6.4 ft x 6.4 ft)
Door Dimensions (H x W)	5.41 ft x 2.13 ft
Material	Galvanized Steel Frame, Hexagonal Wire Mesh, 160g PE Fabric Cover
Item Weight	40.8 pounds
Target Species	Chicken, Duck, Rabbit, Goose
Special Features	Durable, Waterproof, UV Resistant Cover, Walk-in Design, Lockable Door
