User Manual

AEROZY Portable Evaporative Cooler

Model: BUMAI2388

Introduction

Thank you for purchasing the AEROZY Portable Evaporative Cooler. This versatile 3-in-1 unit is designed to provide blowing, humidifying, and cooling functions, enhancing the comfort of your indoor environment. Its energy-efficient design and portable nature make it an ideal solution for various rooms without the need for window venting. Please read this manual thoroughly before operation to ensure proper use, maintenance, and safety.

Important Safety Instructions

- Always place the unit on a stable, level surface to prevent tipping.
- Do not immerse the unit, power cord, or plug in water or other liquids.
- Unplug the unit from the power outlet when not in use, before cleaning, or before performing any maintenance.
- Keep the unit out of reach of children and pets.
- Do not block air inlets or outlets. Ensure adequate space around the unit for proper airflow.
- Use only the power supply specified for this unit.
- Do not operate the unit with a damaged cord or plug, or if it has malfunctioned or been dropped.
- Do not attempt to repair or disassemble the unit yourself. Contact qualified service personnel.

Product Overview

The AEROZY Portable Evaporative Cooler is designed for ease of use and efficient cooling. Familiarize yourself with its components:

- Air Cooler Unit (x1)
- User Manual (x1)
- Ice Boxes (x4)
- Remote Control (x1)

Figure 1: AEROZY Portable Evaporative Cooler and Remote Control.

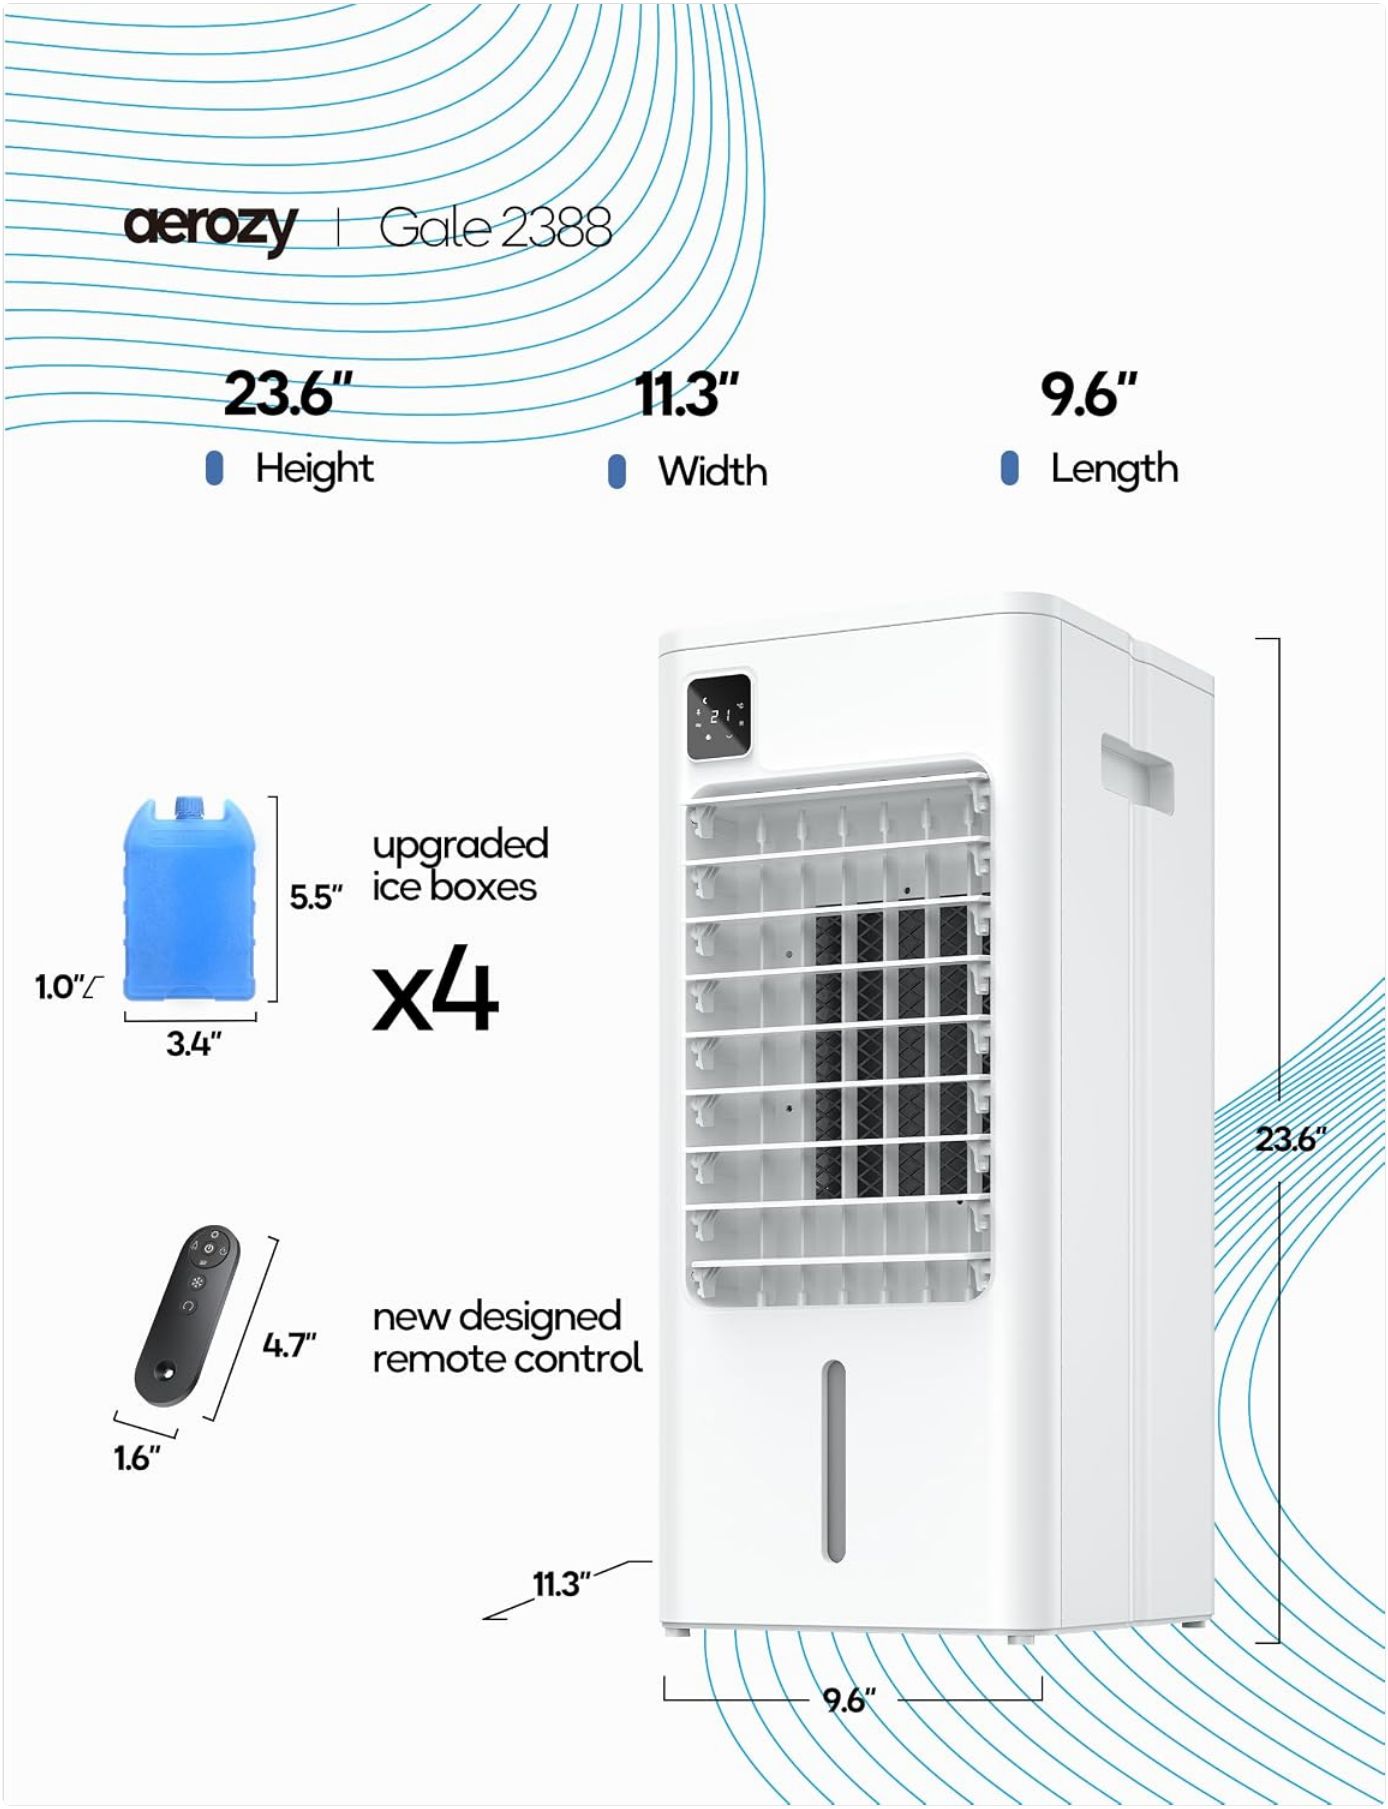

Figure 2: Product dimensions (23.6" H x 11.3" W x 9.6" L) and included ice boxes (5.5" x 3.4" x 1.0").

Setup

1. **Unpacking:**

   Carefully remove the unit and all accessories from the packaging. Retain packaging for future storage or transport.

2. **Caster Installation:**

   The unit comes with detachable casters for easy mobility. Insert the casters into the designated slots on the bottom of the unit until they click securely into place. No tools are required for this step.

Figure 3: Detachable casters allow for easy movement of the unit.

3. **Filling the Water Tank:**

   Locate the water tank at the bottom of the unit. Pull out the tank and fill it with clean water. The tank has a 2-gallon capacity. Do not exceed the maximum fill line.

Figure 4: The 2-gallon water tank is easily accessible for filling.

4. **Using Ice Boxes:**

   For enhanced cooling, place the included ice boxes in the freezer until completely frozen. Once frozen, place them directly into the water tank.

5. **Power Connection:**

   Plug the power cord into a standard electrical outlet. Ensure the voltage matches the unit's requirements.

Operating Instructions

The AEROZY Evaporative Cooler can be controlled via the digital display on the unit or the included remote control.

Control Panel and Digital Display

Figure 5: Digital display and control buttons for easy operation.

The digital display shows the current settings and status. Buttons on the top panel allow you to power on/off, adjust speed, select mode, set timer, and control oscillation.

Remote Control

The remote control provides convenient operation from a distance. Ensure the remote has working batteries (batteries required, not included).

Figure 6: Operating the cooler with the remote control.

Functions and Modes

- **Power On/Off:** Press the power button on the unit or remote to turn the cooler on or off.
- **Speed Settings:** The unit offers 3 speed settings (Low, Medium, High) to adjust airflow intensity.
- **Operating Modes:**
    - **Natural Mode:** Simulates natural breeze with varying fan speeds.
    - **Normal Mode:** Constant fan speed.
    - **Cooling Mode:** Activates the evaporative cooling function, utilizing water and ice packs for a cooler output.
    - **Sleep Mode:** Operates at a quieter level with reduced fan speed for undisturbed rest.
- **12-Hour Timer:** Set the cooler to automatically turn off after a specified duration, up to 12 hours. This feature promotes energy efficiency and convenience.
- **Oscillation:** The unit features 100° horizontal oscillation to distribute cool air across a wider area. Manual tilt allows for 90° vertical adjustment.

Figure 7: Airflow distribution with 100° oscillation and 90° manual tilt.

Figure 8: The 12-hour timer feature for convenient operation.

Maintenance

Regular maintenance ensures optimal performance and longevity of your AEROZY Evaporative Cooler.

1. **Cleaning the Exterior:**

Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.

2. **Water Tank Cleaning:**

   Empty and clean the water tank regularly, especially if the unit is not used for an extended period. This prevents mold and mildew buildup. Use a mild detergent and rinse thoroughly.

3. **Filter Cleaning:**

   The unit's filter should be cleaned periodically to maintain airflow and cooling efficiency. Refer to the filter access panel for removal and cleaning instructions. Rinse with water and allow to air dry completely before reinserting.

4. **Storage:**

   When storing the unit, ensure the water tank is empty and dry. Clean the unit thoroughly and store it in a cool, dry place, preferably in its original packaging.

Troubleshooting

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply; power button not pressed.	Check power cord connection; ensure outlet is functional; press power button.
Weak airflow.	Air filter is dirty; air inlet/outlet blocked.	Clean the air filter; ensure no obstructions around the unit.
No cooling effect.	Water tank is empty; ice packs not frozen or used.	Fill water tank; ensure ice packs are frozen and placed in tank.
Unusual noise.	Unit not on a level surface; foreign object inside.	Place unit on a level surface; unplug and check for foreign objects. If noise persists, contact support.
