Devoko 250063BK

Devoko 160 Gallon Double-Wall Deck Box

MODEL: 250063BK

Brand: Devoko

1. Introduction

Thank you for choosing the Devoko 160 Gallon Double-Wall Deck Box. This versatile outdoor storage solution is designed to help you organize your patio, garden, or pool area, providing ample space for cushions, tools, sports equipment, and more. Its robust construction ensures durability and protection for your belongings against various weather conditions. This manual will guide you through the assembly, operation, and maintenance of your new deck box.

Image 1.1: The Devoko 160 Gallon Deck Box, shown open and filled with outdoor items, demonstrating its large storage capacity.

2. Product Features

- **160 Gallon Capacity:** Provides extensive storage space for a wide range of outdoor items.
- **Double-Wall Structure:** Enhanced durability and resistance to damage from external factors.
- **Partitioned Storage:** Includes a removable divider for organized storage, allowing you to separate items as needed.
- **Hydraulic Hinge (Gas Rod Design):** Ensures smooth, easy opening and slow, safe closing of the lid, preventing accidental slamming or pinching.
- **Lockable Lid:** Provides added security for your stored belongings (lock not included).
- **Weather-Resistant HDPE Material:** Constructed from high-density polyethylene resin that resists fading, rusting, and peeling, maintaining its appearance over time.
- **Multi-functional Design:** Can also serve as extra seating, supporting up to 600 pounds.
- **Side Handles:** Integrated handles on both sides for convenient relocation.

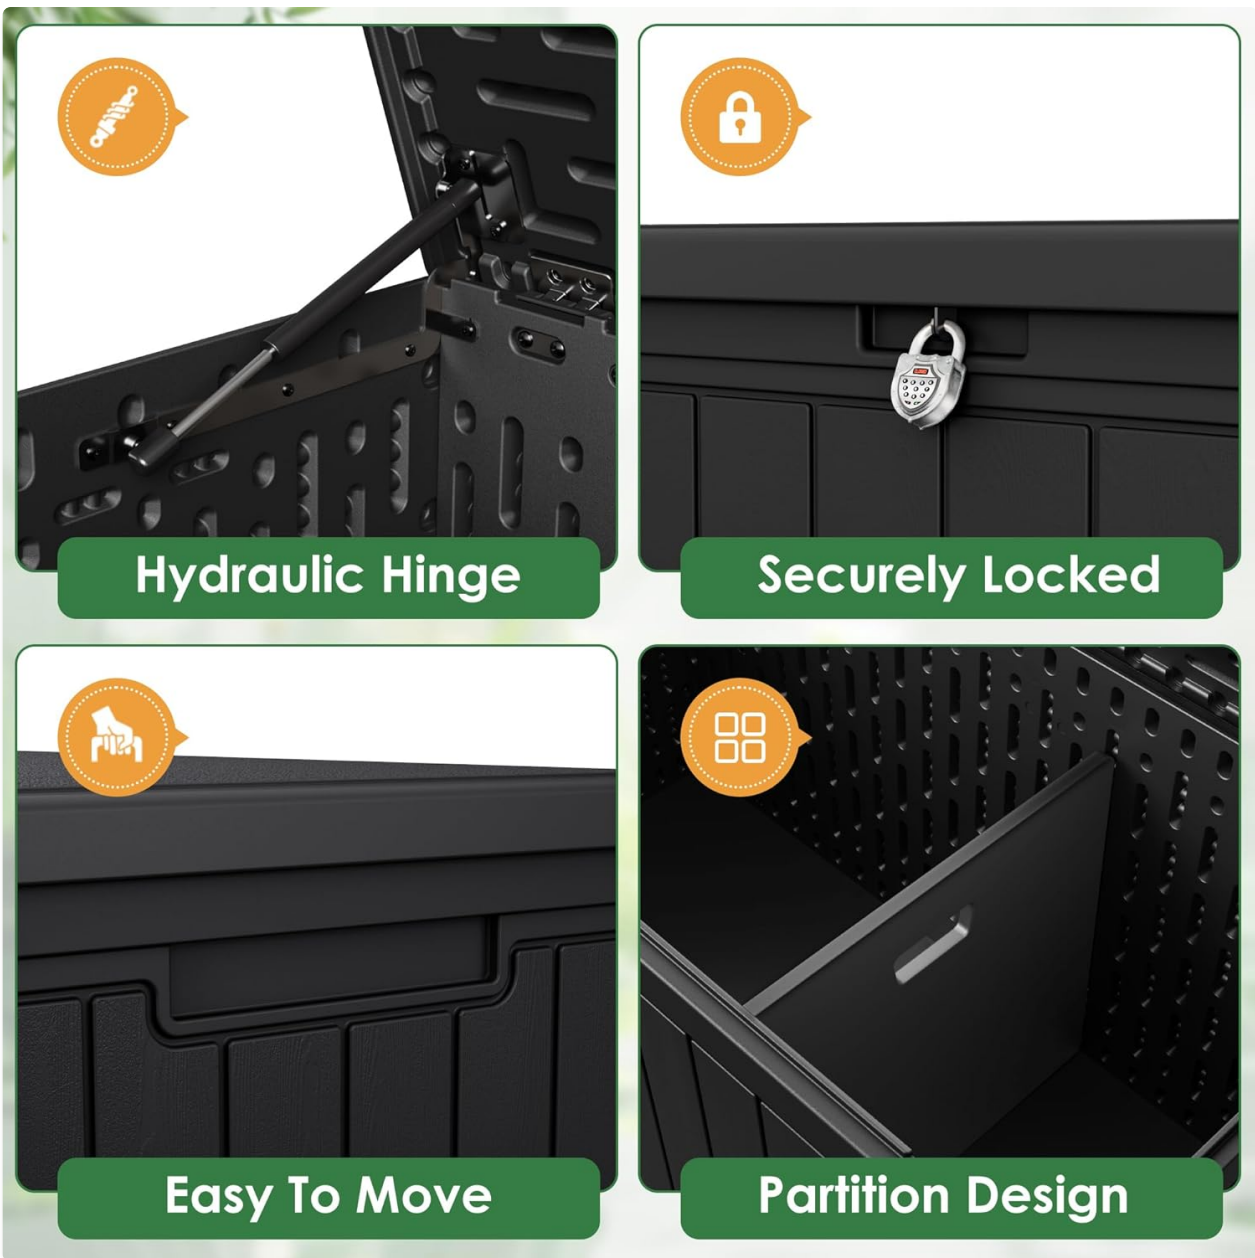

Image 2.1: Detailed view of the deck box's key features, including the hydraulic hinge for smooth lid operation, the lockable mechanism for security, integrated side handles for portability, and the internal partition design for organized storage.

REMOVABLE DIVIDER

Image 2.2: Illustration of the removable divider, demonstrating how it can be used to create separate compartments for different types of items, or removed for larger storage needs.

DOUBLE WALL PANELS

More Sturdy

Not Easily Cracked

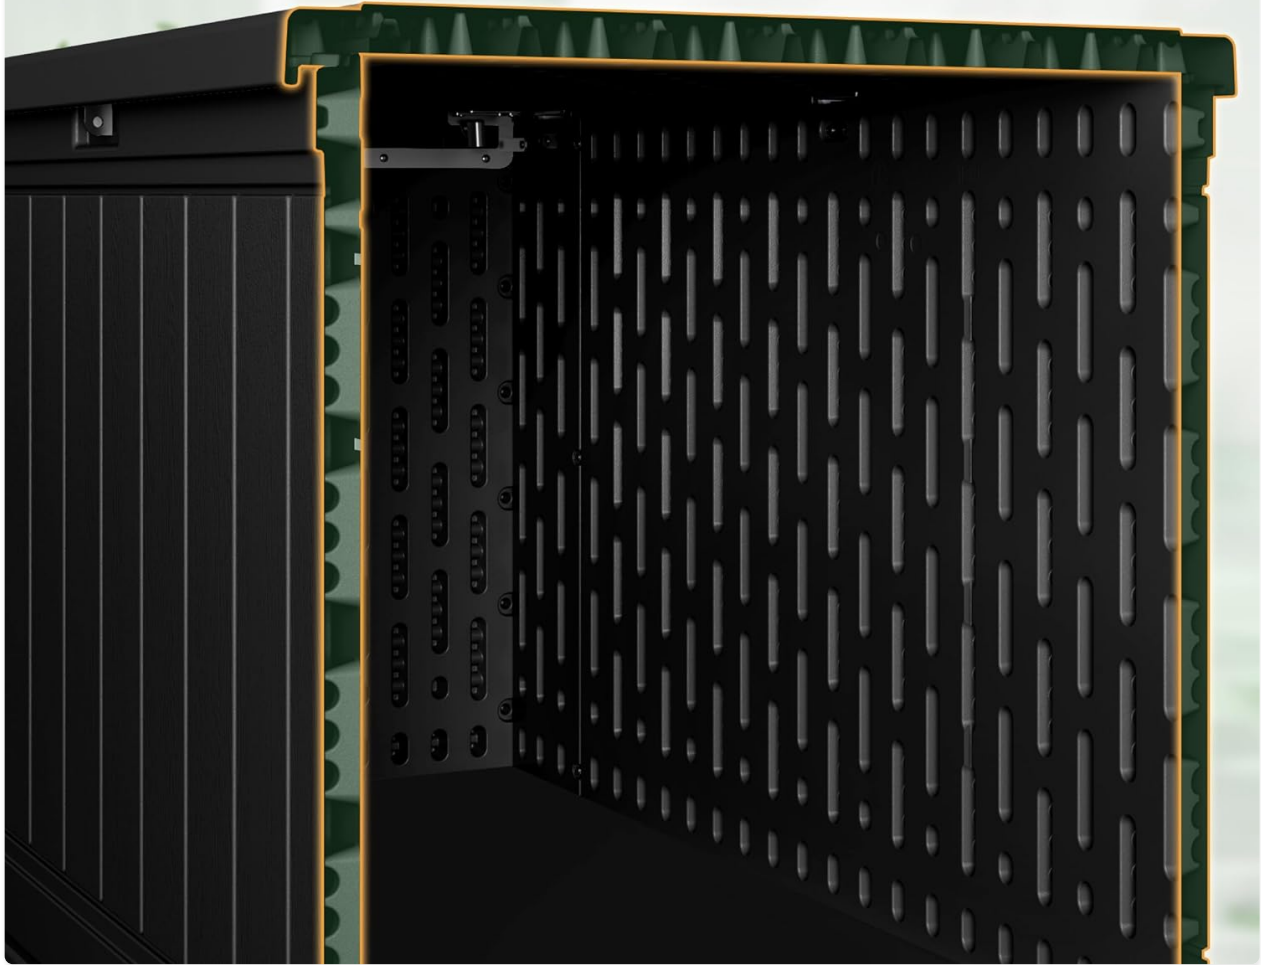

Image 2.3: A cross-section view emphasizing the double-wall panel construction, which contributes to the box's enhanced sturdiness and resistance to cracking.

Image 2.4: Visual representation of the deck box's all-weather resistance, showcasing its UV protection and waterproof capabilities against sun and rain.

3. Setup and Assembly

Your Devoko Deck Box is shipped in two packages and requires assembly. Please ensure all parts are present before beginning. While specific assembly steps are not detailed here, general guidelines include:

1. Unpack all components and verify against the parts list (typically found in a separate assembly guide).
2. Assemble the base and side panels according to the interlocking or screw-fastening instructions.
3. Install the internal divider if desired, ensuring it slots securely into place.
4. Attach the lid, carefully aligning the hydraulic hinges and securing them as instructed.
5. Place the deck box on a flat, stable surface to ensure proper lid alignment and stability.

For detailed assembly instructions, please refer to the separate assembly manual included with your product packaging.

4. Operating Instructions

Using your Devoko Deck Box is straightforward:

- **Opening the Lid:** Gently lift the lid. The hydraulic hinges will assist in opening and holding the lid in an open position, preventing it from falling unexpectedly.
- **Closing the Lid:** Gently pull the lid downwards. The hydraulic hinges will ensure a slow and controlled closing motion, preventing sudden drops and protecting your fingers.
- **Using the Divider:** The internal divider can be inserted or removed to customize your storage space. Simply slide it into the designated grooves to create two compartments, or remove it for a single, large storage area.
- **Locking the Box:** To secure your items, align the padlock hole on the lid with the corresponding hole on the box. Insert a standard padlock (not included) through the aligned holes and lock it.
- **As a Seat:** The sturdy construction allows the deck box to be used as additional seating. Ensure the lid is fully closed and securely latched before sitting on it. The maximum weight capacity for seating is 600 pounds.

5. Maintenance and Care

To ensure the longevity and appearance of your Devoko Deck Box, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the exterior with a damp cloth and mild soap as needed. Avoid abrasive cleaners or harsh chemicals, which can damage the resin material.
- **Weather Protection:** While the box is weather-resistant, prolonged exposure to extreme conditions (e.g., heavy snow accumulation, standing water) should be minimized. Ensure the lid is always securely closed to prevent water ingress.
- **Inspection:** Periodically check the hydraulic hinges and all connections to ensure they are secure and functioning correctly.
- **Storage:** When not in use for extended periods, especially during off-season, ensure the box is clean and dry before closing.

6. Troubleshooting

If you encounter any issues with your deck box, consider the following common solutions:

- **Lid not closing properly:** Ensure the box is on a level surface. Check for any obstructions around the lid or hinges. Verify that the hydraulic hinges are correctly installed and not damaged.
- **Water inside the box:** Confirm the lid is fully closed and latched. Inspect the seals around the lid for any damage or gaps. Ensure the box is not placed in an area where water can pool around its base.
- **Difficulty moving the box:** Ensure the box is empty or contains minimal weight before attempting to move it using the side handles.

7. Specifications

Image 7.1: A detailed diagram illustrating the external dimensions of the Devoko 160 Gallon Deck Box, including length, width, and height, along with the internal capacity.

Attribute	Detail
Brand	Devoko
Model Number	250063BK
Color	Black
