NIIMBOT B1

NIIMBOT B1 Label Maker Machine User Manual

Model: B1

Introduction

The NIIMBOT B1 is a portable Bluetooth thermal label maker designed for various labeling needs in home, school, office, and small business environments. This device utilizes direct thermal printing technology, eliminating the need for ink or toner. It offers compatibility with iOS and Android smartphones, allowing for easy label design and printing through the dedicated NIIMBOT app. This manual provides detailed instructions to help you set up, operate, and maintain your NIIMBOT B1 label maker.

Package Contents

- NIIMBOT B1 Label Maker x1
- Type-C Cable x1
- User Manual x1
- Roll label tape (50x30mm) x1 (pre-installed in the machine)

Setup Guide

Image: An overview of the four easy steps to use the NIIMBOT B1 Label Maker: Download App, Connect via Bluetooth, Edit, and Print & Paste.

1. **Step 1: Download the NIIMBOT App**

   Install the official NIIMBOT app from the Apple App Store (for iOS devices) or Google Play Store (for Android devices). Search for "NIIMBOT".

2. **Step 2: Connect via Bluetooth**

   Turn on your NIIMBOT B1 label maker by pressing the power button. Open the NIIMBOT app on your smartphone and connect to the device via Bluetooth. Ensure Bluetooth is enabled on your phone. The app will guide you through the connection process.

3. **Step 3: PC Connection (Optional)**

   For PC connection via USB, download the necessary driver from the official NIIMBOT website. The printer is compatible with PC but not iPads.

4. **Step 4: Loading Label Paper**

   The label maker supports label widths from 20mm to 50mm. Ensure you use only NIIMBOT thermal label paper for optimal performance. To load, gently open the printer cover, place the label roll with the printing surface facing

up, and ensure the leading edge of the label paper is aligned with the print head. Close the cover firmly. The printer features automatic label recognition.

Operating Instructions

Using the NIIMBOT App

The NIIMBOT app is a powerful tool for designing and printing labels. It offers a wide range of customization options:

- **Templates:** Access pre-made templates for various uses.
- **Fonts & Languages:** Choose from over 10+ fonts and multiple languages.
- **Borders & Symbols:** Utilize 100+ borders and 1500+ symbols, icons, barcodes, and QR codes.
- **Customization:** Add text, images, time, and tables to your labels.

Image: Screenshot of the NIIMBOT app's editing interface, showing options for text, images, icons, and other design elements.

Printing Labels

1. **Design Your Label:** Use the app's features to create your desired label.
2. **Preview:** Review the label design in the app before printing.
3. **Print:** Send the design to your connected NIIMBOT B1 printer. The printer will automatically feed and print the label.
4. **Peel and Apply:** Once printed, peel the label from its backing and apply it to your desired item.

Image: Further examples of label applications, such as jar labels, gift labels, thank you labels, and address labels, demonstrating the versatility of the NIIMBOT B1.

Maintenance

- **Cleaning:** Regularly clean the print head with a soft, lint-free cloth to ensure clear print quality. Do not use harsh

chemicals or abrasive materials.

- **Label Storage:** Store NIIMBOT thermal labels in a cool, dry place away from direct sunlight and heat to preserve their quality and adhesive properties.
- **Battery Care:** To prolong battery life, charge the device regularly and avoid fully discharging it for extended periods. If storing for a long time, charge it to about 50% every few months.

Troubleshooting

If you encounter issues with your NIIMBOT B1 label maker, consider the following common solutions:

- **Printer Not Connecting:** Ensure Bluetooth is enabled on your smartphone and the printer is turned on. Try restarting both the printer and the app. Make sure the printer is within Bluetooth range.
- **Poor Print Quality:** Check if the label paper is loaded correctly with the printing surface facing up. Clean the print head. Ensure you are using genuine NIIMBOT thermal labels, as off-brand labels may cause issues.
- **Labels Not Recognized:** Only NIIMBOT thermal label paper is supported. Off-brand labels may not be recognized by the printer's automatic recognition system.
- **No Printing:** Verify the printer has sufficient battery charge. Check the app for any error messages or print queue issues. Ensure the label roll is properly installed.

For further assistance, refer to the comprehensive help section within the NIIMBOT app or visit the official NIIMBOT support website.

Specifications

Feature	Detail
Brand	NIIMBOT
Model Name	B1
Connectivity Technology	Bluetooth
Printing Technology	Thermal
