uaue T60

uaue T60 Smart Watch User Manual

Model: T60

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your uaue T60 Smart Watch. Please read this manual thoroughly before using the device to ensure proper function and to maximize your user experience.

2. WHAT'S IN THE BOX

- Smart Watch x 1
- Magnetic Charger x 1
- User Manual x 1

3. SETUP

3.1. Charging the Device

Before first use, fully charge your smart watch. Connect the magnetic charger to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge typically takes approximately 2 hours.

Image 3.1: The uau T60 Smart Watch connected to its magnetic charger, illustrating the charging process and battery life.

3.2. Downloading and Installing the App

The uau T60 Smart Watch requires the 'GloryFit' application for full functionality. Download the 'GloryFit' app from your smartphone's app store (compatible with iOS 9.0+ and Android 4.0+).

3.3. Pairing the Smart Watch

1. Ensure your watch is charged and powered on.
2. Enable Bluetooth on your smartphone.
3. Open the 'GloryFit' app and follow the on-screen instructions to search for and bind your device. Select 'T60' from the list of available devices.
4. Confirm the pairing request on both your phone and the watch.

3.4. Enabling Call Function

To use the call function (making and receiving calls) on your watch:

1. After successful binding in the 'GloryFit' app, ensure the watch's Bluetooth is connected to your phone.
2. Go to your phone's Bluetooth settings and locate 'T60' (or a similar name for the call audio connection). Connect to this second Bluetooth profile.
3. Once connected, you can use the watch to answer/make calls.

4. OPERATING INSTRUCTIONS

4.1. Basic Navigation

The uauue T60 Smart Watch features a 1.91-inch HD touch screen for intuitive navigation. Swipe left, right, up, or down to access different functions and menus. The side button typically serves as a power button or a return-to-home function.

4.2. Customizing Watch Faces

You can personalize your watch face from over 200 online options available in the 'GloryFit' app. You can also upload your own photos to use as a custom background.

4.3. Making and Receiving Calls

With the Bluetooth call function enabled, you can make calls directly from your watch using the dial pad or by accessing synchronized contacts. Incoming calls can be answered or rejected directly from the watch screen.

4.5. Health Monitoring

The T60 Smart Watch is equipped with a high-precision LC10A photoelectric sensor for comprehensive health tracking.

- **Heart Rate Monitoring:** Continuously tracks your heart rate throughout the day.
- **Sleep Monitoring:** Records deep sleep, light sleep, and wake-up times to provide insights into your sleep patterns.
- **Blood Oxygen Monitoring:** Measures blood oxygen levels.
- **Menstrual Cycle Tracking:** A dedicated feature for women to track and predict menstrual cycles.

24/7 Accurate Health Monitoring

tracks your daily physical status, the 24-hour
Online health assistant on your wrist.

4.6. Sports Modes

The watch supports over 112 sports modes, including running, cycling, hiking, yoga, and more. It records real-time data such as steps, distance, and calories burned to help you track your fitness progress.

All-Day Activity Tracking

Image 4.5: The uauw T60 Smart Watch tracking outdoor activities, showing steps, distance, calories, and heart rate data.

4.7. Music Control

When connected to the 'GloryFit' app, you can control music playback on your phone directly from the watch. This includes playing, pausing, skipping tracks, and adjusting volume.

4.8. Camera Control

Use your watch as a remote shutter for your phone's camera. Open the camera function in the 'GloryFit' app and tap the watch screen to take photos.

4.9. Other Functions

The uauw T60 Smart Watch includes over 20 practical functions:

- Timer
- Stopwatch
- Alarm Clock
- Sedentary Reminder
- Weather Forecast
- Brightness Adjustment
- Calculator
- Find Phone
- Flashlight
- Calendar
- Breathe Training

Multifunctional Smartwatch

The T60 smartwatch has more practical functions and can become a convenient assistant in your life.

5. MAINTENANCE

5.1. Water Resistance (IP68)

The uau T60 Smart Watch is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for daily use, such as washing hands or wearing in the rain. **Note:** While IP68 rated, it is not recommended for swimming, hot showers, or diving, as steam and high water pressure can compromise the seals.

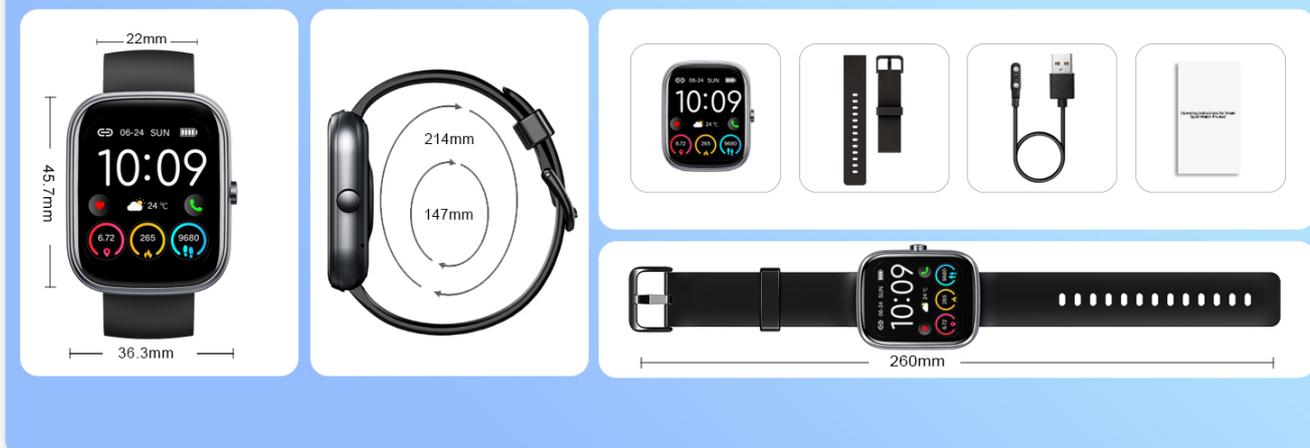

Image 5.1: The uauw T60 Smart Watch demonstrating its IP68 waterproof capability under running water.

5.2. Cleaning

Regularly clean your watch and strap to prevent skin irritation and maintain device longevity. Use a soft, damp cloth to wipe the watch. Avoid harsh chemicals or abrasive materials.

5.3. Battery Care

The watch features a 350 mAh Lithium Polymer battery, offering 5-7 days of typical use and up to 30 days of standby time. To prolong battery life, avoid extreme temperatures and fully charge the device when the battery is low.

6. TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the magnetic charger and allow it to charge for at least 30 minutes before attempting to power it on.
- **Cannot connect to the app:**
 - a. Verify Bluetooth is enabled on your phone.
 - b. Ensure the 'GloryFit' app has necessary permissions (location, Bluetooth).
 - c. Restart both your phone and the watch.
 - d. Make sure the watch is not already connected to another device.
- **Call function not working:** Ensure you have connected to the second Bluetooth profile for calls (e.g., 'T60_CALL') in your phone's Bluetooth settings, in addition to the main app connection.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, about one finger's width from your wrist bone. Avoid excessive movement during measurements.
- **Short battery life:** Factors like frequent calls, high screen brightness, continuous heart rate monitoring, and numerous notifications can reduce battery life. Adjust settings as needed.
- **Water resistance concerns:** While rated IP68, avoid prolonged submersion, hot water, or high-pressure water jets. If the watch gets wet, dry it thoroughly before charging.

7. SPECIFICATIONS

Feature	Specification
Model Number	T60
Screen Size	1.91 Inches
Display Type	TFT Color Screen
Connectivity	Bluetooth 5.4
Battery Capacity	350 Milliamp Hours (Lithium Polymer)
Charging Time	Approx. 2 hours
Typical Use Battery Life	5-7 days
Standby Time	Up to 30 days
