Elite Kitchen Supply HS-226

Elite Kitchen Supply Commercial Blender HS-226 User Manual

Model: HS-226

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before operating the blender.
- To protect against electrical shock, do not immerse the blender base, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner. Contact customer service for examination, repair, or adjustment.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Keep hands and utensils out of container while blending to prevent the possibility of severe injury to persons or damage to the blender. A scraper may be used but only when the blender is not running.
- Blades are sharp. Handle with care.
- Always operate blender with lid in place.
- Do not blend hot liquids in the blender.
- This appliance is equipped with **overload and overheat protection** for safe operation.
- Ensure the **safety switch** is engaged before operation.

Model: HS-226

Commercial heavy duty blender

HS-226

- 1.High speed motor: 9850 100% pure copper motor
- 2.4000ML unbreakable PC jar BPA free
- 3.Stainless steel 304 8pcs blades food grade meets FDA & EU standard
- 4.With overload and overheat protection
- 5.With safety switch
- 6.With speed control knob
- 7.With Pulse button
- 8.Housing material: ABS

PRODUCT COMPONENTS

The Elite Kitchen Supply Commercial Blender HS-226 includes the following components:

- Blender Base with Motor

- 4000ml BPA-Free PC Jar
- Lid with Removable Cap
- 8-Piece Stainless Steel Blade System (integrated into jar)

Figure 2: Main components of the blender, including the base, jar, and lid.

SETUP AND ASSEMBLY

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Cleaning:** Before first use, wash the 4000ml PC jar, lid, and removable cap with warm, soapy water. Rinse thoroughly and dry. The blender base should be wiped clean with a damp cloth. **Note: The jar is not dishwasher safe.**
3. **Placement:** Place the blender base on a stable, flat, and dry surface. Ensure there is adequate ventilation around the unit.
4. **Assemble Jar:** Place the 4000ml PC jar onto the blender base. Ensure it is securely seated. The jar features an integrated 8-piece stainless steel blade system.
5. **Secure Lid:** Place the lid onto the jar and twist to lock it into position. Ensure the removable cap is also securely in place.
6. **Power Connection:** Plug the power cord into a grounded electrical outlet (110-120V, 50/60Hz).

Figure 4: The blender's power plug, designed for standard grounded outlets.

OPERATING INSTRUCTIONS

The blender features a control panel with an ON/OFF switch, a variable speed dial, and a PULSE switch.

Figure 5: The control panel of the blender, showing the ON/OFF switch, variable speed dial (MIN to MAX), and PULSE switch.

1. **Prepare Ingredients:** Cut ingredients into appropriate sizes for blending. Do not overfill the 4000ml jar.
2. **Load Jar:** Place ingredients into the jar. Ensure the lid is securely fastened.
3. **Power On:** Flip the **OFF/ON** switch to the "ON" position.
4. **Select Speed:** Turn the variable speed dial to your desired blending speed. Start with a lower speed and gradually increase as needed.
5. **Pulse Function:** For short bursts of power or to chop ingredients, press and hold the **PULSE** switch. Release to stop. The pulse function operates at maximum speed.
6. **Blending:** Allow the blender to process ingredients until the desired consistency is achieved. The 1400W high-speed motor and 8 stainless steel blades ensure efficient blending.
7. **Power Off:** Once blending is complete, turn the speed dial to "MIN" and then flip the **OFF/ON** switch to the "OFF" position. Unplug the blender from the power outlet.
8. **Remove Contents:** Carefully remove the lid and pour out the blended contents.

Figure 6: The robust 8-piece stainless steel blade system designed for efficient blending.

MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and optimal performance of your blender.

- **Always unplug the blender before cleaning.**
- **Jar and Lid:** Wash the 4000ml PC jar, lid, and removable cap with warm, soapy water immediately after use. Rinse thoroughly and dry. **Do not place the jar in a dishwasher.**
- **Blender Base:** Wipe the blender base with a damp cloth. Do not immerse the base in water or any other liquid.
- **Blades:** Exercise extreme caution when cleaning the blades as they are very sharp. Use a brush to clean around the blades if necessary.
- **Storage:** Store the blender in a clean, dry place with the jar assembled on the base or stored separately.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; ON/OFF switch is off; jar not properly seated; safety switch not engaged.	Ensure power cord is securely plugged in. Flip ON/OFF switch to "ON". Ensure jar is correctly placed on the base and locked. Check safety switch.
Motor stops during operation.	Overload or overheat protection activated.	Unplug the blender. Remove some ingredients from the jar. Allow the motor to cool down for 15-20 minutes before restarting.
Ingredients are not blending smoothly.	Too little liquid; too many ingredients; ingredients are too large.	Add more liquid. Reduce the amount of ingredients. Cut ingredients into smaller pieces. Use the pulse function for stubborn items.

Problem	Possible Cause	Solution
Leakage from the bottom of the jar.	Jar not properly assembled or damaged.	Ensure the blade assembly is tightly secured to the jar. Check for cracks or damage to the jar. Contact customer service if damaged.

SPECIFICATIONS

Figure 7: Detailed specifications and dimensions for the HS-226 blender, including product size, jar capacity, and weight.

Feature	Detail
Model Number	HS-226
Brand	Elite Kitchen Supply
Power Source	Corded Electric
Wattage	1400 watts
Voltage	110-120 Volts
Frequency	50/60Hz
Capacity	4 Liters (4000ml / 135 oz)
