Bestier B701253D

Bestier Queen Upholstered Bed Frame with LED Lighting

Model: B701253D

Brand: Bestier

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Bestier Queen Upholstered Bed Frame with LED Lighting. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

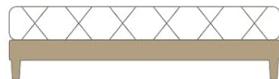

Important: Do not exceed the maximum weight capacity of 1100 lbs. Be cautious when adjusting the headboard height to prevent injury. Ensure all screws and connections are tightened securely before use. Keep small parts away from children during assembly.

PACKAGE CONTENTS

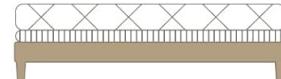

Your Bestier Queen Upholstered Bed Frame package includes all necessary parts, clearly labeled, and all required hardware for assembly. Please verify all components are present before starting. A step-by-step manual is included to guide you through the process.

Adjustable Upholstered Headboard

Recommend Mattress Height:
10''-12.5''

Recommend Total Height
(Mattress+Box Spring): 10''-12.5''

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the Bestier Queen Upholstered Bed Frame is designed to be straightforward, typically requiring two adults. All parts are clearly labeled, and pre-drilled holes ensure a smooth setup. Follow the included step-by-step manual for best results.

Assembly Overview Video

Video: Official Bestier Upholstered Bed Frame Assembly Instruction video, demonstrating the step-by-step process for setting up the bed frame.

Key Assembly Steps:

- 1. Unpack and Identify Parts:** Lay out all components and hardware. Refer to the parts list in your manual to ensure everything is accounted for.
- 2. Assemble the Headboard:** Attach the headboard legs to the upholstered headboard section. The headboard height is adjustable from 39.1" to 41.7" to accommodate mattresses from 10–12 inches thick.
- 3. Connect Side Rails:** Secure the upholstered side rails to the headboard and footboard using the provided hardware. Ensure all connections are tight to prevent squeaks.
- 4. Install Center Support:** Assemble and install the metal center support bar with its adjustable legs. This

provides crucial stability and prevents sagging.

5. **Place Wooden Slats:** Lay the solid wood slats across the frame. The slats are designed for easy installation and provide strong platform support, eliminating the need for a box spring.

OPERATING INSTRUCTIONS

LED Lighting

The Bestier Queen Upholstered Bed Frame features integrated warm white LED lighting (5050K) built into the headboard. To operate the LED lights, locate the inline switch on the power cord. Plug the bed frame into a standard electrical outlet. Use the switch to turn the lights on or off, creating a calming ambiance in your bedroom.

MAINTENANCE

To maintain the appearance and longevity of your Bestier bed frame, wipe the upholstered surfaces with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners, which may damage the fabric. Regularly check all screws and connections to ensure they remain tight and secure.

TROUBLESHOOTING

- Squeaking Noises:** If the bed frame produces squeaking noises, re-check all hexagon socket screws and self-draw screws. Tighten any loose connections. The anti-squeak construction is designed to prevent such issues when properly assembled.
- Mattress Shifting:** The bed frame features an embedded design to secure the mattress. If your mattress is shifting, ensure it is properly seated within the frame's perimeter. Verify that the mattress thickness is within the recommended 10-12 inches for optimal fit.
- LED Lights Not Working:** Check if the power cord is securely plugged into the wall outlet and the inline switch is in the 'on' position. Inspect the cable for any visible damage.

SPECIFICATIONS

Feature	Detail
Size	Queen (U.S. Standard)
Product Dimensions	80.98" L x 60.51" W x 39.13" H
Special Features	Adjustable Headboard, Corduroy Vertical Channel Tufted, LED Lighting

Color	Beige
