COLORWING B0DX24MRHB

COLORWING Smart Pill Dispenser User Manual

Model: B0DX24MRHB

1. PRODUCT OVERVIEW

The COLORWING Smart Pill Dispenser is a portable, Bluetooth-enabled 7-day pill organizer designed to assist with medication management. It features app-controlled reminders, a built-in alarm, and individual compartments for daily doses. This device aims to provide a convenient solution for organizing and remembering to take medications, supplements, or vitamins.

2. SAFETY INFORMATION

Please read and understand all safety information before using this product. Failure to follow these instructions may result in injury or damage to the device.

- **Choking hazard:** Keep out of reach of children. Small parts may pose a choking risk.
- Do not use if you have a pacemaker or other implantable medical device without consulting your healthcare provider.
- Consult your healthcare provider before use to ensure this device is appropriate for your specific medical needs.
- Do not use while driving or operating heavy machinery.
- Store the device in a cool, dry place, away from direct sunlight and extreme temperatures.
- Do not dispose of the device in regular household trash. Follow local regulations for electronic waste disposal.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- COLORWING Smart Pill Dispenser
- USB Charging Cable
- User Manual (this document)

4. DEVICE COMPONENTS

Familiarize yourself with the different parts of your Smart Pill Dispenser:

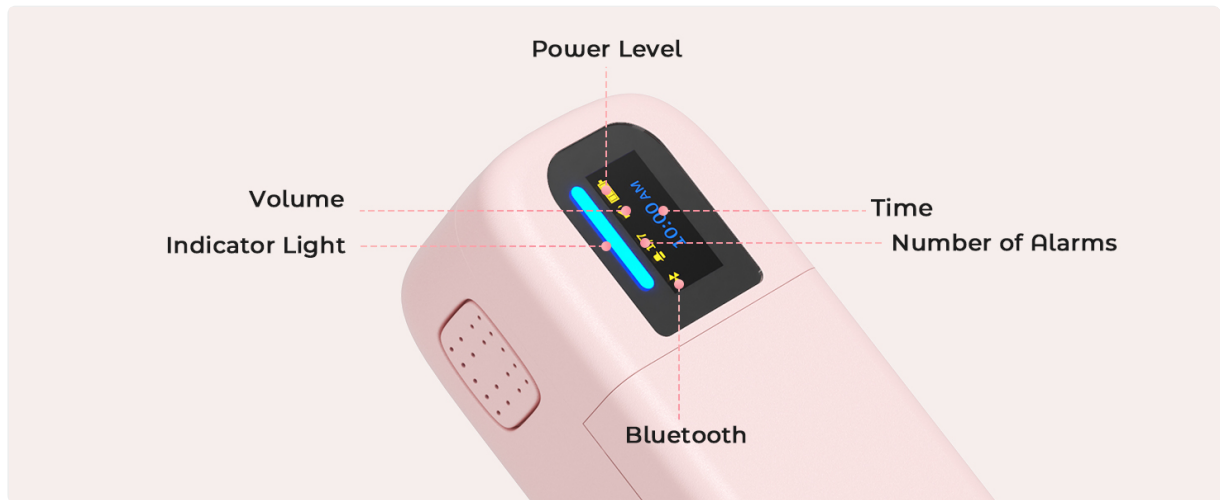

Image 4.1: Labeled diagram of the Smart Pill Dispenser components.

- **LCD Display:** Shows time, battery level, number of alarms, and Bluetooth status.
- **Charging Port:** For connecting the USB charging cable.
- **Button:** Used for various functions, including waking the dispenser.
- **Indicator Light:** Provides visual cues for alarms and status.
- **Outer Cover:** The main protective casing of the dispenser.
- **Inner Cover:** Provides additional protection for the pill compartments.
- **Pill Compartments:** Seven individual compartments for daily medication.

5. SETUP GUIDE

5.1 Initial Charging

Before first use, fully charge the Smart Pill Dispenser. Connect the provided USB charging cable to the charging port on the device and a suitable USB power source. A full charge takes approximately 2.5 hours and provides up to one month of use.

5.2 App Download and Pairing

The COLORWING Smart Pill Dispenser requires a companion mobile application for full functionality, including setting alarms and tracking medication. Ensure your phone's Bluetooth version is 4.0 or above.

1. **Wake the Dispenser:** Open the dispenser's outer cover to activate the device and light up the display.
2. **Download the App:** Search for the COLORWING companion app on your smartphone's app store (iOS or Android).

3. **Create an Account:** Follow the on-screen instructions within the app to create a user account.
4. **Connect the Dispenser:** In the app, navigate to the device connection section. The app will search for available devices. Select your COLORWING Smart Pill Dispenser from the list.
5. **Confirm Connection:** Once connected, the app will confirm successful pairing. You can now proceed to set up your medication schedule.

6. OPERATING INSTRUCTIONS

6.1 Filling Compartments

The dispenser features seven daily compartments. Each compartment can hold approximately 7 large supplements or 15-20 oval vitamins.

1. Open the outer lid of the dispenser.
2. Individually open the inner lid for the desired day's compartment.
3. Place your medication, supplements, or vitamins into the compartment.
4. Securely close the inner lid until you hear a click. Ensure all inner lids are fully closed to prevent difficulty opening the main lid later.
5. Close the magnetic outer lid.

Daily Pill Companion

6.2 Setting Alarms via App

Use the companion app to set up to 7 different alarm times for your medication reminders.

1. Open the COLORWING app on your smartphone.
2. Navigate to the 'Medication Reminder' or 'Schedule' section.
3. Add a new reminder and specify the time, day(s) of the week, and any custom notes (e.g., 'with food').
4. Save the reminder. The settings will sync to your Smart Pill Dispenser via Bluetooth.

6.3 Responding to Alarms

When an alarm is due, the dispenser will emit an audible beep and the indicator light will flash. The app will also send a notification to your paired smartphone.

- To acknowledge and stop the alarm, open the dispenser's outer lid.
- Take your medication from the appropriate compartment.
- Close the outer lid. The app will record that the dose has been taken.

7. CHARGING

The Smart Pill Dispenser is powered by a built-in lithium-ion battery. A full charge provides approximately 4 weeks of operation, depending on usage frequency.

- Connect the USB charging cable to the dispenser's charging port.
- Connect the other end of the cable to a standard USB power adapter (not included) or a computer USB port.
- The LCD display will indicate charging status.
- Charging typically takes 2.5 hours for a full charge.

8. MAINTENANCE

8.1 Cleaning

To maintain hygiene and proper function:

- Wipe the exterior of the dispenser with a soft, damp cloth.
- For the interior compartments, use a dry or slightly damp cloth. Ensure no moisture enters the

electronic components.

- Do not use harsh chemicals, abrasive cleaners, or immerse the device in water.

8.2 Storage

When not in use, store the dispenser in a cool, dry place, away from direct sunlight and extreme temperatures.

9. TROUBLESHOOTING

If you encounter issues with your COLORWING Smart Pill Dispenser, refer to the following common problems and solutions:

Problem	Possible Solution
Device does not turn on.	Ensure the device is charged. Connect it to a power source using the USB cable.
App cannot connect to the dispenser.	Ensure Bluetooth is enabled on your smartphone. Make sure the dispenser is awake (open the lid). Bring the dispenser closer to your smartphone. Restart the app and try connecting again. Check if your phone's Bluetooth version is 4.0 or above.
Alarms are not sounding.	Verify that alarms are correctly set and enabled in the app. Ensure the dispenser is charged. Check the volume settings within the app, if available.
Difficulty opening the main lid.	Ensure all seven inner compartment lids are fully closed and clicked into place before attempting to close the main lid. If an inner lid is ajar, it can obstruct the main lid.

10. SPECIFICATIONS
