# TIGERKING 3-in-1 Biometric Heavy Duty Safe User Manual

Model: BGX-55CTG-G

## 1. INTRODUCTION

---

Thank you for choosing the TIGERKING 3-in-1 Biometric Heavy Duty Safe. This innovative product combines the functionality of a nightstand, a pistol box, and a secure safe, designed to protect your valuables with advanced security features. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and security.

Figure 1.1: TIGERKING 3-in-1 Biometric Heavy Duty Safe in use, showing the open drawer and wireless charging feature.

## 2. PRODUCT OVERVIEW AND COMPONENTS

---

The TIGERKING safe is constructed from thicker alloy steel with solid bolts for enhanced security. It features a top drawer for smaller items and a spacious main cabinet. The top surface includes a wireless charging station and touch-sensitive lighting controls.

## 2.1 Included Components

- TIGERKING 3-in-1 Biometric Heavy Duty Safe Unit
- Removable Drawer Compartment
- Emergency Keys (2)
- User Manual (this document)
- Power Adapter

## 2.2 Product Dimensions and Weight

Specification	Value
Product Dimensions (D x W x H)	14.96"D x 16.93"W x 22.05"H (38cm D x 43cm W x 56cm H)
Item Weight	101.4 Pounds (46 kg)
Material	Alloy Steel
Lock Type	Biometric, Electronic Combination Lock

### 3. SETUP

#### 3.1 Unboxing and Placement

1. Carefully remove the safe from its packaging. Due to its weight (101.4 lbs), it is recommended to have assistance.
2. Place the safe on a flat, stable surface. Ensure it is freestanding and not easily tipped over.

3. Remove all internal packing materials and accessories.

## 3.2 Initial Power Connection

Connect the provided power adapter to the safe's power input port, typically located on the rear or side, and then plug it into a standard wall outlet. The safe's electronic system will power on.

## 3.3 Emergency Key Usage

The safe comes with emergency keys for initial access or in case of electronic system failure. Locate the emergency keyhole, usually hidden behind a cover on the front panel. Insert the key and turn to open the safe. Store these keys in a secure location away from the safe.

# 4. OPERATING INSTRUCTIONS

---

## 4.1 Unlocking Options

Your TIGERKING safe offers multiple convenient and secure unlocking methods:

- **Fingerprint Recognition:** Quick and secure access using your registered fingerprint.
- **Secure Password:** Access using a numerical password set by the user.
- **Emergency Key:** Manual override using the physical key.
- **Combined Methods:** Options for dual fingerprint, dual password, or fingerprint + password for enhanced security.

# Flexible use of storage space

Resist moisture and protect jewelry from damage

Soft and comfortable velvet

Removable compartment

Figure 4.1: Overview of the multiple unlocking options available.

## 4.2 Setting Up Fingerprints and Passwords

Refer to the specific instructions on the safe's control panel or the included quick start guide for detailed steps on registering fingerprints and setting your personal password. It is recommended to register multiple fingerprints and set a strong, memorable password.

# Fingerprint Recognition & Secure Design

Figure 4.2: Fingerprint recognition for secure access.

## 4.3 Wireless Charging Station

The top surface of the safe features a high-tech wireless charging pad (10-20W) for compatible devices. Simply place your device on the designated charging area. Additionally, USB and Type-C ports are provided on the side for wired charging of other devices.

Figure 4.3: Smart Charging Station with wireless, USB, and Type-C charging options.

#### 4.4 Adjustable Lighting

The safe is equipped with three touch-activated lighting modes. Tap the light icon on the control panel to cycle through different light temperatures or brightness levels. This feature is ideal for nighttime use.

Figure 4.4: Three adjustable lighting modes for personalized brightness.

## 4.5 Storage Features

The safe includes a top drawer with a removable compartment, ideal for jewelry, handguns, or small valuables. The main cabinet offers ample space for documents and larger items. Inside the main door, you will find small hooks for keys and a hidden compartment at the bottom for discreet storage.

Figure 4.5: Flexible use of storage space with removable drawer.

## Hidden Secret Compartment

Suitable for storing some important documents and passports.

## Convenient Small Hook

Can hang car keys or other small items.

Figure 4.6: Hidden secret compartment and convenient small hooks.

## 5. SECURITY FEATURES

### 5.1 Dual Alarm System

The TIGERKING safe is equipped with a dual alarm system to deter unauthorized access:

- **Incorrect Entry Alarm:** If an incorrect fingerprint or password is entered three times consecutively, the alarm will

sound for 20 seconds, and the keypad will lock for 180 seconds.

- **Vibration Alarm:** You can manually activate a vibration alarm. If the safe detects significant vibration or impact, the alarm will sound.

Figure 5.1: Dual Alarm System in action.

## 5.2 Robust Construction

The safe features a 6mm thick, pry-resistant door and 25mm solid, harder bolts, providing robust protection against forced

entry.

## 6. MAINTENANCE

To ensure the longevity and proper functioning of your TIGERKING safe, follow these maintenance guidelines:

- **Cleaning:** Wipe the exterior surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or electronic components.
- **Internal Padding:** The inner padding is designed to be soft and moisture-resistant. If it becomes dirty, gently clean with a mild, dry brush or vacuum.
- **Key Storage:** Always keep the emergency keys in a secure location separate from the safe.
- **Power Supply:** Ensure the safe remains connected to a stable power source for continuous operation of electronic features.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Safe does not open with fingerprint.	Finger not properly placed; unregistered fingerprint; sensor dirty.	Ensure finger covers the sensor completely; try a different registered finger; clean the sensor with a soft cloth; use password or key.
Safe does not open with password.	Incorrect password entered; keypad not active.	Re-enter password carefully; ensure keypad is illuminated/active; use fingerprint or key.
Alarm sounds unexpectedly.	Incorrect entries; vibration alarm triggered.	Ensure correct unlocking method is used; check for external impacts or vibrations; disable vibration alarm if not needed.
Wireless charging not working.	Device not compatible; device not centered; power issue.	Ensure device supports wireless charging; reposition device on the charging pad; check power connection to the safe.

## 8. SPECIFICATIONS
