PURELINE PL-5700

Pureline PL-5700 Replacement Refrigerator Water Filter

For Bosch Ultra Clarity Pro Refrigerators

PRODUCT OVERVIEW

The Pureline PL-5700 refrigerator water filter is designed as an ideal replacement for Bosch Ultra Clarity Pro water filters. It features an advanced highly activated carbon block core to effectively reduce chlorine, sediment, rust, volatile organic compounds (VOCs), particles, bad taste, and other impurities from your tap water, providing clean and fresh-tasting water.

This filter is independently certified by IAPMO for NSF-42 for comprehensive reduction of chlorine and impurities, as well as NSF-372 for material safety, ensuring quality and safety.

SETUP AND INSTALLATION

The Pureline PL-5700 filter is designed for a perfect fit and is fully compatible with your Bosch refrigerator. Installation is straightforward and requires no special tools.

Installation Steps:

1. Locate the existing water filter in your refrigerator.
2. Turn the old filter 90 degrees counter-clockwise to unlock it, then pull it out to remove. A small amount of water may drip, so have a cloth ready.
3. Insert the new Pureline PL-5700 filter into the filter opening.
4. Turn the new filter 90 degrees clockwise until it locks securely into place.
5. Flush approximately 3-4 gallons (15-19 liters) of water through the dispenser to purge air and carbon fines from the system. Discard the first few batches of ice produced.

Important: To reduce the risk of property damage due to water leakage, you must read and follow the installation and user instructions before installing the filter. The filter must be changed at least every 6 months.

OPERATING PRINCIPLES

The Pureline PL-5700 filter utilizes a multi-stage filtration process to purify your water. Water passes through an activated carbon block made from food-grade coconut shell material, which effectively captures and reduces various contaminants.

- **Tri-Layer Filtration:** Designed to efficiently remove impurities.
- **Activated Carbon Filter:** Raw organic carbon effectively reduces impurities.
- **2 Micron Filter Pore Size:** High-efficiency filter strains even small particles.

TRI-LAYER FILTRATION

MAINTENANCE

For optimal performance and water quality, it is recommended to replace your Pureline PL-5700 water filter every **6 months** or after filtering **300 gallons** of water, whichever comes first. Regular replacement ensures consistent water purity and taste.

Image: Highlights the filter's lifespan, indicating it provides 300 gallons or 6 months of fresh water.

TROUBLESHOOTING

If you experience issues such as slow water flow or unusual taste after installing a new filter, ensure the filter is correctly seated and locked. It is crucial to flush the recommended amount of water (3-4 gallons) through the dispenser after installation to remove any trapped air or carbon particles. If problems persist, refer to your refrigerator's user manual or contact customer support.

SPECIFICATIONS

Model Number	PL-5700
Material	Activated Coconut Charcoal

Product Dimensions	2"D x 2"W x 8"H
Item Weight	0.26 Kilograms (9.1 ounces)
External Testing Certification	IAPMO, NSF (NSF-42, NSF-372)
Product Benefits	Reduces Chlorine, Sediment, Rust, VOCs, Particles, Bad Taste, Odor
Filter Life	6 months or 300 gallons
Compatible Replacement For	UltraClarity Pro, BORPLFTR50, BORPLFTR55, 11025825, B36CT80SNS, 12028325, 11032531, 12033030, B36CL80ENS, WFC100MF, WFS200MF, REPLFLTR55, REPLFTR50, 11041954, 11050659, RA450022

WARRANTY AND SUPPORT

Specific warranty details for the Pureline PL-5700 filter are not provided in the product information. For warranty claims or technical support, please refer to the contact information provided with your purchase or visit the PURELINE official website.
