## JONATHAN Y SCN100B-9

# JONATHAN Y Hallie High-Low Minimalist Curve Geometric Area Rug User Manual

Model: SCN100B-9 | Brand: JONATHAN Y

## 1. PRODUCT OVERVIEW

---

The JONATHAN Y Hallie High-Low Minimalist Curve Geometric Area Rug is designed for both indoor and outdoor use, offering a blend of style and durability. Its Scandinavian-inspired design features a two-tone color palette with curved lines, creating a minimalist yet striking appearance. The rug is constructed from 100% polypropylene, making it suitable for high-traffic areas and easy to maintain.

## Key Features:

- **Color and Measurements:** Ivory/Cream with curved cream lines on an ivory background. Actual Dimension: 9 ft. x 12 ft.
- **Durable & Stylish Design:** Features a high-low texture with a short 0.25-inch pile, balancing aesthetics and resilience.
- **Easy-Care Material:** Made from 100% polypropylene for low maintenance.
- **Versatile Usage:** Suitable for both indoor and outdoor environments, including patios, decks, living rooms, dining rooms, and entryways.
- **Pet and Kid Friendly:** Designed to withstand daily use in households with pets and children.
- **Non-Shedding:** Engineered to minimize fiber shedding.
- **Stain Resistant:** Offers resistance to common stains.

Image 1.2: Visual representation of the rug's key attributes, including its high-low pile, ease of cleaning, softness, suitability for high-traffic areas, non-shedding properties, and pet/child friendliness.

## 2. SETUP AND INITIAL PLACEMENT

---

Upon receiving your JONATHAN Y Hallie Area Rug, it will be rolled for shipping. Temporary creases are normal and will typically flatten within approximately one week. To expedite the flattening process, you may back-roll the rug before placing it in its desired location.

For optimal placement, ensure the rug is laid on a clean, dry surface. While the rug is designed to stay in place, a rug pad (not included) can be used for additional cushioning and to prevent movement on smooth floors.

Image 2.1: A close-up of the rug's corner being lifted, illustrating its backing material and construction.

### 3. USAGE GUIDELINES

---

This rug is versatile and can be used in various settings. For indoor use, it is suitable for living rooms, dining rooms, bedrooms, and entryways. For outdoor use, it is ideal for patios, decks, and other covered outdoor spaces. The durable polypropylene construction ensures it can withstand different environments.

When placing the rug, consider furniture arrangement to ensure the rug complements the space and provides adequate coverage for high-traffic pathways.

### 4. MAINTENANCE AND CARE

---

Proper care will extend the life and appearance of your JONATHAN Y Hallie Area Rug. Follow these guidelines for routine maintenance and cleaning:

## Routine Cleaning:

- **Vacuuming:** Regularly sweep or vacuum the rug to remove dirt and debris. Use a brushless vacuum cleaner to prevent damage to the pile.
- **Outdoor Cleaning:** For outdoor use, the rug can be hosed down with mild soap and water. Ensure it is thoroughly dried before placing it back or storing.

Image 4.1: A vacuum cleaner being used on the rug, demonstrating routine cleaning for easy maintenance.

## Spot Cleaning:

- **Immediate Spill Removal:** Remove spills immediately to prevent staining. If liquid, blot with a clean, undyed cloth by pressing firmly around the spill to absorb as much as possible.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals or abrasive cleaners, as these can damage the rug fibers and color.

## Long-Term Care:

- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure, especially for indoor placement, to prevent fading.
- **Professional Cleaning:** For tough or set-in stains, professional rug cleaning is recommended.
- **Storage:** If storing the rug, roll it tightly and store in a dry, well-ventilated area away from direct sunlight and moisture.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with your area rug.

| Issue                        | Possible Cause                          | Solution                                                                                                                                                                              |
|------------------------------|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Rug not lying flat / Creases | Rolled for shipping; new rug settling.  | Allow up to one week for creases to relax naturally. Back-roll the rug in the opposite direction for a few hours or place heavy objects on the affected areas to expedite flattening. |
| Stains / Spills              | Accidental spills or dirt accumulation. | Blot spills immediately with a clean, undyed cloth. For stubborn stains, professional rug cleaning is recommended. Avoid rubbing the stain.                                           |
| Fading color                 | Prolonged exposure to direct sunlight.  | Rotate the rug periodically to ensure even exposure. If possible, place the rug in an area with less direct sunlight or use window coverings.                                         |
| Slipping on hard floors      | Lack of friction between rug and floor. | Use a non-slip rug pad underneath the rug to secure it in place and provide additional cushioning.                                                                                    |
