SETUP AND ASSEMBLY

Your HIFIT storage cabinet is designed for easy assembly. The package includes all necessary parts, instructions, and tools. Assembly typically takes under 40 minutes.

Assembly Steps:

- 1. Unpack and Identify Parts:** Carefully unpack all components and verify against the included parts list in the installation kit.
- 2. Follow Instructions:** Refer to the clear, concise instructions provided in the installation kit for step-by-step assembly.
- 3. Secure Connections:** Ensure all cam locks and screws are tightened securely to ensure structural integrity. Using

wood glue on dowels and joints can enhance stability.

4. **Install Anti-Tipping Hardware:** Crucially, install the anti-tipping hardware as instructed to secure the cabinet to the wall. This prevents accidental tipping and ensures safety.
5. **Adjust Doors:** After attaching doors, adjust hinges as needed to ensure proper alignment and smooth closing. The adjustment instructions for hinges are typically found on the last page of the instruction booklet. Loosen the slide screw on the hinges to match screw holes on the cabinet, then use the tension screw to align doors sideways.

Tip: To manage styrofoam pieces during unpacking, use a duster sprayed with Endust to wipe down each piece into the box, keeping the area clean.

OPERATING AND USAGE

The HIFIT Tall Bathroom Storage Cabinet offers versatile storage solutions for various household needs.

Storage Features:

- **Four Spacious Interior Compartments:** Ideal for storing towels, taller shampoo bottles, and other wash supplies.
- **Dedicated Drawer:** Perfect for organizing personal items such as toothpaste, soap, or smaller accessories, keeping them dust-free.
- **Convenient Open Countertop:** Provides easy access for frequently used items like lotions, creams, or aromatherapy diffusers.

Versatile Placement:

This cabinet's classic and minimalist design allows it to seamlessly integrate into various rooms:

- **Bathroom:** For toiletries, towels, and cleaning supplies.
- **Living Room:** As an accent piece or for general storage.
- **Laundry Room:** For detergents and other laundry essentials.
- **Kitchen/Pantry:** For food items, small appliances, or kitchenware.
- **Entryway:** For keys, mail, or other entryway necessities.
- Can also function as a bookcase or filing cabinet in home and office environments.

MAINTENANCE

To ensure the longevity and appearance of your HIFIT storage cabinet, follow these maintenance guidelines:

- **Cleaning:** The cabinet is finished with an eco-friendly lacquer, making it easy to clean. Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Promptly wipe up any spills to prevent water damage, especially in humid environments like bathrooms. The cabinet's waterproof properties help, but immediate cleaning is best.
- **Inspection:** Periodically inspect all hardware, including screws and hinges, to ensure they remain tight. Tighten if necessary.
- **Avoid Overloading:** Do not exceed the maximum weight capacity of 330 lbs to prevent structural stress.

TROUBLESHOOTING

If you encounter any issues with your HIFIT storage cabinet, refer to the following common solutions:

- **Doors Not Aligning:** If doors have a gap or overlap, adjust the hinges. Loosen the middle back screw on the hinge to lengthen or shorten the hinge's reach, then use the tension screw (often the larger screw in the middle of the hinge) to adjust the door's sideways alignment.
- **Cabinet Wobbles:** Ensure the anti-tipping hardware is correctly installed and securely fastened to the wall. Check that all assembly screws are tight. If the floor is uneven, consider using furniture levelers (not included) under the cabinet legs.
- **Drawer Not Sliding Smoothly:** Check that the drawer slides are correctly installed and free from obstructions. Ensure all screws securing the slides are tight.
- **Missing Parts:** If any parts are missing upon unpacking, please contact customer support immediately.
