TOHETO TO-A1-D23-A

TOHETO Rechargeable A1 Light Pad Instruction Manual

Model: TO-A1-D23-A

1. PRODUCT OVERVIEW

The TOHETO Rechargeable A1 Light Pad is an extra-large LED light board designed for various artistic and crafting applications. It features a built-in rechargeable battery for wireless operation, multiple light color modes, and adjustable brightness settings to suit different tasks and preferences.

- **Wireless Operation:** Equipped with a 6000mAh battery, providing approximately 3 hours of use at maximum brightness on a full charge.
- **Large Working Area:** The A1 size offers a super slim design with overall dimensions of 35.4 inches x 23.6 inches (90cm x 60cm) and a visual work area of 33.5 inches x 21.7 inches (85cm x 55cm). The thickness is only 7mm (less than 0.3 inches).
- **Adjustable Lighting:** Features 3 light color modes (White, Warm, Mix Light) and 6 levels of brightness, with an additional stepless dimming function for precise control.
- **High Brightness & Clarity:** Built-in dual light bars with a rated power of 21W and brightness up to 3000 LUX, capable of illuminating through thick materials. Advanced light guide materials ensure no dots or shadows on the illuminated surface.
- **Memory Function:** The light pad automatically recalls the last used brightness setting upon power-on.
- **Durable LED:** Flicker-free LED lamps are designed to last up to 50,000 hours.

2. PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x Cordless A1 Light Pad
- 1 x Power Adapter (5V/2A US adapter)
- 4 x Clips
- 1 x Type-C Charging Cable (1M)
- 1 x User Manual

3. SETUP

3.1 Initial Charging

1. Connect the provided Type-C charging cable to the light pad's Type-C port.
2. Plug the other end of the cable into the 5V/2A US power adapter.
3. Insert the power adapter into a standard electrical outlet.
4. Allow the light pad to charge fully before initial wireless use. A full charge provides approximately 3 hours of operation at maximum brightness. The light pad can also be used while connected to the power supply.

Battery & Type C Powered

Wireless use for approximately 3 hours at maximum brightness after fully charged

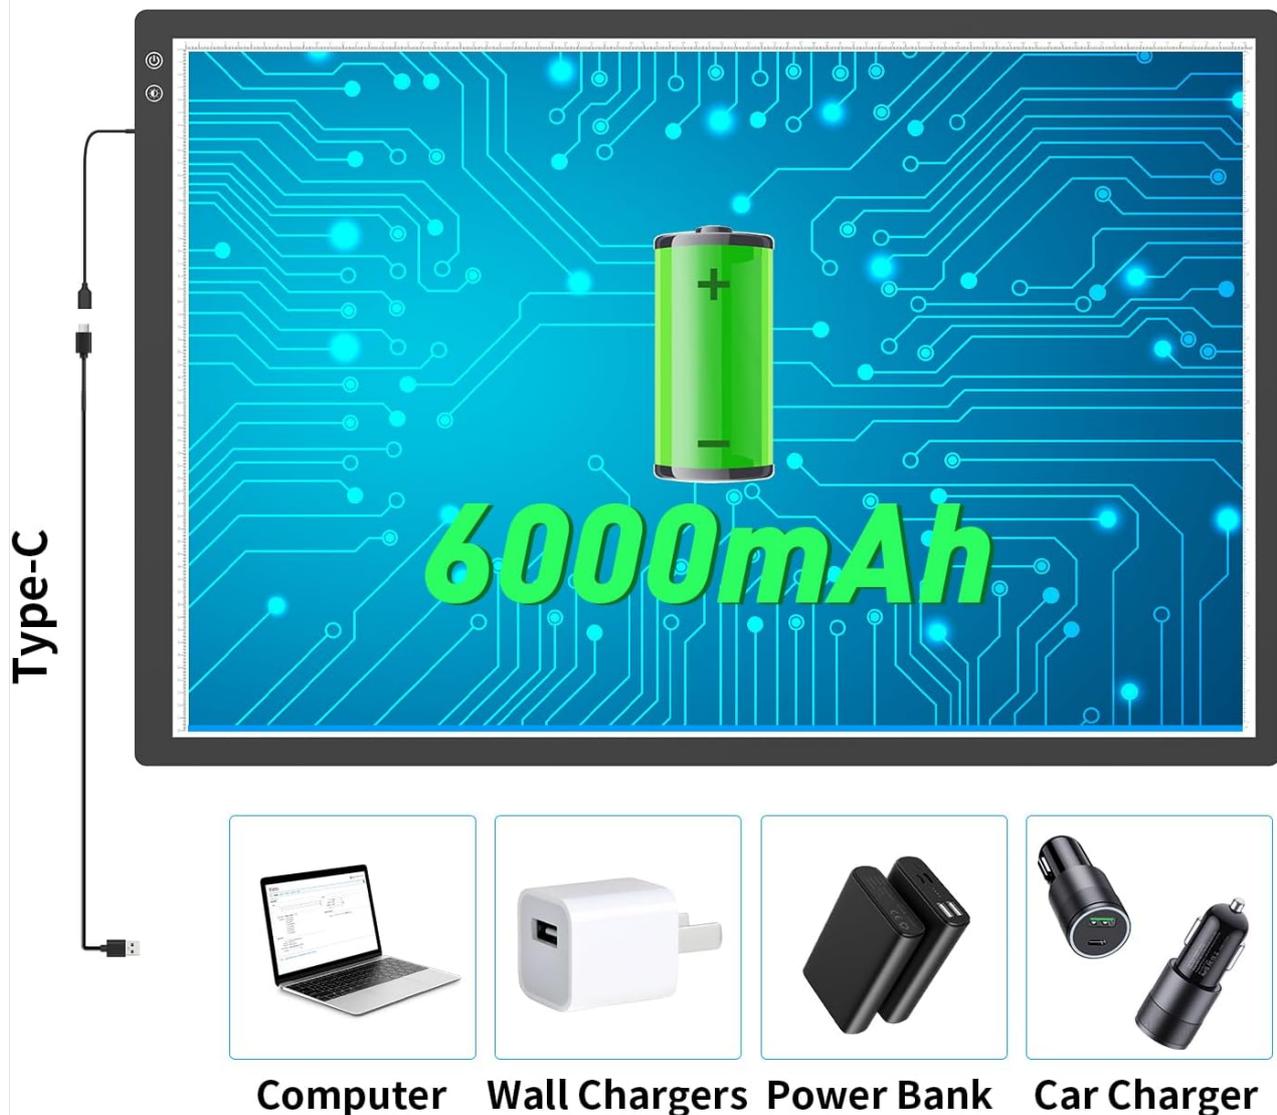

Image 3.1: An illustration of the TOHETO A1 Light Pad's power features, indicating a built-in 6000mAh battery for wireless use and a Type-C port for charging via computer, wall chargers, power banks, or car chargers.

3.2 Placement

Place the light pad on a stable, flat surface to ensure proper support during use.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Locate the physical power button (marked with a power icon) on the light pad. Short press this button to turn the light pad on or off.

4.2 Adjusting Light Color Modes

While the light pad is on, short press the power button () to cycle through the three available light color modes: White, Warm, and Mix Light. The light pad will switch to the next mode with each short press.

3 Adjustable Colors Temperature

Touch Button  to switch the color temperature from White — Mix — Warm — Off. Touch/Long Press Button  to adjustable brightness of the current color temperature

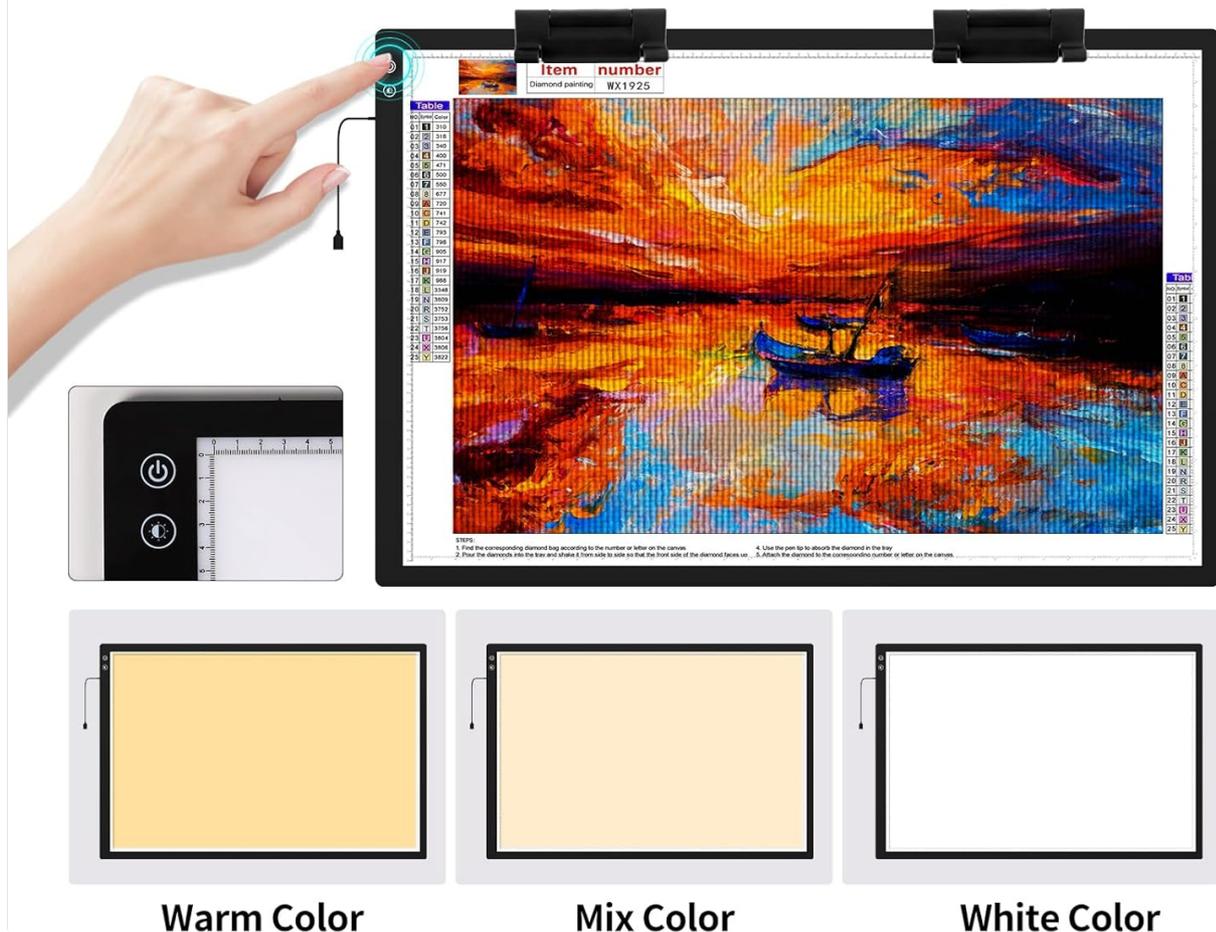

Image 4.1: This image shows the TOHETO A1 Light Pad's control panel and the three available light color modes: Warm Color, Mix Color, and White Color. It illustrates how to switch between these modes using the touch button.

4.3 Adjusting Brightness Levels

Locate the physical brightness button (marked with a light bulb icon ).

- **6 Levels of Brightness:** Short press the brightness button (☀️) to cycle through 6 predefined brightness levels.
- **Stepless Dimming:** Long press the brightness button (☀️) to activate stepless dimming. Hold the button to smoothly increase or decrease the brightness to your desired level. Release the button to set the brightness.

The memory function ensures that the light pad will automatically turn on with the brightness setting used during the last operation.

6 Levels of Brightness + Stepless Dimming

Touch Button ☀️ to adjust the brightness level

Long press Button ☀️ to adjust the brightness evenly

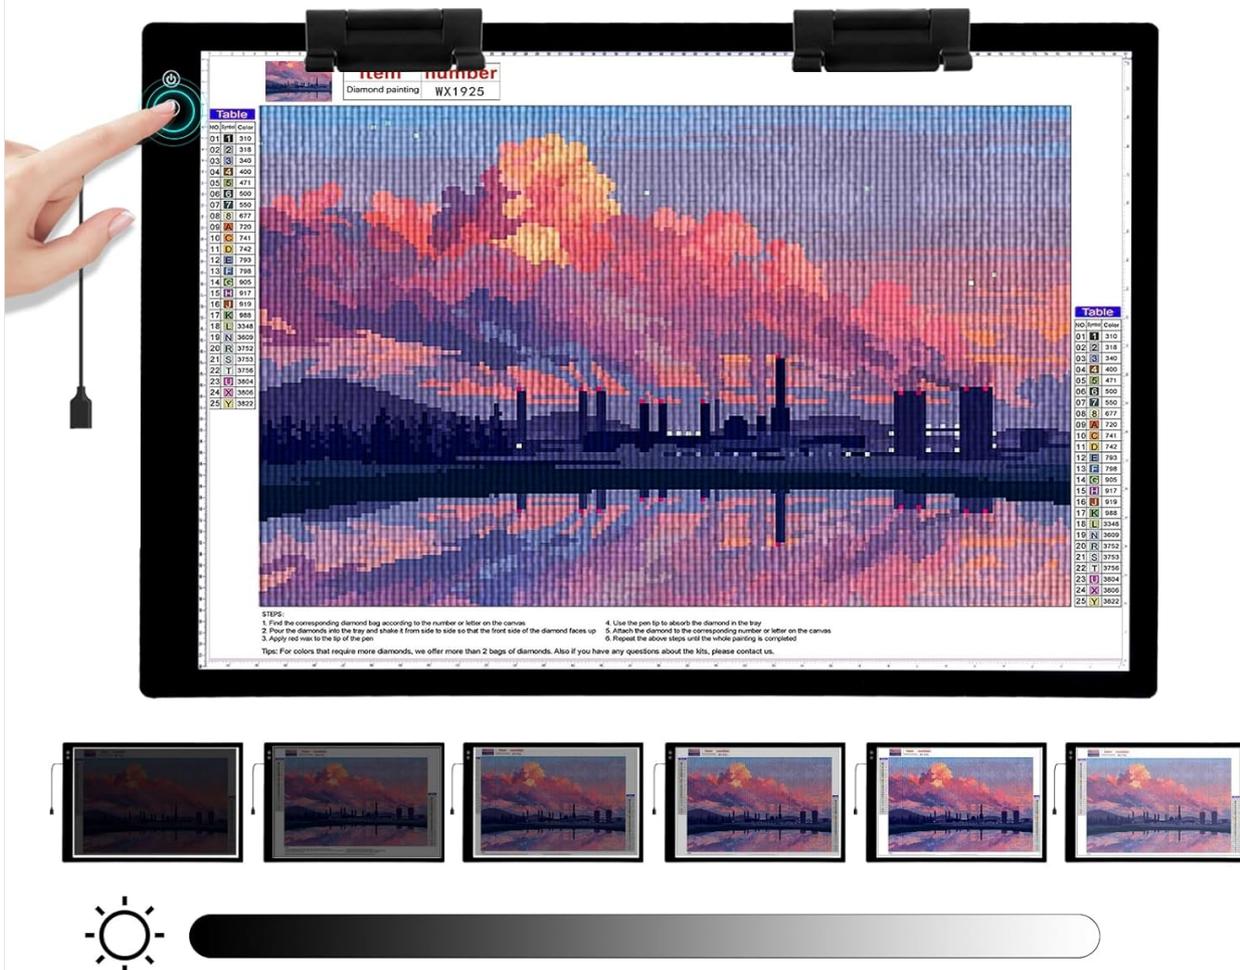

Image 4.2: The image displays the TOHETO A1 Light Pad's brightness control, showing how to adjust between 6 distinct brightness levels with a short press and activate stepless dimming with a long press of the light bulb icon button. Visual examples of different brightness levels are also shown.

5. APPLICATIONS

The TOHETO A1 Light Pad is suitable for a wide range of activities, including but not limited to:

- Sketching and Drawing
- Diamond Painting

- Sewing Projects
- Scanning Film Negatives
- Weeding Vinyl
- Stenciling
- 5D Animation
- Calligraphy
- Embossing
- Scrapbooking
- Tattoo Transferring
- Stained Glass Work
- X-ray Viewing

Image 5.4: An artist using the TOHETO A1 Light Pad to trace fashion designs, highlighting its utility for detailed artistic and design work.

6. MAINTENANCE

- **Cleaning:** Wipe the surface of the light pad with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these may damage the surface or electronic components.
- **Storage:** Store the light pad in a dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the light pad with care to prevent drops or impacts, which could damage the internal components or the screen.

7. TROUBLESHOOTING

- **Light Pad Not Charging / Dim Indicator:** If the light pad does not appear to be charging or the charging indicator light is dim, ensure the USB-C cable is securely connected to both the light pad and the power adapter. Wiggle the connection slightly to ensure proper contact. The charging indicator light may be faint; observe carefully for a red light indicating charging, and a blue light for fully charged (if applicable).
- **Power Button Unresponsive:** If the power button is difficult to press or unresponsive, ensure it is pressed firmly and directly. If issues persist after checking the connection and trying again, contact customer support.
- **Uneven Lighting / Flickering:** Ensure the light pad is placed on a flat surface. If flickering occurs, try connecting it to a different power source or charging it fully. If the issue persists, contact customer support.

8. SPECIFICATIONS

Model Number	TO-A1-D23-A
Brand	TOHETO
Color	Black
Material	Plastic
Product Dimensions (L x W x H)	35.4" x 23.6" x 0.27" (90cm x 60cm x 0.7cm)
Visual Work Area	33.5" x 21.7" (85cm x 55cm)
Item Weight	13.77 pounds
Power Source	Battery Powered, Corded Electric
Light Source Type	Light Emitting Diode (LED)
Rated Power	21W
Brightness	Up to 3000 LUX
Light Color Modes	3 (White, Warm, Mix Light)
Brightness Levels	6 Levels + Stepless Dimming
Battery Type	1 Lithium Polymer (6000mAh, included)
Battery Life	Approx. 3 hours (at max brightness)
LED Lifespan	Up to 50,000 hours

9. WARRANTY AND SUPPORT

The TOHETO Rechargeable A1 Light Pad comes with a **1-Year Manufacturer Warranty**.

If you encounter any issues with your product or have questions regarding its operation, please contact TOHETO customer service for assistance. Our goal is customer satisfaction, and we are committed to providing

you with satisfactory service.

For support, please refer to the contact information provided with your purchase or visit the official TOHETO website.
