6. Maintenance

Proper maintenance will extend the life and appearance of your VINGLI bench.

- **Cleaning:** The smooth surface is easy to clean. Wipe with a damp cloth to remove dust and dirt. For stubborn stains, use a mild soap solution and rinse thoroughly. Avoid harsh chemicals.

- **Wood Care:** While the fir wood is designed to be weatherproof, applying a wood sealant or stain periodically can help protect it from UV damage and moisture, preserving its natural finish.
- **Storage:** During extreme weather conditions or prolonged periods of non-use, consider storing the bench indoors or covering it to protect it from the elements.
- **Fastener Check:** Periodically check and retighten all screws and bolts to ensure the bench remains stable.

7. Troubleshooting

- **Bench feels wobbly:** Ensure all bolts and screws are fully tightened. Check that the bench is placed on a level surface. If the surface is uneven, use shims under the legs for stability.
- **Wood appears faded or dry:** This is normal for natural wood exposed to elements over time. Apply a suitable outdoor wood oil or sealant to restore and protect the finish.
- **Difficulty assembling:** Review the assembly instructions provided in your package. Ensure all parts are correctly oriented before tightening fasteners. Do not force parts together.
