## 6. MAINTENANCE

### 6.1 Cleaning:

Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the painted finish. Dry immediately with a clean cloth.

### 6.2 General Care:

- Periodically check all fasteners and tighten if necessary to maintain stability.
- Avoid placing excessively hot or wet items directly on the cabinet surface to prevent damage.
- Ensure the anti-tipping device remains securely attached to the wall.

## 7. TROUBLESHOOTING

**Issue: Cabinet feels wobbly after assembly.**

**Solution:** Check all screws and bolts to ensure they are fully tightened. Ensure the cabinet is placed on a level surface. Re-verify the anti-tipping device installation.

**Issue: Doors do not close properly or are misaligned.**

**Solution:** Check the hinge alignment and adjust if necessary. Ensure the magnetic holders are correctly positioned and functional. Verify that the cabinet frame is square.

**Issue: Drawers are difficult to open or close.**

**Solution:** Ensure the drawer slides are correctly installed and free of obstructions. Check that the drawers are not overloaded. Verify the drawer components are assembled correctly.
