

AICase Iphone 16E Case 2025

AICase Clear Case for iPhone 16E (6.1-inch) Instruction Manual

Model: Iphone 16E Case 2025 | Brand: AICase

INTRODUCTION

Thank you for choosing the AICase Clear Case for your iPhone 16E (6.1-inch) 2025. This heavy-duty, multi-layer protective case is designed to provide superior drop protection, shock absorption, and dust resistance, keeping your device safe while maintaining its original aesthetic. This manual will guide you through the installation, usage, and maintenance of your new case.

Key features include:

- **Perfect Fit:** Specifically designed for the iPhone 16E 2025 (6.1-inch).
- **Crystal Clear & Never Yellow:** Made with high-grade Bayer's ultra-clear TPU and PC material with nano-grade diamond anti-oxidation coating to resist yellowing.
- **20FT Certified Drop Protection:** Military-grade defense against drops, dirt, scrapes, and bumps.
- **Enhanced Camera and Screen Protection:** Features a 5mm camera lip and 3mm screen bezel for comprehensive protection.
- **Multi-Layer Defense:** Solid outer shell and soft inner shell for three-in-one combination protection.
- **Secure Grip:** Soft side bumper with advanced Slipproof technology for comfortable handling.

SETUP: CASE INSTALLATION

Follow these steps to properly install your AICase Clear Case on your iPhone 16E 2025:

1. **Prepare Your Device:** Ensure your iPhone 16E is clean and free of dust or debris.
2. **Separate the Case Layers:** The AICase features a multi-layer design. Carefully separate the soft inner layer from the hard outer shell. Some models may have a front frame and a back cover.
3. **Install Inner Layer (if applicable):** If your case has a soft inner layer that wraps around the phone, place your

iPhone into this layer first, ensuring all edges and corners are properly seated.

4. **Install Outer Shell:** Align the inner layer (with the phone inside) with the hard outer shell. Snap the outer shell securely around the inner layer, ensuring all clips and edges are fully engaged.
5. **Verify Fit:** Gently press around the edges of the case to ensure it is fully sealed and your phone is securely held. Check that all buttons are accessible and functional, and that port covers (if present) can be opened and closed.

MULTI-LAYER DEFENSE

OPERATING INSTRUCTIONS

The AICase Clear Case is designed for seamless daily use while providing robust protection:

- **Button Access:** The case features precise cutouts and responsive button covers, allowing full access to volume controls, power button, and mute switch without obstruction.
- **Port Access:** Charging ports and speaker grilles are precisely cut for easy access. Some models may include dustproof port covers; ensure these are properly closed when not in use to prevent dust and debris entry.
- **Wireless Charging:** The case is compatible with wireless charging, allowing you to charge your iPhone 16E without removing the case.
- **Screen and Camera Protection:** The raised edges (5mm camera lip and 3mm screen bezel) ensure that the screen and camera lenses do not directly contact surfaces when placed face down or back down, preventing

scratches and impacts.

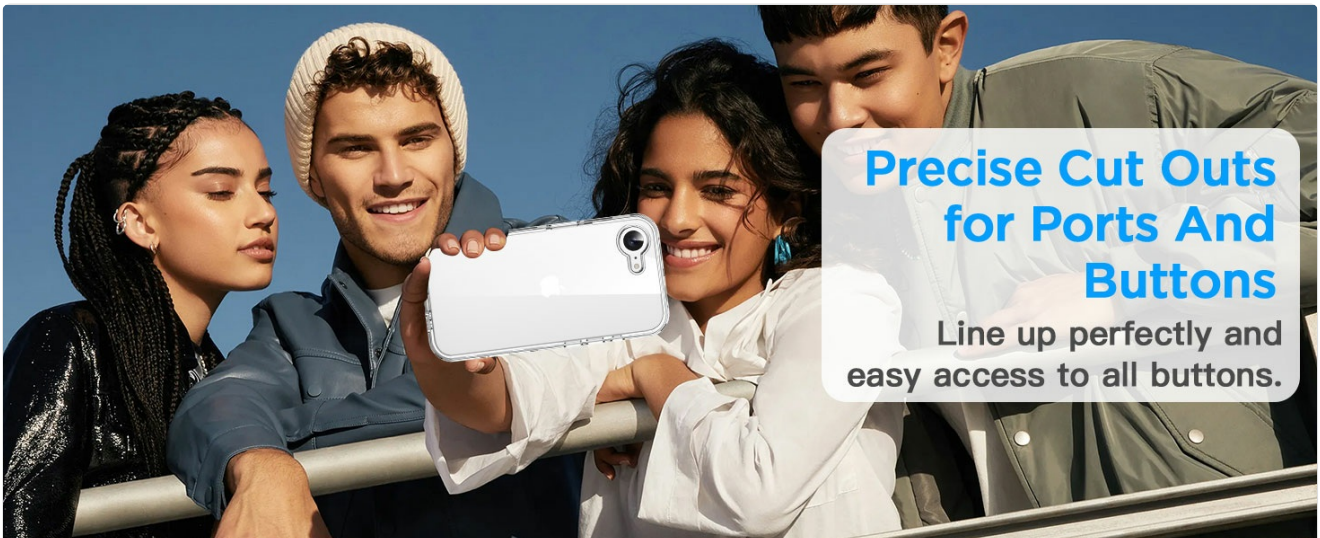

Screen & Camera PROTECTION

5mm/0.2in

3mm/0.12in

MAINTENANCE

To ensure the longevity and clarity of your AICase Clear Case, follow these maintenance tips:

- **Cleaning:** Regularly wipe the case with a soft, damp cloth to remove dust, fingerprints, and smudges. For tougher grime, a mild soap solution can be used. Avoid harsh chemicals or abrasive cleaners, as these can damage the case material or its anti-yellowing coating.
- **Anti-Yellowing:** The case is designed with a nano-grade diamond anti-oxidation coating to resist yellowing over time. However, prolonged exposure to direct sunlight or harsh UV light may accelerate material degradation.
- **Inspection:** Periodically remove the case and inspect both the case and your iPhone for any trapped debris that could cause scratches. Clean as necessary before re-installing the case.

**Long lasting
clarity.**

**Keep it original without
losing protection**

for iPhone 16 E

TROUBLESHOOTING

If you encounter any issues with your AICase Clear Case, consider the following:

- **Case Does Not Fit Properly:**
 - Ensure you have the correct model case for your iPhone 16E (6.1-inch) 2025.
 - Verify that all layers of the case are correctly aligned and snapped into place.
 - Remove any existing screen protectors or skins on your phone, as these can sometimes interfere with the case's fit, especially if they are thick or poorly applied. *(Note: Some users have reported issues with screen protector compatibility.)*
- **Buttons Are Stiff or Unresponsive:**

- Check that the phone is seated correctly within the case and that the button covers are aligned with the phone's buttons.
- Remove and re-install the case to ensure proper alignment.
- **Case Appears Yellowish:**
 - While designed to resist yellowing, extreme conditions or prolonged exposure to UV light can affect clear cases over time. Ensure proper cleaning and storage.
