SETUP

1. Package Contents

Verify that all items are present in the package:

- 1 x Blade 20 Turbo Rugged Phone
- 1 x Type-C Cable
- 1 x 33W Charger
- 1 x Thick Protective Film (Screen Protector)
- 1 x Packaging Box
- 1 x User Manual

Test a temperature estreme, basse e alte

Figure 2: Package Contents

2. SIM Card and MicroSD Card Installation

The device supports a triple slot configuration for two Nano-SIM cards and one MicroSD card for expandable storage.

1. Locate the SIM card tray on the side of the device.
2. Use the provided SIM ejector tool to open the tray.
3. Carefully place your Nano-SIM cards and/or MicroSD card into the designated slots. Ensure correct orientation.
4. Gently push the tray back into the device until it is flush with the body.

Figure 3: SIM and MicroSD Card Installation

3. Initial Power On and Basic Configuration

1. Press and hold the power button (located on the side) until the DOOGEE logo appears.
2. Follow the on-screen prompts to select your preferred language.
3. Complete the initial setup wizard, which includes connecting to Wi-Fi, setting up your Google account, and configuring security options.

4. Charging the Device

Before first use, it is recommended to fully charge the device. Use the provided 33W charger and Type-C cable.

- Connect the Type-C cable to the charging port at the bottom of the phone.
- Connect the other end of the cable to the 33W power adapter.
- Plug the power adapter into a wall outlet.
- The charging indicator will appear on the screen.

3. Camera Features

The device is equipped with a versatile camera system:

- **Main Camera:** 50MP AI camera with features like 360° panorama, HDR, portrait, beauty, and various filters.
- **Front Camera:** 16MP for selfies and video calls.
- **Macro Lens:** 2MP for detailed close-up shots.

It also supports an underwater camera mode for capturing images in aquatic environments.

7. Gemini AI Integration

The DOOGEE Blade 20 Turbo integrates Gemini AI, offering advanced functionalities:

- **Content Creation:** Assists in generating text and images.
- **Language Learning:** Supports translation, grammatical explanations, and language exercises.
- **Image Analysis:** Object recognition, scene comprehension, text extraction, and image description.
- **Intelligent Assistant:** Provides real-time weather, encyclopedia queries, event reminders, and problem-solving.
- **Code Development:** Helps write code, explains logic, corrects errors, and offers optimization suggestions.
- **Gemini Live:** Conversational interaction and functional application.

MAINTENANCE

1. Cleaning Your Device

Due to its rugged design (IP68/IP69K/MIL-STD-810H certified), the DOOGEE Blade 20 Turbo is resistant to water and dust. To clean:

- For general cleaning, wipe the device with a soft, damp cloth.
- For stubborn dirt, you may rinse the device under clean, running water. Ensure all ports are closed tightly before rinsing.
- Do not use harsh chemicals or abrasive materials, as these may damage the device's protective coatings.
- Dry the device thoroughly after cleaning, especially the charging port, before connecting any cables.

Figure 19: Water Resistance

2. Battery Care

- Avoid exposing the device to extreme temperatures (below -40°C or above 70°C) for prolonged periods, as this can degrade battery performance.
- Use only the original charger and cable provided with the device to ensure optimal charging and prevent damage.
- For long-term storage, charge the battery to approximately 50% and store the device in a cool, dry place.

3. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can usually find this option in your device's Settings menu under "System" or "About phone."

TROUBLESHOOTING

If you encounter issues with your DOOGEE Blade 20 Turbo, try the following steps:

- **Device Unresponsive:** Press and hold the power button for about 10-15 seconds to force a restart.
- **Battery Draining Quickly:** Check background apps, reduce screen brightness, disable unnecessary features (GPS, Wi-Fi, Bluetooth when not in use). Ensure you are using the original charger.
- **Network Connectivity Issues:** Ensure your SIM card is correctly inserted. Try restarting the device. Check network settings and ensure mobile data is enabled.
- **Fingerprint Sensor Not Working:** Ensure your finger is clean and dry. Re-register your fingerprints in the security settings.
- **Software Glitches:** Clear the cache of problematic apps. If issues persist, consider a factory reset (**Note:** This will erase all data on your device, so back up important information first).
- **Water/Dust Exposure:** If the device has been exposed to water or dust, ensure all ports are dry before charging or connecting accessories.

If problems persist after attempting these solutions, please contact customer support.
