# dearlomum Baby Playpen 71"x59" Instruction Manual

## 1. INTRODUCTION

The dearlomum Baby Playpen provides a spacious and secure environment for babies and toddlers. Measuring 71x59x26 inches, it offers ample room for play, exploration, and interaction. This playpen is designed to help children develop motor skills by providing a safe space for standing, walking, and playing. It also serves as a safe activity center, allowing parents to attend to other tasks while ensuring their child's safety.

## 2. SAFETY INFORMATION

Your child's safety is our top priority. Please read and follow all safety guidelines:

- This playpen is constructed with resistant-duty Oxford cloth material and strong fabric net siding, ensuring durability and safety.
- All materials are BPA-free.
- Thickened steel pipes provide enhanced structural stability, preventing bending or breaking.
- Four TPR suction cup bases are designed to firmly secure the playpen to the floor, preventing accidental movement or tipping.

- Thicker sponge and soft cloth padding are integrated into the frame to protect children from impacts during play.
- The 26-inch height of the fence is scientifically designed to allow babies to stand and walk safely within the enclosure.
- Always supervise your child while they are in the playpen.
- Do not leave children unattended.
- Ensure all connections are secure before placing your child inside.

## 4. SETUP INSTRUCTIONS

---

Follow these steps for proper assembly of your dearlomum Baby Playpen. For a visual guide, please refer to the embedded videos.

1. Lay out the playpen fabric on a clean, flat surface.
2. Connect the bottom frame: Insert the 590mm tubes with sponge into the fabric sleeves along the bottom edges. Use the T-shaped connectors for the straight sections and the suction cup tees for the corners. Ensure the suction cups face downwards.
3. Install the vertical support pipes: Insert the 710mm tubes (without sponge) into the vertical sleeves at each corner and along the middle of the longer sides.
4. Assemble the top frame: Connect the 870mm tubes with sponge and 710mm tubes with sponge along the top edges, using the three-directional connectors for the corners and the remaining T-shaped connectors for the middle sections. Ensure the padded tubes are on the top rails.
5. Secure the fabric: Fasten all Velcro straps and fabric covers around the pipes and connectors to ensure a snug and secure fit.
6. Attach accessories: Clip the plastic pull rings onto the top rails as desired. Attach the small storage bag to the side of the playpen.

## 5. OPERATING INSTRUCTIONS

---

### Zipper Door

The playpen features an external gate with a zipper design, allowing easy access for parents to interact with the baby or for the baby to crawl in and out when supervised. This design provides double protection when closed. Always ensure the zipper is fully closed when your child is inside and unsupervised.

## 6. MAINTENANCE AND CLEANING

To ensure the longevity and hygiene of your dearlimum Baby Playpen, follow these maintenance and cleaning guidelines:

- The bottom of the playpen is made from wear-resistant, tear-resistant, non-slip, breathable, and quick-drying fabric.
- To clean the fabric and mesh, simply wipe with a wet cloth and mild soap.
- For stubborn stains, use a gentle fabric cleaner. Always test on an inconspicuous area first.

- Avoid using harsh chemicals, bleach, or abrasive cleaners, as these can damage the fabric or mesh.
- Ensure the playpen is completely dry before folding for storage or before placing your child inside to prevent mold or mildew.
- Regularly check all connections and pipes for any signs of wear or damage. Replace any damaged parts immediately.

**Note:**

This playpen does not include a padded mat. An additional baby play mat should be purchased separately for optimal comfort and cushioning for your child.

## 8. TROUBLESHOOTING

If you encounter any issues with your dearlomum Baby Playpen, please refer to the following common solutions:

- **Stability Issues:** Ensure all pipes are securely connected and the four TPR suction cup bases are firmly attached to a clean, flat, non-textured surface. Verify that the fabric is taut and properly secured around the frame.
- **Assembly Difficulty:** Refer to the detailed setup instructions and accompanying videos. Ensure correct connectors are used for each section (T-shaped for bottom, three-directional for top corners). Do not force connections; if a part doesn't fit, recheck the manual for correct orientation.
- **Cleaning:** For stubborn stains, use a gentle fabric cleaner. Always test on an inconspicuous area first. Avoid harsh chemicals that could damage the fabric or mesh.
- **Missing Parts:** If any parts are missing from your package, please contact customer support immediately for assistance.
