3. KEY FEATURES

- **Upgraded Anti-Scratch Sliding Camera Protection:** Features a delicate sliding cover to protect your Galaxy A26-5G phone camera from scratches, collisions, scuffs, and impacts. The unique design also helps prevent privacy disclosure.
- **Military-Grade Drop Protection:** Constructed with a matte hard PC back and flexible Thermoplastic Soft Touch TPU shock-absorbing bumpers. Raised thickened rubber in four-corners with grooved airbags provides protection against accidental drops, shock, and impacts.
- **Built-in Kickstand:** A hidden stand allows for stable vertical and horizontal viewing angles, convenient for media consumption or video calls.
- **Excellent Grip & Armor Anti-skid Design:** The processed TPU frame offers a delicate touch feeling and non-slip grip, preventing the phone from slipping. Textured edges and an impact-resistant hard PC shell back cover enhance overall handling.

Double Protection For Camera

Protects your lens from bumps & scratches
Prevents your privacy from disclosing

4. SETUP AND INSTALLATION

4.1 Case Installation

To install your Samsung Galaxy A26-5G into the FNTCASE protective case:

1. Ensure your phone is clean and free of dust or debris.
2. Align the phone with the case, starting with one side.
3. Gently press the phone into the case, ensuring all corners and edges are securely seated. The case is designed for a snug fit to provide maximum protection.

4.2 Screen Protector Installation (If Applicable)

If your product includes a screen protector, follow these steps for installation:

1. Clean your phone screen thoroughly with the provided wet and dry wipes to remove any smudges or dust.
2. Use the dust-absorber sticker to remove any remaining dust particles.
3. Carefully align the screen protector with your phone screen, ensuring it is centered and straight.
4. Gently lay the screen protector onto the screen. It will adhere automatically. Press out any air bubbles from the center outwards.

5. OPERATING INSTRUCTIONS

5.1 Using the Sliding Camera Cover

To use the sliding camera cover:

- To expose the camera, gently slide the cover to the left until it clicks into place.
- To protect the camera, slide the cover back to the right until it fully covers the camera lenses and is securely buckled.

5.2 Using the Built-in Kickstand

The integrated kickstand allows for hands-free viewing:

- To deploy the kickstand, use your fingernail to gently pull it out from the back of the case. Press slightly to secure it in the open position.
- Position your phone vertically or horizontally as desired.
- To close the kickstand, push it forward until it clicks securely back into the case.

6. MAINTENANCE AND CARE

To maintain the condition and effectiveness of your FNTCASE protective case:

- Clean the case regularly with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- Ensure the sliding camera cover and kickstand mechanisms are free from dirt or debris to ensure smooth operation.
- Avoid prolonged exposure to extreme temperatures or direct sunlight, which may affect the material's durability.

7. TROUBLESHOOTING

7.1 Kickstand is Stiff or Hard to Open

If the kickstand is stiff, especially during initial use, gently work it open and closed a few times. It should become smoother with use. Ensure no debris is obstructing the mechanism.

7.2 Camera Cover Not Sliding Smoothly

Check for any dust or small particles trapped in the sliding mechanism. Clean the area with a soft, dry cloth. Ensure the cover is properly aligned in its track.
