AMERLIFE BSW003

AMERLIFE Wood Full Platform Bed with Headboard

Model: BSW003 | Brand: AMERLIFE

INTRODUCTION

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your AMERLIFE Wood Full Platform Bed with Headboard, Model BSW003. Please read these instructions carefully before beginning assembly and retain them for future reference.

FULL SIZE

**Max Weight
Capacity**

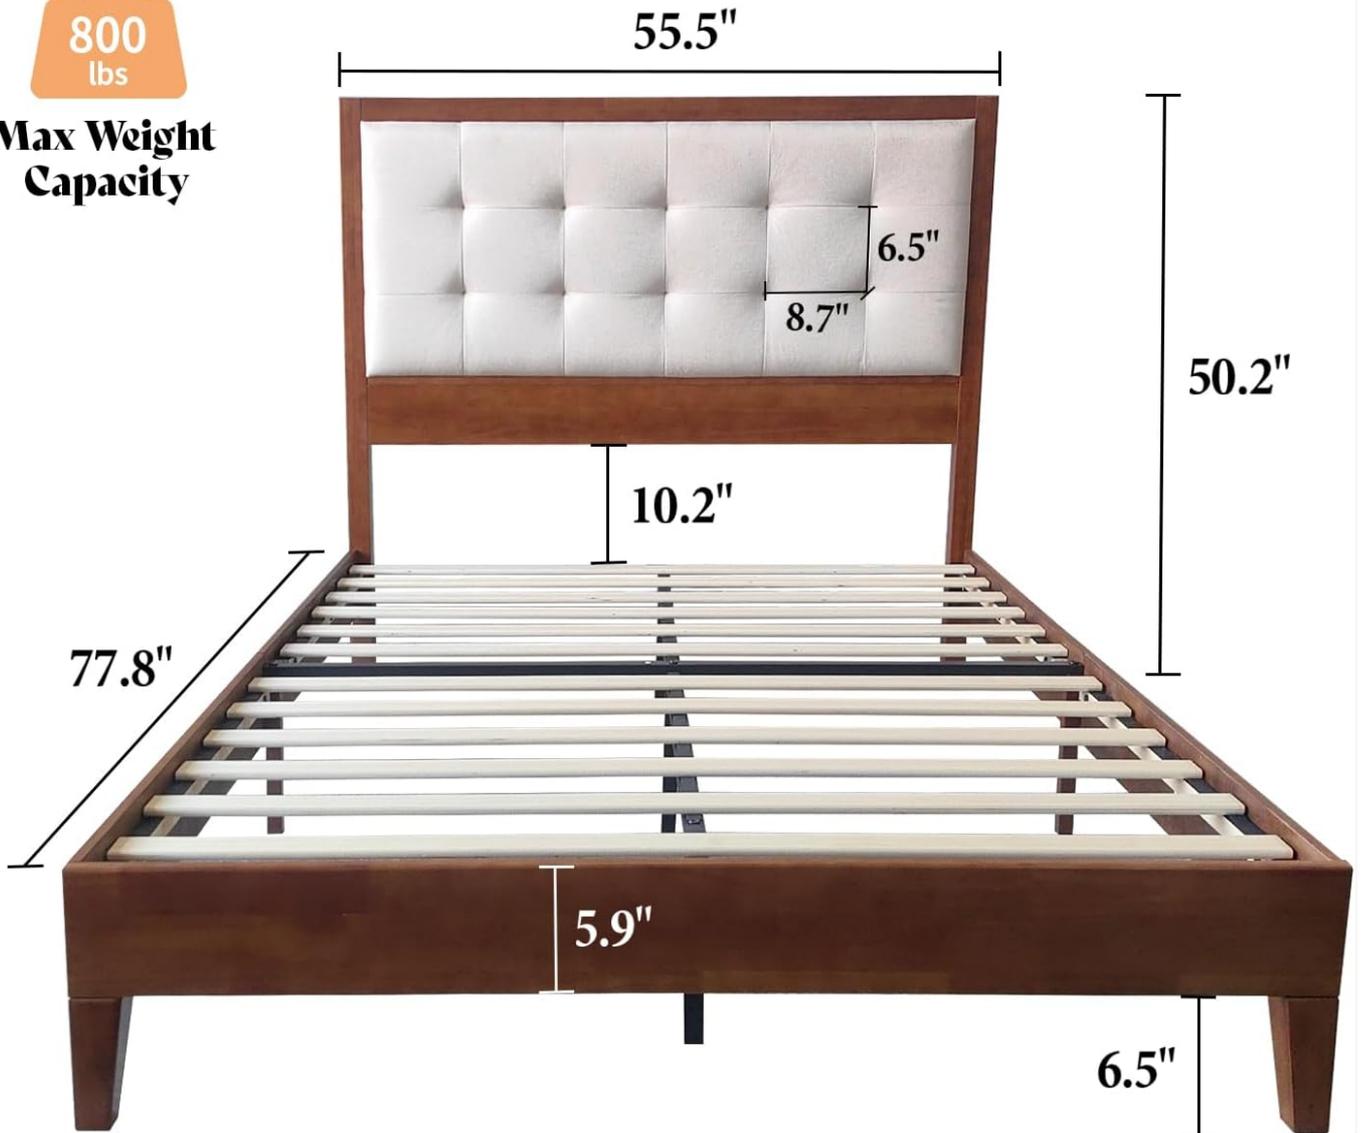

Image: The AMERLIFE Wood Full Platform Bed with Headboard, showcasing its mid-century modern design in a bedroom environment.

The AMERLIFE Wood Full Platform Bed with Headboard is designed to offer both durability and a stylish aesthetic to your bedroom. Constructed from high-quality rubberwood, it features rich natural grain textures and a walnut finish. The 50-inch upholstered headboard, with its plush tufted detailing, provides comfortable back support and enhances the overall visual appeal. An integrated slat support system eliminates the need for a box spring, offering direct mattress support and stability.

SAFETY INFORMATION

- Always assemble the bed frame on a soft, clean surface to prevent damage.
- Ensure all components are present and undamaged before beginning assembly.
- Do not overtighten screws during assembly, as this may strip threads or damage components.
- Periodically check all connections and fasteners to ensure they remain tight.
- This bed frame is designed for use with a mattress only; a box spring is not required.

- Keep small parts and packaging materials away from children and pets.
- The maximum weight capacity for this full-size bed frame is 800 pounds.

PACKAGE CONTENTS

Verify that all parts are included in your package before starting assembly. If any parts are missing or damaged, please contact customer support.

- Headboard (Upholstered with Wood Frame)
- Side Rails (2)
- Footboard
- Center Support Beam
- Wooden Slats
- Support Legs (for center beam and frame)
- Hardware Pack (screws, bolts, Allen wrench)

SETUP AND ASSEMBLY

Assembly of the AMERLIFE Wood Full Platform Bed is designed to be straightforward, typically requiring two people for efficient completion. All necessary hardware is provided.

1. **Prepare the Area:** Clear a spacious area and lay out all components on a soft surface to prevent scratches.
2. **Attach Side Rails to Headboard:** Secure the side rails to the headboard using the provided bolts and Allen wrench. Ensure connections are firm but do not overtighten.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard, securing them with the appropriate hardware.
4. **Install Center Support Beam:** Position the center support beam along the length of the frame and attach it according to the instructions, ensuring any support legs are properly installed and adjusted.
5. **Place Wooden Slats:** Lay the wooden slats across the frame, ensuring they are evenly spaced and secured to the side rails or center beam as indicated in the detailed instructions. The integrated slat system provides direct mattress support.
6. **Final Check:** Verify that all bolts and screws are securely tightened and the frame is stable before placing your mattress.

OPERATING INSTRUCTIONS

Once assembled, your AMERLIFE platform bed is ready for use. Simply place your full-size mattress directly onto the wooden slats. No box spring is needed due to the robust slat support system.

MAINTENANCE

To maintain the appearance and longevity of your bed frame, follow these simple care instructions:

- **Cleaning:** Wipe the wood surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Upholstery Care:** For the upholstered headboard, spot clean with a mild detergent and a clean cloth as needed. Test in an inconspicuous area first.
- **Regular Inspection:** Periodically check all hardware connections (screws, bolts) and tighten if necessary to ensure stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the wood finish to fade or change color over time.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame feels unstable or wobbly.	Loose hardware connections.	Check and tighten all bolts and screws using the provided Allen wrench. Ensure all support legs are making firm contact with the floor.
Squeaking noises from the frame.	Loose connections or friction between components.	Tighten all hardware. If squeaking persists, apply a small amount of furniture wax or silicone spray to contact points between wood and metal components.
Mattress sags or feels unsupported.	Improper slat placement or damaged slats.	Ensure all wooden slats are correctly positioned and evenly spaced. Check for any broken or cracked slats and replace if necessary. Verify the center support beam is properly installed.
Difficulty assembling components.	Incorrect orientation of parts or missing steps.	Refer back to the detailed assembly instructions. Ensure parts are oriented correctly as shown in diagrams. Do not force components together.

SPECIFICATIONS

- **Model:** BSW003
- **Size:** Full
- **Color:** Walnut
- **Product Dimensions:** 77.8"L x 55.5"W x 50.2"H
- **Material:** Solid Rubberwood, Linen Upholstery
- **Finish Type:** Wood
