# Kidsneed SM935A Video Baby Monitor User Manual

MODEL: SM935A

*Your trusted companion for monitoring your little one.*

## Introduction

Thank you for choosing the Kidsneed SM935A Video Baby Monitor. This manual provides detailed instructions to help you set up, operate, and maintain your new baby monitor, ensuring a safe and secure environment for your child. Please read this manual thoroughly before use and keep it for future reference.

## Package Contents

Please check the package contents to ensure all items are present:

- 1 x Parent Unit (Monitor)
- 1 x Baby Unit (Camera)
- 2 x Power Adapters
- 1 x User Manual

## Setup Guide

- Charging the Parent Unit:** Connect one power adapter to the Parent Unit and plug it into a power outlet. Charge the unit fully before first use (approximately 4 hours for 1200mAh battery).
- Powering the Baby Unit (Camera):** Connect the second power adapter to the Baby Unit and plug it into a power outlet. The camera requires continuous power to operate.
- Positioning the Baby Unit:** Place the Baby Unit in a location that provides a clear view of your baby's crib or play area. Ensure it is at least 3 feet (1 meter) away from the baby to avoid cord hazards. The camera can be tabletop mounted or wall-mounted.
- Pairing (Pre-paired):** The Parent Unit and Baby Unit are pre-paired at the factory. If re-pairing is needed, refer to the "Troubleshooting" section.

## Operating Instructions

1. **Power On/Off:** Press and hold the power button on both the Parent Unit and Baby Unit to turn them on or off.
2. **Screen Display:** The 3.5-inch large display on the Parent Unit will show the live video feed from the Baby Unit.
3. **Remote Pan/Tilt/Zoom:** Use the directional buttons on the Parent Unit to remotely pan (left/right), tilt (up/down), and zoom (in/out) the camera lens to get a better view of your baby. Ensure the pan/tilt mode is active by pressing the corresponding button.
4. **Two-Way Talk:** Press and hold the microphone button on the Parent Unit to speak to your baby through the Baby Unit's speaker. Release the button to hear your baby.
5. **Volume Adjustment:** Use the volume buttons on the Parent Unit to increase or decrease the sound level.
6. **Brightness Adjustment:** Use the brightness buttons on the Parent Unit to adjust the screen brightness.
7. **Lullabies:** Select from 4 pre-programmed lullabies to play through the Baby Unit. Access this feature via the menu.
8. **Temperature Monitoring:** The Baby Unit has a built-in temperature sensor. The room temperature will be displayed on the Parent Unit. You can switch between Fahrenheit and Celsius in the settings.
9. **ECO Mode (Voice Activation):** Activate ECO mode to conserve battery. The screen will turn off, and sound will be muted until a sound above a set threshold is detected from the baby's room.
10. **Feeding Timer:** Set reminders for feeding times (2, 4, or 6 hours) using the menu options.

### Key Features

- **3.5" Large Display:** Provides a clear and comprehensive view of your baby.
- **Remote Pan/Tilt/Zoom:** Control the camera's viewing angle and zoom level directly from the parent unit.
- **Night Vision:** Automatic infrared night vision for clear monitoring in low-light conditions.
- **Two-Way Talk:** Communicate with your baby from another room.

- **Smart Temperature Monitoring:** Built-in sensor alerts you to temperature changes in the baby's room.
- **Lullabies:** Soothe your baby with pre-programmed melodies.
- **Secure 2.4G FHSS Transmission:** Ensures 100% privacy and security, free from Wi-Fi interference and hacking risks.
- **Long Range:** Up to 960 feet of reliable signal transmission.
- **Multi-Camera Expandability:** Supports up to four cameras for monitoring multiple rooms or children (additional cameras sold separately).
- **VOX Mode (Eco Mode Voice Activation):** Conserves battery by activating the screen and sound only when noise is detected.
- **Sound Activated LEDs:** Visual indication of sound levels from the baby's room.
- **Alarm/Timer Setting:** Customizable alerts for feeding or other routines.

## Care and Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the Parent Unit and Baby Unit. Do not use abrasive cleaners or solvents.
- **Battery Care:** For optimal battery life, fully charge the Parent Unit before first use. Avoid extreme temperatures.
- **Storage:** If storing the monitor for an extended period, ensure both units are powered off and stored in a cool, dry place.
- **Placement:** Keep units away from direct sunlight, heat sources, and moisture.

## Troubleshooting

| Problem                          | Possible Cause                                       | Solution   |
|----------------------------------|--|--|
| No picture/sound on Parent Unit. | Units are not powered on or not paired.              | Ensure both units are plugged in and powered on. If still no connection, try re-pairing (refer to manual for pairing steps, typically involves pressing a pair button on the camera and initiating pairing from the monitor menu). |
| Poor signal reception.           | Units are too far apart or obstructions are present. | Move the Parent Unit closer to the Baby Unit. Reduce obstacles like thick walls or other electronic devices.   |
| Screen freezes or unresponsive.  | Temporary software glitch.                           | Turn off both units, unplug them, wait a few seconds, then plug them back in and power on.   |
| Battery drains quickly.          | ECO mode is off or screen brightness is too high.    | Activate ECO mode. Reduce screen brightness. Ensure the battery is fully charged before each use.  |

## Specifications

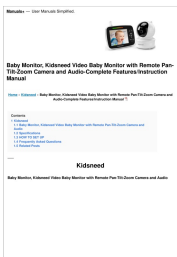

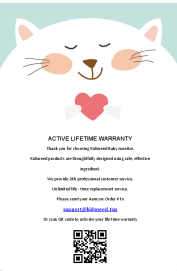

- **Model:** SM935A
- **Display Size:** 3.5 inches
- **Connectivity:** 2.4GHz FHSS (Wireless)
- **Parent Unit Battery:** 1200 mAh Lithium Ion (included)
- **Range:** Up to 960 feet (line of sight)
- **Video Capture Resolution:** 480p
- **Power Source:** Battery Powered/Corded Electric
- **Dimensions (Parent Unit):** 5.2 x 4.1 x 6.4 inches
- **Weight:** 1.21 pounds
- **Indoor/Outdoor Usage:** Indoor
- **Manufacturer:** Kidsneed
