Veqotya A-2025

Veqotya A-2025 Android Auto Wireless Adapter User Manual

Model: A-2025

INTRODUCTION

The Veqotya A-2025 Android Auto Wireless Adapter converts your car's existing wired Android Auto system into a wireless connection. This slim and lightweight adapter utilizes Bluetooth technology for stable connectivity, providing a seamless in-car experience. It allows you to access all Android Auto functions, including navigation, music, and calls, through your car's original controls.

PACKAGE CONTENTS

Please verify that all items are present in the package:

- Veqotya A-2025 Android Auto Wireless Adapter
- USB-C Cable
- USB-A Cable

Setup Instructions

Follow these simple steps for the initial setup. After the first connection, the adapter will automatically activate wireless Android Auto when your car starts.

1. **Connect the Adapter:** Plug the Veqotya A-2025 adapter into your car's USB port that supports wired Android Auto. Use the appropriate USB-C or USB-A cable provided.

2. **Enable Phone Settings:** On your Android phone, ensure both Bluetooth and Wi-Fi are enabled.

3. **Pair Bluetooth:** On your car's infotainment screen, select the Bluetooth pairing option. Search for and connect to the Veqotya adapter's Bluetooth signal. Follow any on-screen prompts to complete the pairing process.

The first connection typically takes about 15 seconds. Subsequent reconnections should occur automatically within approximately 5 seconds when you start your car.

OPERATING INSTRUCTIONS

Once connected, the Veqotya A-2025 adapter allows you to use all standard Android Auto functions wirelessly, maintaining your car's original control methods.

- **Full Android Auto Functionality:** Access navigation, music playback, phone calls, messaging, and other compatible apps directly on your car's display.
- **Control Methods:** Operate Android Auto using your car's existing controls, including:
  - Touch Screen
  - OEM Knob/Controller
  - Steering Wheel Controls
  - Voice Control (e.g., "Hey Google...")
- **Automatic Reconnection:** The adapter is designed to automatically connect to the last paired Android phone when the car starts. If multiple paired phones are nearby, it will prioritize the most recently connected device.

COMPATIBILITY

The Veqotya A-2025 Android Auto Wireless Adapter is designed for broad compatibility, but specific requirements must be met:

- **Car Compatibility:** Your car or audio system must be equipped with factory-installed wired Android Auto. The adapter supports over 800 car models from 2017 onwards.
- **Phone Compatibility:** Your Android phone must support Android Auto. Android 11 or higher is highly recommended for optimal performance.

To verify if your car model is compatible, please refer to the official Android Auto compatibility list:Android Auto Compatible Vehicles.

MAINTENANCE

To ensure the longevity and optimal performance of your Veqotya A-2025 Android Auto Wireless Adapter, follow these general maintenance guidelines:

- **Keep Clean:** Gently wipe the adapter with a soft, dry cloth to remove dust. Avoid using liquid cleaners or abrasive materials.
- **Store Properly:** When not in use for extended periods, disconnect the adapter and store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handle with Care:** Avoid dropping the adapter or subjecting it to physical shock, which can damage internal components.
- **Software Updates:** Periodically check the manufacturer's website or app (if applicable) for any firmware updates to ensure the best performance and compatibility.

TROUBLESHOOTING

If you encounter issues with your Veqotya A-2025 adapter, please refer to the following common solutions:

Problem	Solution
Adapter does not connect automatically.	- Ensure your phone's Bluetooth and Wi-Fi are enabled. - Verify that the adapter is properly plugged into the car's USB port. - If multiple Android phones are present, the adapter connects to the last paired device. Ensure the desired phone is the primary one. - Try restarting your car and phone.
Audio skipping or intermittent connection.	- Ensure there are no other strong Wi-Fi or Bluetooth interference sources nearby. - Check for any available firmware updates for the adapter. - Try disconnecting and reconnecting the adapter. - Ensure your phone's operating system is up to date.
Android Auto fails to launch or connect.	- Confirm your car supports wired Android Auto. - Ensure your Android phone has Android Auto installed and is running Android 11 or higher. - If you use a VPN on your phone, temporarily pause or disable it, as VPNs can interfere with the adapter's Wi-Fi connection. - Clear the cache and data for the Android Auto app on your phone.
Adapter is not recognized by the car.	- Try using a different USB port in your car, if available. - Ensure the USB cable is securely connected and not damaged. - Test the USB port with another device to confirm it is functional.
