- **Cushion Care:** The cushion covers are water-resistant and feature zippers for easy removal. They can be hand-washed or machine-washed on a gentle cycle with cold water. Air dry only; do not tumble dry.
- **Weather Protection:** While the set is weather-resistant, prolonged exposure to extreme weather conditions (heavy rain, snow, intense sun) can affect its longevity. Consider using a furniture cover or storing cushions indoors during harsh weather.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten as necessary.

Cushions are cozy, removable, and made with water-resistant fabric for easy maintenance.

Troubleshooting

If you encounter any issues with your furniture set, refer to the common problems and solutions below:

- **Wobbly Chair/Table:** Ensure all bolts and screws are fully tightened. Use the adjustable foot pads on the chairs to level them on uneven surfaces.
- **Difficulty Assembling:** Double-check that you are using the correct hardware for each step and that parts are oriented correctly as per the diagrams. Do not overtighten screws until all connections for a section are loosely in place.
