MAINTENANCE

Cleaning the Unit

Gently wipe the screen and unit exterior with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as they may damage the surface.

Software Updates

Periodically check for available software updates to ensure optimal performance and access to the latest features. Updates can typically be performed via the system settings when connected to Wi-Fi.

TROUBLESHOOTING

Steering Wheel Control Issues

If your car's steering wheel buttons are not functioning after installation, follow these steps to restore normal operation:

1. Ensure your original car's small screen remains properly connected. Do not remove the original small screen from your vehicle.
2. Connect the small yellow connector (labeled 'A' from the car) to the corresponding port (labeled 'B' on the power harness).
3. Select the correct protocol:
 - Navigate to: **[Settings]** -> **[Factory Settings]** (Password: **8888**) -> **[Protocol Settings]**
 - Select the corresponding protocol in this order:
 - Manufacturer: **Hiworld**
 - Car Series: **Renault-Dacia**
 - Car Model: **Clio3**

Image: Visual guide for resolving steering wheel control issues, showing cable connections and protocol settings.

General Issues

- **No Power:** Check all power connections and fuses. Ensure the ignition is on.
- **No Sound:** Verify speaker connections, volume settings, and audio source selection.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, contact support.
