EAGLE PEAK GH43HX-GRN

EAGLE PEAK GH43HX-GRN 6.6x6.6 Hexagon Pop-Up Greenhouse User Manual

Model: GH43HX-GRN | Brand: EAGLE PEAK

INTRODUCTION

This manual provides essential instructions for the safe and efficient assembly, operation, and maintenance of your EAGLE PEAK 6.6x6.6 Hexagon Pop-Up Greenhouse. Designed for year-round plant protection, this portable greenhouse features a quick setup, durable PE cover, and effective ventilation options. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

- Always follow assembly instructions carefully.
- Wear gloves when handling components to prevent injury from sharp edges.
- Avoid prolonged exposure to direct UV rays during assembly or maintenance.
- Ensure proper anchoring and ventilation to prevent damage to the greenhouse or injury during strong winds or extreme weather conditions.
- Do not use the greenhouse near open flames or heat sources.
- Regularly inspect the frame and cover for any signs of wear or damage.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 1x Adjustable Steel Frame
- 1x Durable PE Cover
- 20x Ground Stakes for Stability
- 6x Guy Ropes for Extra Wind Support
- 1x Storage Bag

WEATHER-RESISTANT PROTECTION

**Sloped Roof Prevents Water
& Snow Build-Up**

**Durable Frame Withstands

SETUP INSTRUCTIONS

The EAGLE PEAK Hexagon Pop-Up Greenhouse features a patented center lock system for quick and easy assembly, often achievable by one person in seconds without tools.

Step 1: Open the Frame

Unfold the pre-assembled steel frame. Ensure the legs are partially extended.

Step 2: Push to Lock

Use the exclusive Peak Push center lock mechanism to raise and secure the frame. Push upwards on the center hub until it locks into place.

Step 3: Adjust the Height

Set the frame at full height for maximum space and airflow. Secure the height adjustment pins on each leg.

LIFT. LOCK. DONE.

One-person setup in seconds
No tools. No hassle. No pinched fingers

EASY SETUP

STEP 01 Open the Frame

Unfold the pre-assembled steel frame for quick setup — no tools required.

STEP 02 Push to Lock

Use the exclusive Peak Push center lock to raise and secure the frame in seconds.

STEP 03 Adjust the Height

Set at full height for maximum space and airflow.

Figure 3: Easy Setup Steps

Step 4: Attach the PE Cover

Drape the durable PE cover over the erected frame, ensuring it fits snugly and aligns with the frame structure.

Step 5: Secure Anchoring

For optimal stability, especially in windy conditions, utilize the provided ground stakes and guy ropes. The ground skirt on all sides can be filled with sand or bricks to further seal the cover to the ground and protect against small animals.

OPERATING INSTRUCTIONS

Ventilation and Airflow

The greenhouse is equipped with two zippered roll-up doors and two mesh windows to ensure easy entry and enhanced airflow. Open the doors and windows as needed to prevent overheating and provide cross-breeze ventilation for your plants.

Plant Protection

The premium PE greenhouse cover is designed to maintain optimal humidity levels and filter sunlight, making it ideal for frost protection, seed starting, and extending your growing season. It creates a healthy growth environment year-round for various plants.

MAINTENANCE

- **Cleaning:** Clean the PE cover periodically with mild soap and water. Avoid harsh chemicals that could damage the material.
- **Inspection:** Regularly check the steel frame for rust or damage. Inspect the PE cover for tears or holes, especially after severe weather. Repair any damage promptly to maintain effectiveness.
- **Seasonal Storage:** The pop-up design allows for easy disassembly and storage during off-seasons. Ensure the cover is clean and dry before storing in the provided bag to prevent mold and mildew.

TROUBLESHOOTING

- **Greenhouse instability in wind:** Ensure all ground stakes and guy ropes are properly installed and tightened. Consider adding additional weight to the ground skirt, such as sandbags or cinder blocks, for enhanced stability in very strong winds.
- **Temperature fluctuations:** Utilize the zippered doors and mesh windows to regulate internal temperature. For colder nights, ensure all openings are securely closed. Supplemental heating may be required in extreme cold.
- **Difficulty with setup/takedown:** Refer to the 'Setup Instructions' section. The patented center lock is designed for ease of use; ensure it is fully engaged or disengaged. If the frame is stiff, gently apply pressure evenly.

SPECIFICATIONS

Model Number	GH43HX-GRN
Product Dimensions (L x W x H)	94.8" x 78" x 92.2" (6.6' x 6.6' approximate base)
Item Weight	40.12 Pounds
Cover Material	Polyethylene (PE)
Frame Material	Alloy Steel
Number of Doors	2
Number of Vents	2 (Mesh Windows)
Indoor/Outdoor Usage	Outdoor

WARRANTY AND SUPPORT

EAGLE PEAK offers a 1-year limited after-sale protection from the original date of purchase, covering both the frame and the cover. For any questions or issues, please contact our professional service team. Your feedback and trust motivate us to develop high-quality, easy-to-use, versatile, and durable solutions.
