## 1. SAFETY INFORMATION

Please read all instructions carefully before using the qimedo M1 Cordless Electric Mop and Scrubber. Retain this manual for future reference.

- Do not submerge the scrubber head in water.
- Avoid using the scrubber on tubs or in standing water.
- Do not press the power mop too hard, as this may cause it to stop functioning. If this occurs, separate and reinstall the battery.
- Do not put sand or debris in the water tank to prevent clogs.
- Keep out of reach of children and pets.

## 2. PRODUCT OVERVIEW

The qimedo M1 is an innovative 2-in-1 cordless electric mop and scrubber designed for efficient floor cleaning. It features a powerful motor, long-lasting battery, and smart functionalities to simplify your cleaning routine.

### Key Features:

- **2-in-1 Functionality:** Operates as both an electric mop and an electric scrubber.
- **High RPM Motor:** Features three modes (400 RPM, 600 RPM, 800 RPM) with an upgraded double

bearing for powerful cleaning.

- **Long-lasting Battery:** Equipped with a 6000mAh battery (3.0 blade compression construction) providing up to 420 minutes of continuous operation in low-speed mode. Two batteries are included.
- **Effortless Handle:** Designed to reduce the perceived weight by 40% during use, enhancing comfort.
- **Removable Water Tank:** Features a 300ml removable water tank with a powerful pump for even water spray.
- **LED Light:** Integrated LED lights on the mop head illuminate dark corners for thorough cleaning.
- **Extended Handle:** A 50-inch telescopic pole with a 90° adjustable brush head for reaching difficult areas without bending.
- **Smart Display:** Shows remaining battery percentage and current power mode, with a low battery recharge prompt.

## 4. SETUP INSTRUCTIONS

Follow these steps to assemble and prepare your qimedo M1 for first use:

1. **Install the Pad/Brush Head:** Select the appropriate cleaning pad or brush head for your task. Align it with the rotating base and press firmly until it clicks into place.
2. **Assemble the Handle:** Align and tighten the extension handle sections. The handle is adjustable; press the button to extend or retract it to your desired length.
3. **Install the Battery:** Align the 21V battery with the battery slot on the handle and push it in until it locks securely.
4. **Fill the Water Tank (Optional):** If using the water spray function, remove the water tank, fill it with clean water (and cleaning solution if desired), and reattach it securely.

# Real Customer Experience

Excellent

Video 4.1: A demonstration by the qimedo team on how to properly assemble and use the 6000mAh battery electric mop M1, covering key setup steps.

## 5. OPERATING INSTRUCTIONS

Once assembled, your qimedo M1 is ready for use:

- 1. Power On:** Press the power button on the handle to turn on the electric mop. The smart display will show the battery level and current mode.
- 2. Select Mode:** Single press the power button to cycle through the three power modes: Low, Mid, and Max (800 RPM). Choose the mode suitable for your cleaning task.
- 3. Water Spray (Optional):** If you need to spray water for stains, press the dedicated spray button. Press again to stop spraying. Avoid long, continuous sprays.
- 4. Cleaning:** Guide the mop across the floor. The self-propelled design and rotating brush heads will do the work. The LED light will help illuminate dirt in dark areas.
- 5. Adjust Handle:** Use the adjustable handle to comfortably reach under furniture or into corners.

### Usage Tips:

- For stubborn stains, use the Max mode for increased power.
- The cleaning brush heads run in opposite directions for enhanced stability during operation.
- The smart display will prompt you to recharge when the power is below 25%.

# Efficient cleaning and Charging Time

Effortless Handle and foot-pressing 300ml water tank increase cleaning efficiency by more than **"40%"** compared to other Electric Mops

Video 5.2: An official qimedo video highlighting the 800RPM cordless electric mop's capabilities as an automatic spin mop, showing its ease of use and effectiveness.

## 6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your qimedo M1:

- **Clean Brush Heads:** After each use, remove and clean the brush heads. They are washable and reusable.
- **Empty Water Tank:** Empty any remaining water from the removable tank after use to prevent stagnation

and potential clogs.

- **Charging:** Fully charge batteries after use to ensure they are ready for the next cleaning session. A full charge takes approximately 2.5 hours.
- **Storage:** Store the mop in a dry place. Use the provided hook to hang it for convenient storage.

Figure 6.1: Image showing the 3000mAh battery being charged, indicating a 2.5-hour charging time.

Figure 6.2: Illustration of cleaning the mop pads, showing them submerged in water for easy maintenance.

## 7. TROUBLESHOOTING

If you encounter any issues with your qimedo M1, refer to the following common solutions:

- **Mop stops working when pressed too hard:** If you press the power mop too hard and it stops working, separate the battery from the electric mop, then reinstall the battery and turn the mop on again. This resets the battery protection mode.
- **Uneven spraying or malfunctioning water pump:** Ensure the removable water tank is correctly installed and filled with clean water. Avoid putting sand or debris in the tank to prevent clogs.
- **Battery not charging:** Ensure the charger is properly connected to both the battery and a power outlet. Allow 2.5 hours for a full charge.

## 8. SPECIFICATIONS

Feature	Specification
Brand	qimedo
Model Number	YD-QJS1804SS-PRO1
Handle Material	Plastic or Aluminum
Head Material	Cotton
Product Dimensions	50 x 6.89 x 17.24 inches
