> RAVEMEN Q2 Bike Bell Compatible with AirTag Instruction Manual

## Ravemen Q2

# RAVEMEN Q2 Bike Bell Instruction Manual

Model: Q2

## 1. PRODUCT OVERVIEW

The RAVEMEN Q2 Bike Bell is a high-performance bicycle bell designed for safety and convenience. It features a loud, clear sound to alert pedestrians and other cyclists, and includes a hidden compartment compatible with an AirTag (not included) for tracking your bicycle. Constructed from durable aluminum alloy and stainless steel, the bell is built to withstand various weather conditions.

## 2. WHAT'S IN THE BOX

Your RAVEMEN Q2 Bike Bell package includes the following components:

- RAVEMEN Q2 Bike Bell with integrated AirTag compartment
- Hex wrench for installation
- 2 anti-slip washers (for 22.2mm and 25.4mm handlebars)

# TRACK WITH EASE

compatible with AirTag to track bicycle and monitor your rides

## 3. SETUP AND INSTALLATION

Follow these steps to install your RAVEMEN Q2 Bike Bell:

1. **Unscrew the smaller screw:** Use the provided hex wrench to unscrew the smaller screw on the bell's AirTag compartment lid.
2. **Unscrew the larger screw:** Loosen the larger screw that secures the bell to the handlebar.

3. **Attach the bell to the handlebar:** Open the bell's clamp and position it on your bicycle's handlebar. Select the appropriate anti-slip washer (hard plastic for 22.2mm, soft silicone for 25.4mm) if your handlebar diameter is not 31.8mm.
4. **Tighten the large screw:** Use the hex wrench to securely tighten the larger screw, ensuring the bell is firmly attached to the handlebar.
5. **Insert the tracker:** Place your AirTag (or compatible tracker) into the designated compartment.
6. **Tighten the smaller screw:** Close the compartment lid and tighten the smaller screw to secure the tracker.

## 4. OPERATION

To operate the RAVEMEN Q2 Bike Bell, simply press the lever with your thumb. The upgraded vibration mechanism produces a loud and clear sound, ranging from 100-110dB for daily use and up to 120dB in extreme circumstances, ensuring you are heard in various traffic conditions. The integrated compartment securely holds an AirTag (not included), allowing you to track your bicycle's location via your smartphone.

## 5. COMPATIBILITY

The RAVEMEN Q2 Bike Bell is designed for universal fit and is compatible with handlebars ranging from 0.87 inches (22.2mm) to 1.25 inches (31.8mm) in diameter. It includes two anti-slip washers to ensure a secure fit on various handlebar sizes. This bell is suitable for a wide range of bicycles, including adult bikes, kids' bikes, e-bikes, road bikes, mountain bikes, city bikes, and electric scooters.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your RAVEMEN Q2 Bike Bell, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the bell regularly with a soft, damp cloth to remove dirt and grime. Avoid using harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all screws and mounting points to ensure they are tight and secure.
- **Lubrication:** If the bell mechanism feels stiff, apply a small amount of silicone-based lubricant to the moving parts.
- **Storage:** When not in use for extended periods, store the bell in a dry environment to prevent rust or corrosion.

## 7. TROUBLESHOOTING

If you encounter issues with your RAVEMEN Q2 Bike Bell, consider the following:

- **Weak or no sound:** Ensure the bell is securely mounted and not obstructed. Check if the internal mechanism is free from debris. Avoid pinching the top mount when testing the sound.
- **Loose mounting:** Re-tighten the main screw on the handlebar clamp using the provided hex wrench. Ensure the correct anti-slip washer is used for your handlebar diameter.
- **AirTag compartment not closing:** Verify that the AirTag (or tracker) is correctly seated within the compartment and that no foreign objects are preventing the lid from closing properly.

## 8. SPECIFICATIONS
