4. SETUP

4.1 SIM Card Installation

1. Locate the SIM card tray on the side of the phone.
2. Insert the SIM ejector tool into the small hole next to the tray and press firmly until the tray pops out.
3. Place your Nano-SIM cards (up to two) into the designated slots on the tray. Ensure they are correctly oriented.
4. Carefully push the SIM tray back into the phone until it is flush with the device body.

4.2 Initial Power On

Press and hold the Power button located on the side of the device until the DOOGEE logo appears. Follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, and Google account setup.

4.3 Charging

Connect the provided USB cable to the phone's USB-C port and the 66W power adapter. Plug the adapter into a wall outlet. The phone supports 66W super-fast charging, reaching 24% in approximately 10 minutes

and a full charge in about 1 hour and 15 minutes. The 11000mAh battery also supports 10W OTG reverse charging for other devices.

5.2 Performance

The device is powered by the MediaTek Dimensity 7300 5G chipset (4nm octa-core, 2.5GHz) and an advanced cooling system. It features 16GB physical RAM + 20GB virtual RAM (total 36GB) and 512GB of internal storage, expandable up to 2TB with a microSD card.
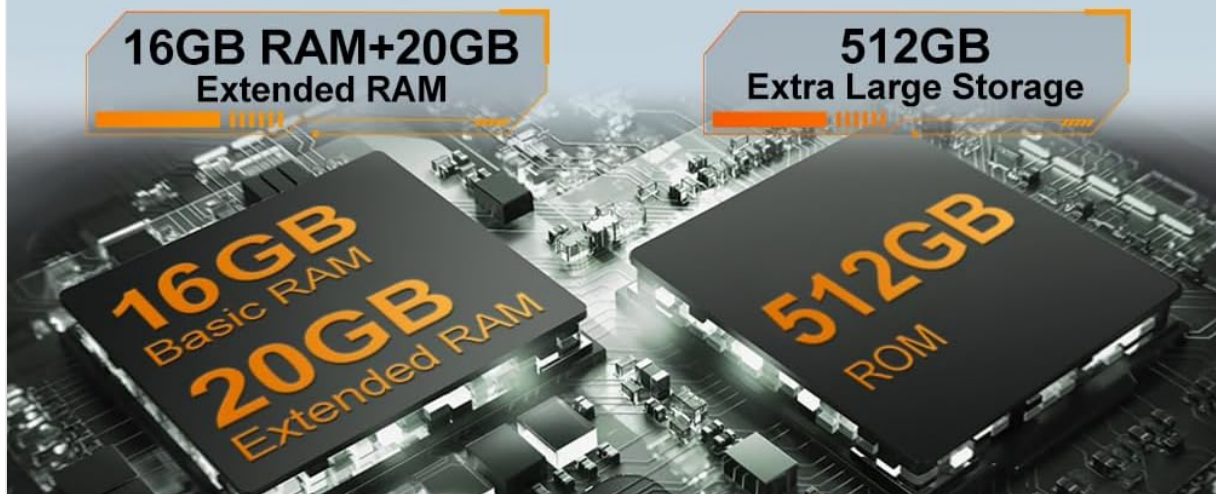

Image: Diagram illustrating the MediaTek Dimensity 7300 5G processor, 16GB basic RAM + 20GB extended RAM, and 512GB extra-large storage.

5.3 Connectivity

The S200 Plus offers comprehensive connectivity options:

- **Dual 5G SIM:** Compatible with most carriers (T-Mobile, Metro PCS, etc. -**Not compatible with AT&T, Cricket, or CDMA carriers like Verizon, Sprint, Boost, U.S.Cellular, Net 10, Straight Talk**).
- **Wi-Fi 6E:** For high-speed wireless internet.
- **Bluetooth 5.4:** For connecting wireless accessories.
- **NFC:** Supports contactless payments (Google Pay).
- **GPS:** Hyper-precise navigation with 4 satellite systems (GPS/Beidou/GLONASS/Galileo).

5.4 Special Features

The device includes several features designed for user convenience and specific use cases:

- **Biometric Authentication:** Fingerprint and Face Unlock for secure access.
- **1216Q Super-Linear Speaker:** Provides professional audio quality.
- **Kids Mode:** A dedicated mode for child-friendly usage.
- **Glove Mode:** Allows touchscreen operation while wearing gloves.

- **Game Mode:** Optimizes performance for gaming.

6. MAINTENANCE

6.1 Durability and Protection

The DOOGEE S200 Plus is certified IP68/IP69K and MIL-STD-810H, making it resistant to dust, water, and drops. To maintain its protective qualities:

- Ensure all port covers are securely closed before exposure to water or dust.
- Avoid exposing the phone to high-pressure water jets or extreme temperatures.
- Clean the device with a soft, damp cloth. Do not use harsh chemicals.

6.2 Battery Care

The 11000mAh battery is designed for long life, maintaining ≥80% capacity after 1000 cycles. To prolong battery life:

- Avoid fully discharging the battery frequently.
- Use the provided 66W charger for optimal charging speed and battery health.
- Avoid exposing the phone to extreme heat or cold.

7. TROUBLESHOOTING

If you encounter issues with your DOOGEE S200 Plus, refer to the following common solutions:

- **Device not powering on:** Ensure the battery is charged. Connect to the charger and wait a few minutes before attempting to power on again.
- **Network connectivity issues:** Verify SIM card installation. Check network settings and ensure your carrier is supported. (Reminder: Not compatible with AT&T, Cricket, or CDMA carriers).
- **Touchscreen unresponsive:** Restart the device. If the issue persists, perform a factory reset (backup data first).
- **Apps crashing:** Clear the cache of the problematic app or reinstall it. Ensure your system software is up to date.
- **Slow performance:** Close unnecessary background apps. Clear storage space.

For more complex issues, please contact DOOGEE customer support.
