ZEALFEEL ZF04-LJ8x8S-BK

ZEALFEEL 8x8ft Golf Simulator Enclosure Net with Auto-Ball Return Instruction Manual

Model: ZF04-LJ8x8S-BK

1. INTRODUCTION

Thank you for choosing the ZEALFEEL 8x8ft Golf Simulator Enclosure Net. This product is designed to provide a dedicated and efficient space for golf practice, compatible with golf simulators and projectors (not included). Its robust construction and automatic ball return system enhance your training experience, whether indoors or outdoors.

2. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- 1 x Main Golf Net
- 1 x Ball Return Net
- 1 x Target Cloth (5ft x 3ft, low-noise silk)
- 4 x Ground Stakes
- 1 x Carry Bag
- Powder-coated Steel Frame components
- Anti-tear Netting

AUTOMATIC BALL RETURN

2X the Swings, No Ball Chasing

3. SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- **Clear Area:** Ensure a sufficient clear space around the net for safe swinging and ball impact.
- **Stable Setup:** Always assemble the net on a flat, stable surface. Use the provided ground stakes when setting up outdoors to prevent tipping.
- **Inspect Before Use:** Before each use, inspect the net, frame, and all connections for any signs of wear, damage, or loose parts. Do not use if damaged.
- **Proper Ball Usage:** The net is designed for real golf balls. However, ensure proper distance and aim to prevent balls from ricocheting outside the net.
- **Children and Pets:** Keep children and pets away from the net during use.
- **Weather Conditions:** While the net is designed for all-weather use, avoid using it in strong winds or severe weather conditions that could compromise stability.

4. SETUP INSTRUCTIONS

Follow these steps for quick and easy assembly. A visual guide is also available in the video below.

1. **Unpack Components:** Lay out all frame components, nets, and accessories on a clean, flat surface. Identify numbered poles as per the diagram.
2. **Assemble Base Frame:** Connect the horizontal base poles (e.g., #3 and #4) by pressing the spring buttons and sliding them into place. Then attach the corner pieces (e.g., #1 and #2) to form the rectangular base.
3. **Install Main Net:** Drape the main golf net over the assembled frame. Secure the net to the frame using the attached straps and buckles, ensuring it is taut and evenly distributed.
4. **Connect Ball Return Net:** Attach the ball return net to the lower front section of the main net and the base frame, creating a sloped surface for balls to roll back.
5. **Hang Target Cloth:** Secure the low-noise silk target cloth to the main net using the provided hooks or straps. Adjust its height as desired.
6. **Secure with Ground Stakes (Outdoor Use):** For outdoor setups, insert the four ground stakes through the loops at the base of the net and firmly into the ground to enhance stability.

5. OPERATING INSTRUCTIONS

The ZEALFEEL Golf Net is designed for straightforward use to enhance your golf practice.

- **Positioning:** Place the net in your desired practice area, ensuring adequate space for your swing. For simulator use, position your launch monitor and projector according to their respective instructions.
- **Hitting Area:** Utilize the spacious 8x8ft hitting area. The side barriers help contain errant shots, providing a wider margin of safety.
- **Automatic Ball Return:** After hitting a ball, it will impact the main net and roll down the sloped ball return net, bringing it back towards your feet. This minimizes interruptions and allows for continuous practice.
- **Target Practice:** Aim for the central target or the smaller targets on the silk target cloth to improve accuracy and focus. The silk material helps reduce impact noise by up to 50%.
- **Real Golf Balls:** The durable 7-ply reinforced netting is capable of withstanding real golf balls hit at speeds up to 250 mph.

6. MAINTENANCE

Regular maintenance will prolong the life of your golf net:

- **Cleaning:** Wipe down the frame with a damp cloth as needed. The nets can be gently rinsed with water and air-dried.
- **Storage:** When not in use for extended periods, disassemble the net and store all components in the provided carry bag in a dry, cool place.
- **Net Inspection:** Periodically check the netting for any tears or fraying. Small damages can sometimes be repaired with strong thread or specialized net repair kits.
- **Frame Inspection:** Ensure all frame connections remain secure. Check for any signs of rust on the powder-coated steel frame, especially if used outdoors frequently.

7. TROUBLESHOOTING

If you encounter any issues with your ZEALFEEL Golf Net, refer to the following common solutions:

- **Net Sagging:** Ensure all frame poles are fully connected and the net is securely attached to all attachment points. Adjust straps to increase tension if necessary.
- **Balls Not Returning Properly:** Check that the ball return net is correctly installed and forms a smooth, unobstructed slope. Ensure the net is on a level surface.
- **Frame Instability:** Verify that all frame connections are tight. For outdoor use, ensure ground stakes are fully inserted and the net is not subjected to excessive wind.
- **Excessive Noise:** Confirm the low-noise silk target cloth is properly hung and positioned to absorb impact.

8. SPECIFICATIONS

Brand	ZEALFEEL
Model Name	ZF04-LJ8x8S-BK
Size	8x8ft (98.4 x 30 x 98.4 inches LxWxH)
Material	Powder-coated Steel Frame, Anti-tear Netting (7-ply), Noise-Reducing Target Cloth (Silk)
