FRESHDEW RUD1

FRESHDEW Portable Dehumidifier User Manual

Model: RUD1

1. INTRODUCTION

Thank you for choosing the FRESHDEW Portable Dehumidifier. This device is designed to efficiently remove excess moisture from the air, creating a more comfortable and healthier environment in your home. It is ideal for spaces up to 960 sq. ft, such as bedrooms, bathrooms, closets, and RVs. Please read this manual thoroughly before operation to ensure proper use and maintenance.

Figure 1: FRESHDEW Portable Dehumidifier. This image shows the compact design of the dehumidifier with its transparent water tank.

2. SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Always place the dehumidifier on a stable, level surface.
- Do not block the air inlets or outlets. Ensure at least 6 inches of clearance around the unit.
- Do not immerse the unit, power cord, or plug in water or other liquids.
- Unplug the dehumidifier before cleaning, maintenance, or when not in use.
- Keep out of reach of children and pets.

- Do not operate if the power cord or plug is damaged.
- This appliance is for indoor use only.

3. PRODUCT OVERVIEW

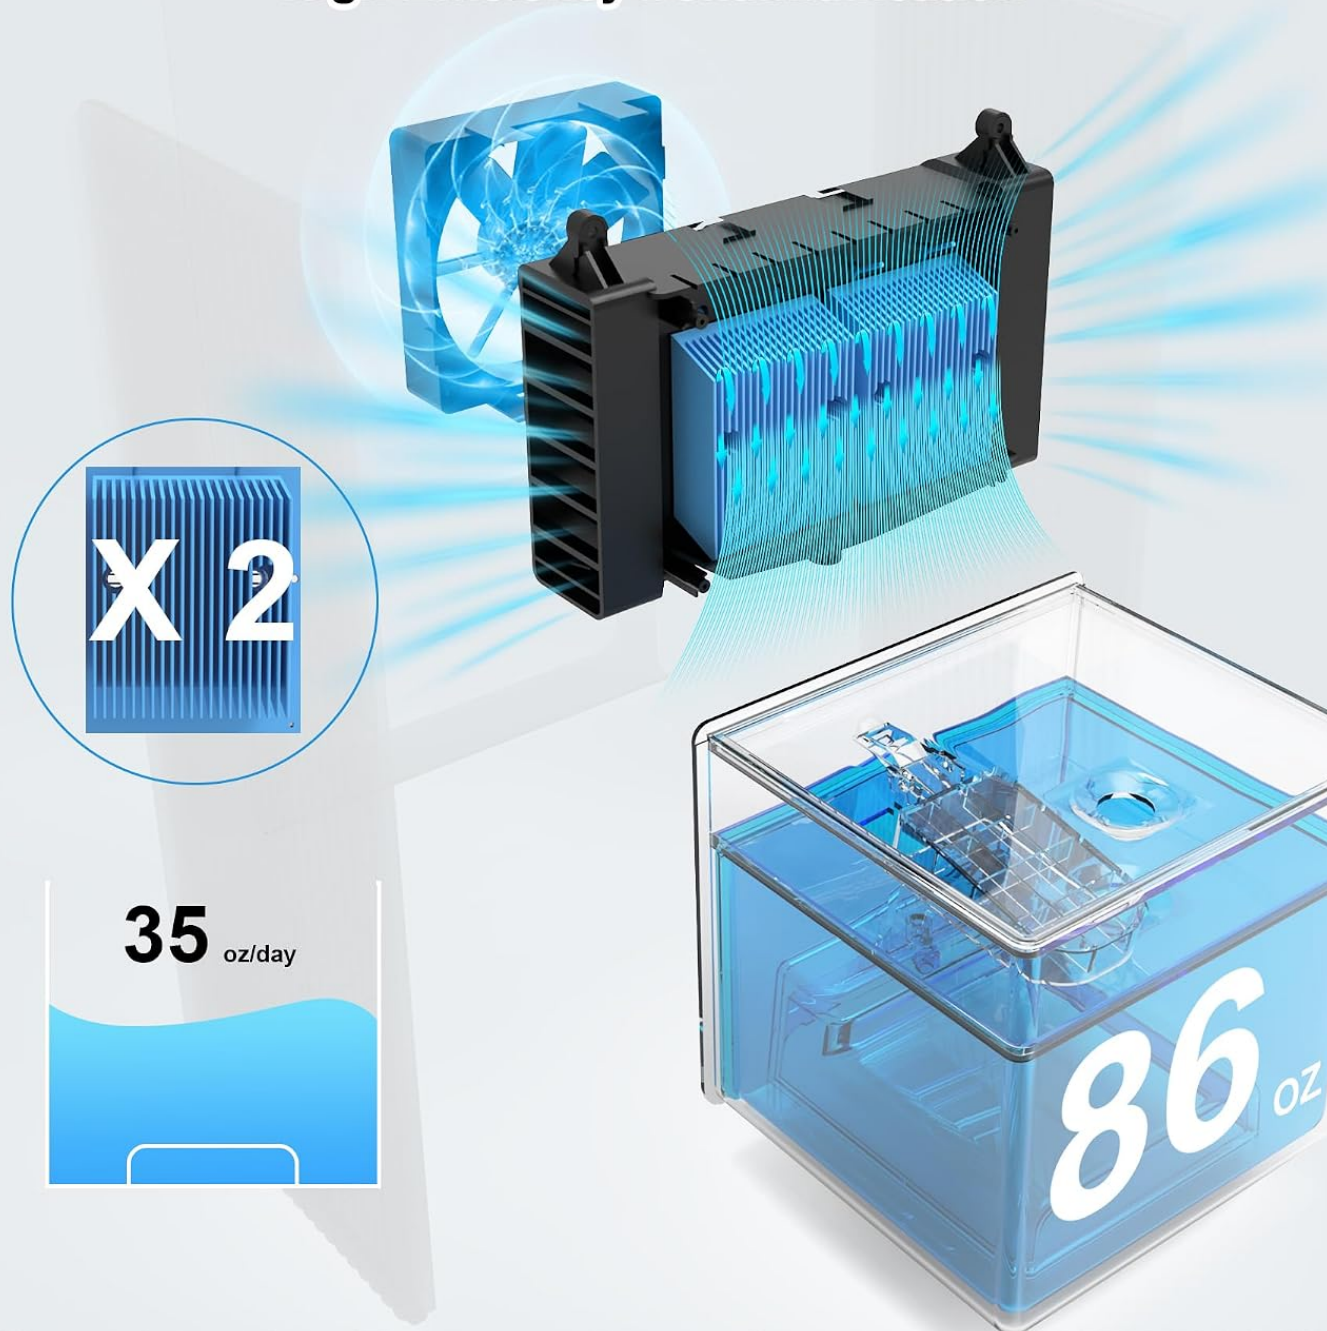

The FRESHDEW dehumidifier features dual semiconductor condensers for efficient moisture removal and user-friendly controls.

Key Components:

- **Control Panel:** Power, Mode, and Light controls.
- **Water Tank:** 85oz (2.5L) transparent tank for collected water.
- **Air Inlet/Outlet:** Located on the sides and back for air circulation.
- **Handle:** Integrated handle for easy portability.

Dual Semiconductors

High-Efficiency Dehumidification

Up to 35oz/day (Tested in the environment of 86°F, 80% RH)

Figure 2: Dual Semiconductor Technology. This diagram illustrates the internal dual semiconductor condensers responsible for efficient moisture extraction.

Say Goodbye to High Humidity Problem

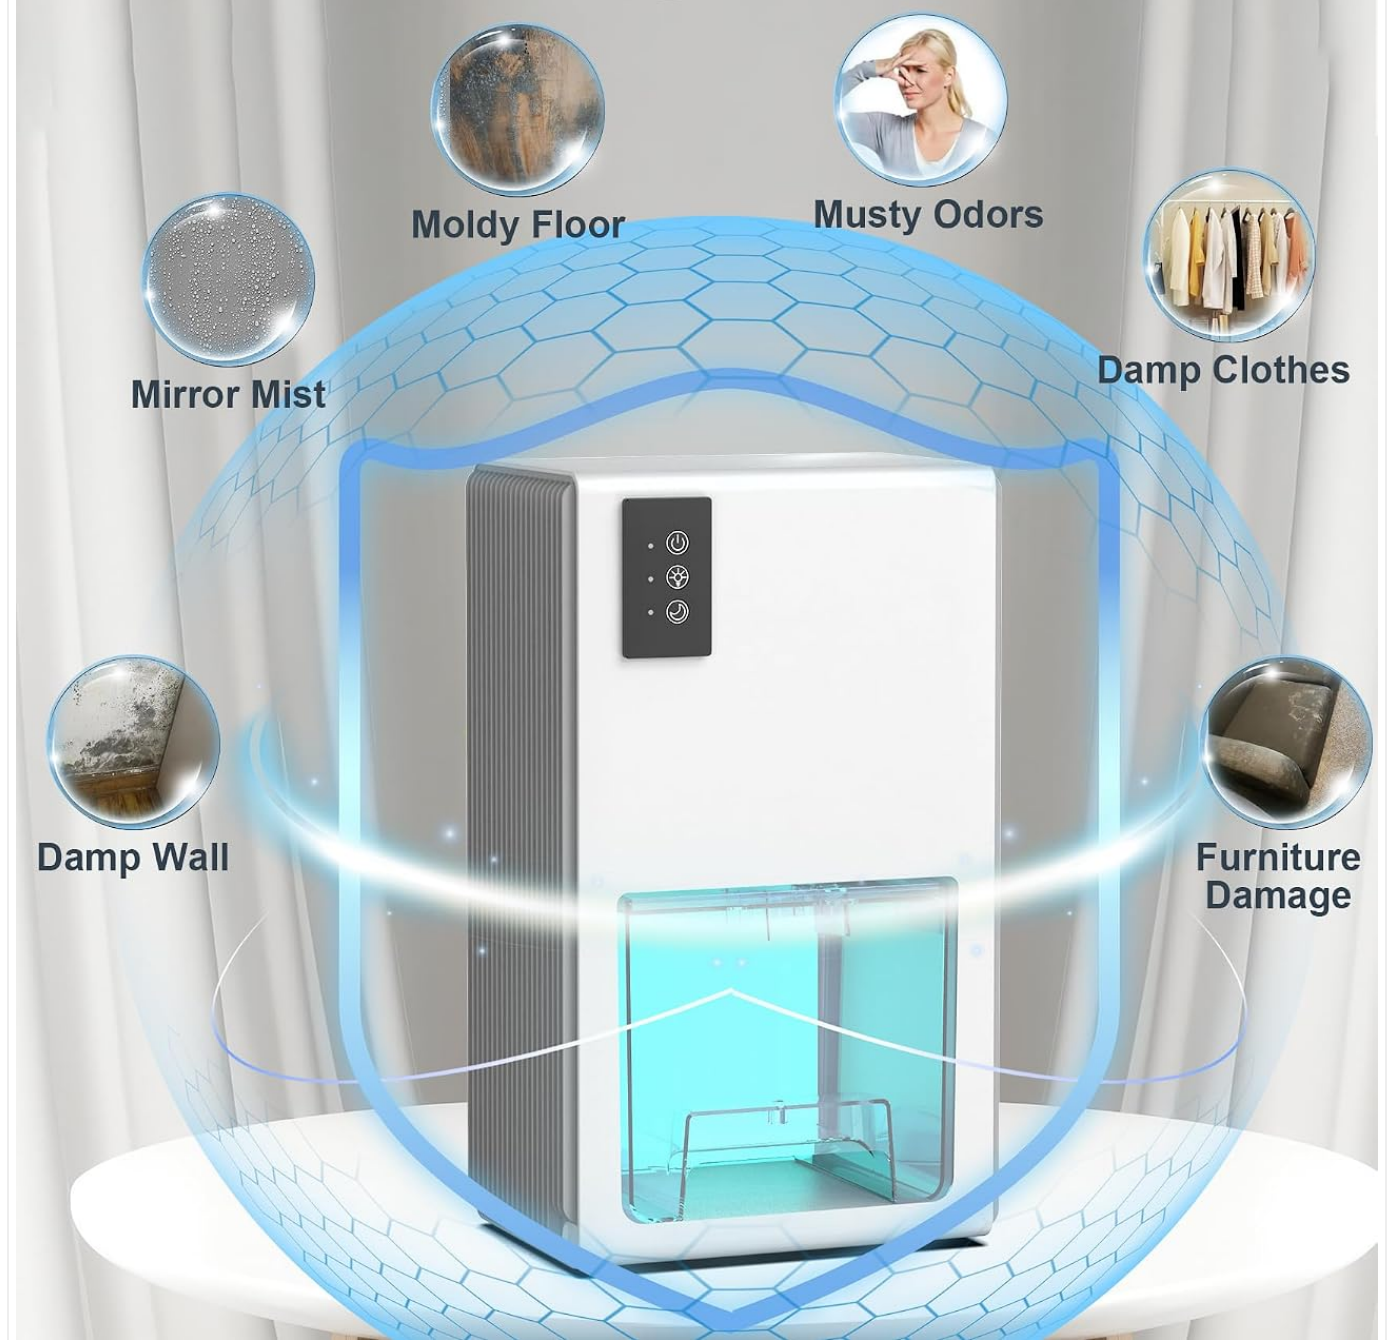

Figure 3: Benefits of Dehumidification. This image highlights common humidity-related problems that the dehumidifier helps to prevent, such as mold, odors, and dampness.

4. SETUP

1. **Unpack:** Carefully remove the dehumidifier from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the unit on a firm, level surface in the desired room. Ensure there is adequate space around the unit for proper airflow (at least 6 inches from walls or furniture).
3. **Power Connection:** Plug the power cord into a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

Power On/Off:

- Press the **Power Button** () on the control panel to turn the unit on or off.

Operating Modes:

The dehumidifier offers two operating modes:

- **Day Mode (Turbo Mode):** Provides rapid dehumidification with a motor speed of 2300 RPM. Operates at 30-40 dB.
- **Sleep Mode:** Reduces fan speed and turns off LED lights for quiet operation (less than 30 dB), ideal for nighttime use.
- Press the **Mode Button** () to switch between Day Mode and Sleep Mode.

2 Working Modes Fulfill Your Daily Needs

Day Mode: Fast

30-40 dB

Sleep-friendly

<30dB

Figure 4: Dual Operating Modes. This image illustrates the two distinct operating modes: Day Mode for faster dehumidification and Sleep Mode for quiet operation.

LED Light Control:

The dehumidifier features 7 adjustable LED light colors to enhance ambiance.

- Press the **Light Button**  to cycle through the 6 static colors, a soothing gradient cycling mode, or to turn the lights off entirely.

7 Colorful Night Lights

Create different atmospheres for your life

Figure 5: 7-Color Mood Lighting. This image demonstrates the dehumidifier's ability to provide ambient lighting with various color options.

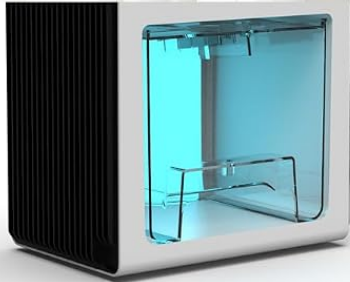

Auto Shut-Off Feature:

The unit is equipped with an automatic shut-off feature for safety and convenience.

- When the 85oz water tank is full, the dehumidifier will automatically turn off, and a red indicator light will flash to alert you.
- The leak-proof sealed lid prevents spills, ensuring worry-free operation.

Over-flow Protection

Auto shut-off when the tank is full

The device is working normal.

Tank full: device auto
shuts off, red light flashes.

Figure 6: Auto Shut-Off Mechanism. This image illustrates the dehumidifier's auto shut-off function when the water tank is full, indicated by a red light.

6. MAINTENANCE

Emptying the Water Tank:

1. Turn off the dehumidifier and unplug it from the power outlet.
2. Carefully pull out the transparent water tank from the front of the unit.
3. Remove the sealed lid and pour out the collected water.
4. Rinse the tank with clean water periodically to prevent mold or mildew buildup.

5. Replace the lid securely and slide the water tank back into the dehumidifier until it clicks into place.

Cleaning the Unit:

- Wipe the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Clean the air inlets and outlets regularly with a soft brush or vacuum cleaner attachment to ensure optimal airflow.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dehumidifier not turning on.	Not plugged in; Power outage; Water tank full.	Ensure unit is securely plugged in; Check power supply; Empty water tank.
No water collected.	Humidity level too low; Room temperature too low; Air inlets/outlets blocked.	Ensure room humidity is above 45% RH; Operate in temperatures above 41°F (5°C); Clear any obstructions.
Unit is noisy.	Operating in Day Mode; Unit not on a stable surface.	Switch to Sleep Mode for quieter operation; Place on a flat, stable surface.
Red indicator light flashing.	Water tank is full.	Empty the water tank.
