Finger Rock M1911

Finger Rock M1911 Pistol Model Building Blocks Toy Set User Manual

Detailed instructions for assembly, operation, and care of your M1911 Pistol Model.

PRODUCT OVERVIEW

The Finger Rock M1911 Pistol Model Building Blocks Toy Set offers a detailed and engaging construction experience. This 333-piece kit allows you to build a realistic 1:1 scale model of the M1911 pistol, complete with a simulated launching mechanism. Designed for enthusiasts aged 6 and up, it provides a hands-on opportunity to understand mechanical principles while creating a display-worthy collectible.

The completed Finger Rock M1911 Pistol Model, showcasing its realistic design and included golden bullets.

The model features a grip, trigger, muzzle, slider, clip, and simulated bullets, allowing for a realistic shooting action once assembled. It is intended for both play and display, making it a versatile addition for collectors and hobbyists.

WHAT'S INCLUDED

Your Finger Rock M1911 Pistol Model Building Blocks Toy Set includes:

- All necessary building block pieces for the M1911 Pistol Model
- Simulated bullets for the launching mechanism
- Instruction Manual

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

This product contains small parts which may pose a choking hazard. Adult supervision is recommended during assembly and play, especially for younger users. Please ensure all pieces are securely connected to prevent detachment.

ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your M1911 Pistol Model. Refer to the included printed instruction manual for detailed diagrams and piece identification.

1. **Unpack and Organize:** Carefully open the packaging and sort the building blocks by color and shape. This will make the assembly process smoother.
2. **Follow the Manual:** Begin assembly by following the step-by-step instructions provided in the physical instruction manual. Pay close attention to the diagrams for correct piece placement and orientation.
3. **Assemble the Core Structure:** Start with the main body and handle of the pistol. Ensure all connections are firm and secure.
4. **Install the Clip:** Once the handle is partially assembled, integrate the clip mechanism. Ensure it can be inserted and removed smoothly.

Visual guide for installing the clip, loading bullets, and the shooting action. The model is designed for a simulated appearance.

5. **Integrate the Trigger and Launch Mechanism:** Carefully assemble the trigger and the internal components responsible for the simulated shooting function. Test the trigger action periodically to ensure smooth movement.
6. **Attach the Muzzle and Slider:** Complete the front section of the pistol, including the muzzle and the movable slider.
7. **Load Bullets:** Once the model is fully assembled, you can load the simulated golden bullets into the clip or directly into the barrel, depending on the design.

Key components of the M1911 model, including the aiming point, muzzle, trigger, handle, and launch function.

OPERATING YOUR M1911 MODEL

The M1911 Pistol Model is designed to simulate the launching process of a real firearm, providing an interactive experience.

- **Loading:** Insert the simulated golden bullets into the designated loading area, typically the clip or directly into the barrel as per the assembly.
- **Firing:** Pull back the slider (if applicable to your model) and then press the trigger to activate the

launching mechanism. The simulated bullet will be propelled forward.

- **Safety:** Always aim the model in a safe direction, away from people, animals, or fragile objects. While the bullets are simulated, responsible play is encouraged.

CARE AND MAINTENANCE

To ensure the longevity and proper function of your Finger Rock M1911 Pistol Model, follow these simple care guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe down the model. Avoid using harsh chemicals or abrasive materials, which can damage the plastic.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. This helps prevent warping or discoloration of the plastic pieces.
- **Handling:** Handle the model with care. While designed for play, excessive force or dropping can cause pieces to detach or break.
- **Check Connections:** Periodically inspect the model for any loose connections or detached

pieces, especially after extended play. Reattach any loose parts firmly.

TROUBLESHOOTING

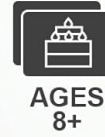

If you encounter any issues with your M1911 Pistol Model, refer to the table below for common problems and solutions:

Problem	Solution
Pieces do not interlock or fall apart easily.	Ensure you are using the correct pieces as indicated in the instruction manual. Apply firm, even pressure when connecting pieces. Some connections may require more force than others. If a specific section consistently falls apart, double-check the assembly steps for that section.
Shooting mechanism gets stuck or does not launch bullets.	Verify that the simulated bullets are correctly loaded and not obstructed. Inspect the internal trigger and launching components for any misaligned or loose pieces. Ensure the slider (if present) moves freely and is fully engaged before pulling the trigger.
Missing pieces upon opening.	Carefully check all packaging materials. If pieces are genuinely missing, please contact customer support as detailed in the Support section.

PRODUCT SPECIFICATIONS

Feature	Detail
Model	M1911
Part Count	333 pcs
Product Dimensions	5.5 x 2 x 9.1 inches
Item Weight	6.4 ounces
Recommended Age	6 years and up
Brand	Finger Rock
