Aoxun IS410BR03A-HJ

Aoxun 12x10 FT Metal Outdoor Storage Shed User Manual

Model: IS410BR03A-HJ
Brand: Aoxun

INTRODUCTION

Thank you for choosing the Aoxun 12x10 FT Metal Outdoor Storage Shed. This durable, waterproof, and steel utility shed is designed to provide ample and secure storage for your garden tools, outdoor equipment, and other belongings. Its robust construction ensures longevity and resilience against various weather conditions. Please read this manual thoroughly before assembly and use to ensure proper installation and safe operation.

SAFETY INFORMATION

Important Safety Precautions:

- This product requires assembly by at least two people for safety and ease of installation.
- Always follow the provided step-by-step instructions carefully.
- Use appropriate safety measures, such as wearing the provided gloves, when handling components to prevent injury.
- Ensure the shed is properly installed and securely anchored to the ground to prevent structural issues, especially in heavy snow or windy conditions.
- Keep children and pets away from the assembly area.
- Do not attempt to assemble the shed in adverse weather conditions.

SETUP AND ASSEMBLY

The Aoxun 12x10 FT Shed is designed for straightforward assembly, though it requires patience and attention to detail. All parts are labeled with part numbers to assist in the process. Two pairs of gloves are included to facilitate your installation.

Preparation:

- Choose a level and stable site for your shed. A solid foundation is crucial for stability.
- Unpack all components and verify against the parts list in your manual.
- Familiarize yourself with the step-by-step manual before beginning. Understanding the parts and aligning them properly is

key to successful assembly.

Assembly Steps:

1. Begin by assembling the base frame. Ensure all corners are square and level.
2. Attach the wall panels according to the numbered labels. Pay close attention to the orientation of each panel.
3. Install the roof support beams and then the roof panels. The sloping roof design aids in rainwater runoff.
4. Mount the doors and install the locking mechanism.
5. Securely anchor the shed to the ground. This is critical for stability, especially in areas prone to high winds. Consider purchasing additional ground stakes if needed.
6. For enhanced waterproofing, apply a clear silicone sealant to any exposed screw holes or seams, particularly on the roof and wall connections.

OPERATING YOUR SHED

The Aoxun storage shed is designed for versatile use and easy access.

Access and Security:

- The shed features lockable doors, providing convenient access to your stored items while enhancing overall security.
- The sliding doors allow for easy entry and exit, even when space is limited.

Ventilation:

- Specially designed air vents ensure optimal ventilation within the shed, helping to prevent moisture buildup and maintain air circulation.

Storage Capacity:

- With an internal capacity of up to 560 cubic feet, this 12x10 FT shed offers ample space for a wide range of outdoor storage requirements.
- It can accommodate items such as snow blowers, shovels, outdoor chairs, bicycles, and toy cars.
- To optimize organization, consider purchasing storage racks for items like shovels, umbrellas, and other tools.

MAINTENANCE

To ensure the longevity and optimal performance of your Aoxun storage shed, regular maintenance is recommended.

- **Cleaning:** Periodically clean the exterior of the shed with mild soap and water to remove dirt, dust, and debris. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish.
- **Inspection:** Regularly inspect the shed for any signs of wear, damage, or loose fasteners. Check the roof, walls, and doors for any leaks or structural issues.
- **Fasteners:** Tighten any loose screws or bolts to maintain the shed's structural integrity.
- **Ventilation:** Ensure the air vents remain clear of obstructions to allow for proper air circulation.
- **Snow and Ice:** In areas with heavy snowfall, clear accumulated snow from the roof to prevent excessive weight and potential damage.

TROUBLESHOOTING

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
Holes do not align during assembly.	Panels or frame components are not perfectly aligned or are slightly warped.	Exercise patience. Sometimes, a slight pull or flex on the metal components is needed to align the holes. Double-check the instructions for correct part orientation.
Water leakage inside the shed.	Improper sealing during assembly, gaps around screws or seams.	Apply a clear silicone sealant to all roof seams, wall panel joints, and around any exposed screw heads. Ensure the shed is level and properly anchored.
Shed feels unstable or flimsy.	Insufficient anchoring or improper assembly of the base frame.	Ensure the shed is securely anchored to a solid, level foundation. Verify all fasteners are tightened according to the manual.

If you encounter any issues not listed here or require further assistance, please contact our customer service team.

SPECIFICATIONS

Feature	Detail
Brand	Aoxun
Model Number	IS410BR03A-HJ
Color	Brown
Material	Alloy Steel
Product Dimensions (D x W x H)	113"D x 138"W x 77.5"H
Item Weight	109 Pounds
Base Material	Alloy Steel
Top Material Type	Galvanized Steel
Water Resistance Level	Waterproof
Door Style	Sliding Doors, Folding Doors
Assembly Required	Yes
