# MAINTENANCE AND CARE

## Cleaning Instructions

Regular cleaning will help maintain the appearance and longevity of your vanity.

- **Vanity Base (MDF + Rubber Wood):** Wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can damage the matte finish. Dry immediately with a clean cloth.
- **Countertop (Granite):** Clean with a pH-neutral cleaner specifically designed for natural stone. Avoid acidic cleaners (like vinegar or lemon juice) or abrasive scrubbers, as these can etch or scratch the granite surface and make it prone to staining. Wipe spills immediately.
- **Sink (Ceramic):** Clean with a mild, non-abrasive bathroom cleaner and a soft sponge or cloth. Rinse thoroughly after cleaning.
- **Hardware:** Wipe with a soft, dry cloth. Avoid chemical cleaners that may tarnish the finish.

## General Care

To prevent damage and ensure durability:

- Avoid placing extremely hot items directly on the countertop without protection.
- Do not use the vanity as a step stool or apply excessive weight to the drawers or cabinet door.
- Periodically check and tighten any loose hardware.
