ANJANK AC198MD-Black

ANJANK 5-in-1 Wireless Charging Station User Manual

Model: AC198MD-Black

1. INTRODUCTION

Thank you for purchasing the ANJANK 5-in-1 Wireless Charging Station. This multifunctional device combines a digital alarm clock, a 7-color night light, and a wireless charging dock for your iPhone, Apple Watch, and AirPods. Designed for convenience and to declutter your space, this station provides a safe and efficient charging solution for multiple Apple devices simultaneously.

2. PRODUCT OVERVIEW

2.1 Components

- Main Unit (Alarm Clock & Night Light)
- Magnetic Wireless Charging Pad (for iPhone)
- Apple Watch Charging Stand (built-in magnetic charger)
- AirPods Charging Port (Lightning & USB-C compatible)
- Power Adapter

2.2 Key Features

- **5-in-1 Functionality:** Combines alarm clock, 7-color night light, iPhone wireless charger, Apple Watch charger, and AirPods charger.
- **Wide Compatibility:** Supports iPhone 8-16 series (MagSafe compatible for newer models), Apple Watch Ultra/Ultra 2/10/9/8/7/6/5/4/3/2/SE, and AirPods 1/2/3/4/Pro/Pro 2 (Lightning and Type-C).
- **Magnetic Charging:** Strong magnetic hold for precise alignment and stable charging of iPhones.
- **Adjustable Night Light:** 7 selectable colors (Red, Orange, Yellow, Green, Cyan, Blue, Purple) with 10-100% brightness adjustment.
- **Digital Alarm Clock:** Dimmable LED display (0-100%), 3 adjustable volume levels, 12/24 HR & AM/PM modes, and 9-minute snooze function.
- **Safety Features:** 18W fast charging with backside cooling holes, over-current protection, over-voltage protection, overheating protection, and foreign object detection.

3. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Connect Power:** Insert the provided power adapter into the DC input port on the back of the charging station. Plug the other end into a standard wall outlet.
3. **Initial Power On:** The digital display will light up, and the clock will show a default time.
4. **Set Time:** Use the time setting buttons (usually located on the top or back) to adjust the hour and minute. Refer to the "Operating Instructions" section for detailed clock setting.
5. **Position Devices:**
 - **iPhone:** Place your MagSafe-compatible iPhone directly onto the magnetic charging pad. Ensure it aligns correctly for optimal charging.
 - **Apple Watch:** Place your Apple Watch onto the integrated magnetic charging stand.
 - **AirPods:** For Lightning AirPods, plug them into the Lightning port. For USB-C AirPods, pull out the retractable USB-C cable from the side and plug them in.

4. OPERATING INSTRUCTIONS

4.1 Clock and Alarm Settings

- **Set Time:** Locate the time setting buttons (often labeled with clock icons or +/-) on the top or back. Press and hold the "Set" button to enter time setting mode. Use the "+" and "-" buttons to adjust hours and minutes. Press "Set" again to confirm.
- **12/24 Hour Format:** Toggle between 12-hour and 24-hour formats using the dedicated button or by cycling through time settings.
- **Set Alarm:** Press and hold the "Alarm" button. Use "+" and "-" to set the desired alarm time. Press "Alarm" again to confirm.
- **Activate/Deactivate Alarm:** Press the "Alarm" button briefly to turn the alarm on or off. An alarm icon will appear/disappear on the display.
- **Snooze Function:** When the alarm sounds, press the "Light/Snooze" button to activate snooze for 9 minutes.
- **Alarm Volume:** Adjust the alarm volume using the dedicated volume control buttons or through the alarm setting

menu. There are 3 adjustable volume levels.

- **Display Brightness:** The LED display brightness is dial-controlled and adjustable from 0-100%. Turn the dial on the back or side to adjust. It can also be turned off completely.

4.3 Charging Devices

- **iPhone:** Place your iPhone on the magnetic charging pad. The magnetic alignment ensures proper positioning. Charging will begin automatically. Ensure your phone case is less than 3mm thick for optimal performance.
- **Apple Watch:** Place your Apple Watch on the dedicated charging stand. The built-in magnetic charger will initiate charging.
- **AirPods:**
 - For AirPods with a Lightning charging case, insert the case into the Lightning port.
 - For AirPods with a USB-C charging case, pull out the retractable USB-C cable from the side of the station and plug it into your AirPods case.
- **Charging Indicator:** A small LED indicator on the base of the station may illuminate to confirm active charging.

5. MAINTENANCE

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe the surface of the charging station. Do not use abrasive cleaners or solvents.
- **Dust:** Regularly remove dust from the charging surfaces and ventilation holes to ensure optimal performance and prevent overheating.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging wirelessly.	Not properly aligned. Phone case too thick (>3mm). Foreign object on charging pad. Power adapter not connected or faulty. Device not compatible with wireless charging.	Re-align device on the charging pad. Remove phone case or use a thinner one. Remove any metal objects or cards. Check power connection; try a different outlet. Verify device supports wireless charging.
Alarm clock display is too bright/dim.	Brightness setting needs adjustment.	Adjust the display brightness dial on the unit.
Night light not working or color not changing.	Light is off. Controls not pressed correctly.	Press the "Light/Snooze" button to turn on. Press "Light/Snooze" repeatedly to cycle colors.
Alarm not sounding.	Alarm is deactivated. Volume is too low.	Ensure alarm is activated (alarm icon visible). Increase alarm volume.
