Key features of your Apple iPhone 16e Silicone Case:

- Designed specifically by Apple to complement and protect the iPhone 16e.
- Constructed with 55 percent recycled silicone material, offering a silky, soft-touch exterior.
- Features a soft microfiber lining on the interior for enhanced protection against scratches.
- Undergoes rigorous testing during design and manufacturing to ensure quality and durability.
- Provides protection against scratches and drops while maintaining an aesthetic appearance.

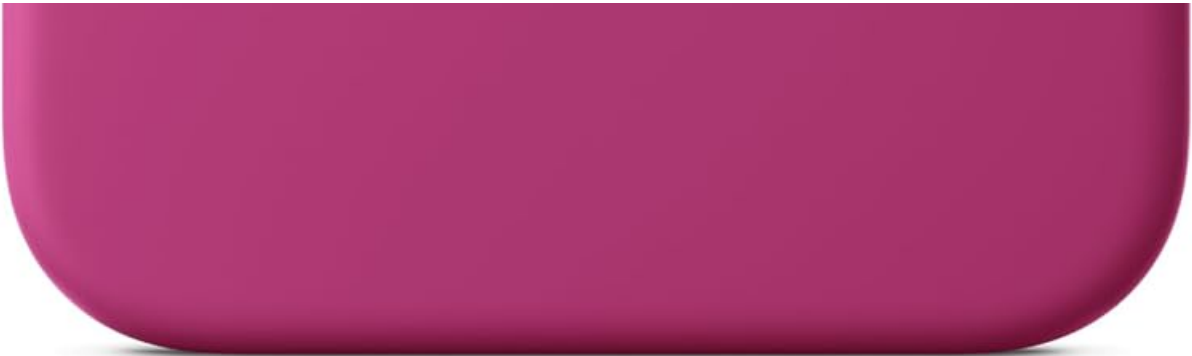

SETUP AND INSTALLATION

Follow these steps to correctly install the silicone case on your iPhone 16e.

1. **Prepare your iPhone:** Ensure your iPhone 16e is clean and free of dust or debris.
2. **Align the case:** Hold the case with the camera cutout facing the back of your iPhone. Gently align the top edge of your iPhone with the top edge of the case.
3. **Insert the iPhone:** Carefully push your iPhone into the case, starting from the top. Ensure all corners and edges of the iPhone are securely seated within the case.
4. **Check fit:** Verify that all buttons (volume, side button) are properly aligned and functional, and that

the camera and charging port cutouts are unobstructed.

OPERATING INSTRUCTIONS

The Apple iPhone 16e Silicone Case is designed for continuous use to protect your device.

- **Daily Protection:** The case provides a protective layer against everyday scratches, minor bumps, and accidental drops.
- **Button Functionality:** The case is designed to allow full access and tactile feedback for all iPhone buttons.
- **Wireless Charging:** The silicone case is compatible with wireless charging. You do not need to remove the case to charge your iPhone wirelessly.
- **Port Access:** Precision cutouts ensure unobstructed access to the charging port and speakers.

CARE AND MAINTENANCE

Proper care will help maintain the appearance and protective qualities of your silicone case.

- **Cleaning:** To clean the case, gently wipe it with a soft, damp cloth. You may use mild soap if necessary, but ensure to rinse thoroughly and dry completely.
- **Avoid Harsh Chemicals:** Do not use harsh cleaning agents, abrasive materials, or solvents, as these can damage the silicone material and its finish.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to prevent material degradation.

TROUBLESHOOTING

If you encounter any issues with your Apple iPhone 16e Silicone Case, refer to the following common solutions.

Problem	Solution
---------	----------

Problem	Solution
Case does not fit iPhone 16e.	Ensure you have the correct model of iPhone (iPhone 16e). The case is specifically designed for this model. Double-check the product packaging and your iPhone model.
Buttons are stiff or unresponsive.	Remove the case and re-install it, ensuring proper alignment of the buttons with the case's button covers. Sometimes a slight misalignment can cause stiffness.
Case appears discolored or dirty.	Clean the case as described in the "Care and Maintenance" section using a soft, damp cloth and mild soap. Silicone can sometimes pick up dyes from clothing over time.
Case feels slippery.	The silicone material has a soft-touch finish. If it feels excessively slippery, ensure it is clean and dry. Over time, the texture may adjust with use.
