### 3.4 Battery and Charging

The iPhone 16e offers extended battery life. To charge, connect the USB-C Charge Cable to the device and a compatible power adapter. The device also supports wireless charging with Qi-compatible chargers.

## 4. MAINTENANCE AND CARE

---

### 4.1 Cleaning Your iPhone

To clean your iPhone, unplug all cables and turn it off. Use a soft, lint-free cloth. Avoid abrasive materials, aerosols, solvents, or ammonia. For the screen, a slightly damp cloth is acceptable. Do not spray cleaners directly onto the device.

### 4.2 Water and Dust Resistance

The iPhone 16e is rated IP68 under IEC standard 60529, meaning it can withstand a maximum depth of 6 meters for up to

30 minutes. This resistance is not permanent and may decrease over time with normal wear. Do not intentionally submerge your iPhone. Liquid damage is not covered under warranty.

### 4.3 Battery Health

To optimize battery lifespan, avoid extreme temperatures. If storing the device for an extended period, charge it to about 50% every six months. You can monitor battery health in Settings > Battery > Battery Health & Charging.

## 5. TROUBLESHOOTING

### 5.1 Common Issues and Solutions

- **Device Not Responding:** Force restart your iPhone. Press and quickly release the Volume Up button, then the Volume Down button, then press and hold the Side button until you see the Apple logo.
- **Battery Draining Quickly:** Check battery usage in Settings > Battery to identify apps consuming significant power. Reduce screen brightness, disable background app refresh for non-essential apps, and ensure software is up to date.
- **Wi-Fi/Cellular Connectivity Issues:** Try toggling Airplane Mode on and off. Reset network settings (Settings > General > Transfer or Reset iPhone > Reset > Reset Network Settings).
- **Camera Not Working:** Close and reopen the Camera app. Restart your iPhone. Ensure there are no physical obstructions on the camera lenses.

### 5.2 Software Updates

Keep your iPhone's software updated to the latest iOS version. Updates often include bug fixes, performance improvements, and new features. Go to Settings > General > Software Update to check for and install updates.
