5. OPERATING INSTRUCTIONS

5.1. Using the Charging Station

The integrated charging station provides convenient power access for your electronic devices.

- Ensure the unit's power cord is securely plugged into a standard 125V AC wall outlet.
- To charge devices, plug your AC adapters into the 2 AC sockets or your USB cables into the 2 USB ports located on the charging station.
- The charging station is UL/ETL certified for safety. Avoid overloading the outlets.

5.2. Adjusting Shelves

The open shelves on the top tier can be adjusted to different heights or removed to suit your storage needs.

- Carefully remove any items from the shelf you wish to adjust.
- Follow the instructions in the assembly guide for detaching and reattaching the shelves at desired heights or for complete removal.

5.3. Using Fabric Drawers

The fabric drawers are designed for easy access and organization.

- Utilize the curved handles for smooth opening and closing of drawers.
- For small items, use the provided honeycomb drawer divider in one of the drawers to keep contents organized and prevent loss.
- Avoid overloading drawers to maintain their shape and ensure smooth operation.

6. MAINTENANCE

To ensure the longevity and appearance of your WLIVE Storage Organizer Unit, follow these simple maintenance guidelines:

- **Cleaning the Wood Top:** The P2 grade artificial wood top is scratch-resistant and easy to clean. Wipe spills immediately with a soft, dry cloth. For general cleaning, use a damp cloth and mild detergent, then dry thoroughly. Avoid abrasive cleaners.
- **Cleaning Fabric Drawers:** The fabric drawers are made from breathable non-woven fabric. Spot clean with a damp cloth and mild soap if necessary. Do not machine wash or tumble dry. Allow to air dry completely before reinserting into the unit.
- **Frame Maintenance:** Periodically check all screws and connections to ensure they are tight. Retighten if necessary to maintain stability.
- **Adjustable Feet:** Ensure the adjustable feet are properly set to keep the unit level and prevent wobbling.

7. TROUBLESHOOTING

If you encounter any issues with your WLIVE Storage Organizer Unit, please refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Unit is wobbly or unstable.	Uneven floor; loose connections; anti-tilt device not installed.	Adjust the protective feet at the base until the unit is stable. Check and tighten all screws. Ensure the anti-tilt device is properly installed and secured to the wall.
Drawers do not slide smoothly.	Drawer overloaded; fabric caught; misaligned.	Reduce the weight in the drawer. Check for any fabric or items obstructing the slide track. Ensure the drawer is inserted correctly and not misaligned.
Charging station not working.	Power cord not plugged in; power outage; device issue.	Verify the unit's power cord is securely plugged into a live wall outlet. Check your home's circuit breaker. Test with a different device to rule out device-specific issues.
Fabric drawers losing shape.	Overloading with heavy items.	Avoid placing excessively heavy items in the fabric drawers. Distribute weight evenly.

If the problem persists after attempting these solutions, please contact WLIVE customer support for further assistance.
