---

## SAFETY INFORMATION

- Always assemble the bed frame on a soft, clean surface to prevent damage to the product or your floor.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten hardware to maintain stability and prevent noise.
- Do not exceed the recommended weight capacity of 600 lbs.
- Keep small parts and packaging materials away from children during assembly to prevent choking hazards.
- Avoid standing or jumping on the bed frame.
- If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.

---

## ASSEMBLY INSTRUCTIONS

Follow these step-by-step instructions carefully for proper and secure assembly. It is recommended to have two people for assembly.

1. **Unpack and Identify:** Lay out all parts on a soft, clean surface. Compare them with the package contents list and diagrams to ensure everything is present and undamaged.
2. **Attach Headboard to Side Rails:** Connect the side rails to the upholstered headboard using the provided bolts and washers. Do not fully tighten yet.
3. **Attach Footboard Rail:** Connect the other ends of the side rails to the footboard rail using the provided hardware. Ensure all connections are aligned.
4. **Install Center Support:** Attach the center support beam(s) to the designated points on the frame. Secure any additional support legs to the center beam and frame.
5. **Place Wooden Slats:** Unroll or place the wooden slats across the frame. The slats feature a convenient velcro design to keep them in place and prevent movement. Ensure each slat is evenly spaced and securely seated.
6. **Final Tightening:** Once all parts are assembled and aligned, go back and securely tighten all bolts and

screws using the provided Allen wrench. Do not overtighten.

**Sound Sleep:**

## OPERATING INSTRUCTIONS

- **Mattress Placement:** This platform bed frame is designed to support your mattress directly on the wooden slats. A box spring is not required.
- **Mattress Compatibility:** Ensure your full-size mattress fits within the frame dimensions (76.77"L x 55.5"W). The frame is suitable for mattresses with a height of 6-12 inches.
- **Weight Distribution:** Distribute weight evenly across the bed surface to maintain stability and prolong the life of the frame.

## MAINTENANCE

- **Regular Inspection:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they remain tight. Re-tighten as necessary to prevent loosening and potential noise.

- **Cleaning the Headboard:** For the leather upholstered headboard, wipe with a soft, damp cloth. For tougher spots, use a mild, non-abrasive cleaner specifically designed for faux leather, then wipe dry. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Frame:** Wipe wooden and metal parts of the frame with a dry or slightly damp cloth. Avoid excessive moisture.
- **Under-Bed Area:** The 5.9-inch under-bed clearance allows for easy cleaning with a robot vacuum or by hand. Keep this area clear to prevent dust accumulation.

## TROUBLESHOOTING

- **Squeaking or Noise:**
  - Check all bolts and screws. Loosened hardware is a common cause of noise. Tighten any loose connections.
  - Ensure all wooden slats are properly seated and the velcro strips are securely attached to the frame.
  - Verify that the center support legs are firmly touching the floor and are not wobbly.

- **Instability or Wobbling:**

- Re-check all assembly steps to ensure correct installation of all parts, especially the side rails and support legs.
- Ensure the bed frame is placed on a level surface.

- **Parts Not Fitting:**

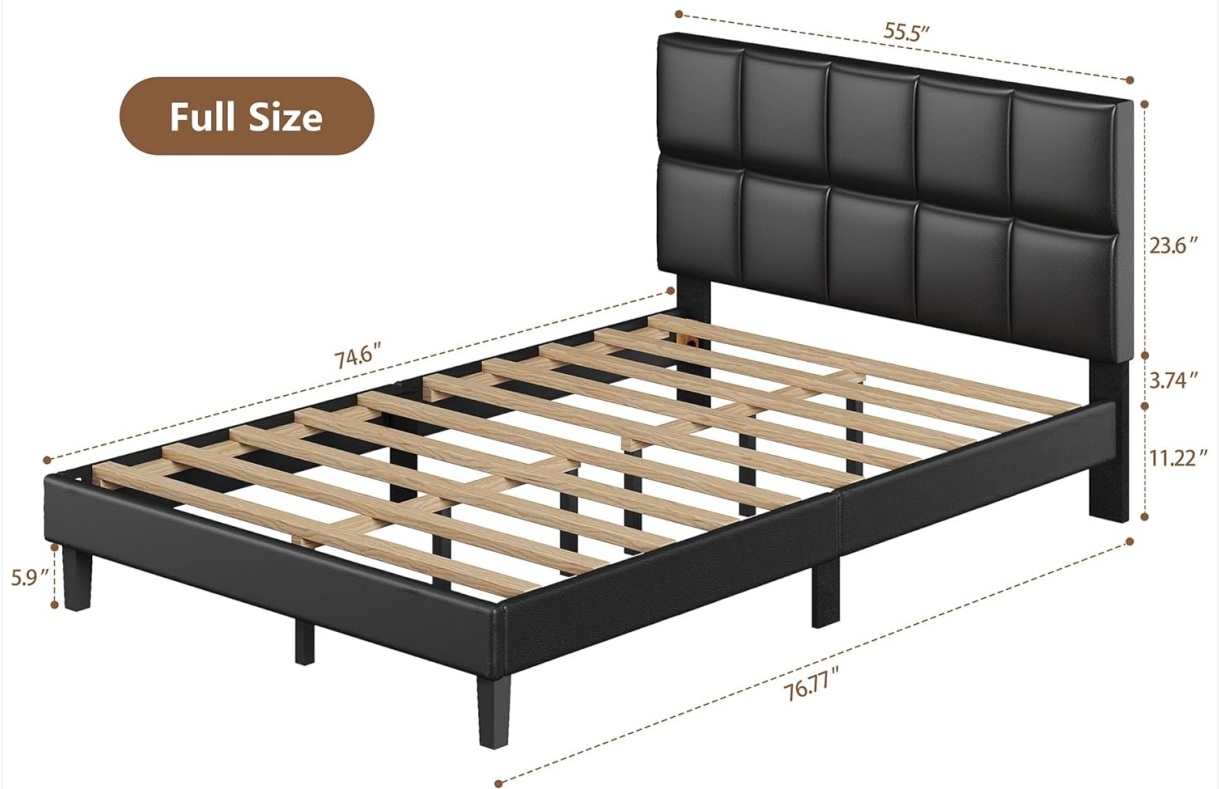

- Double-check that you are using the correct hardware for each step as indicated in the assembly diagrams.
- Ensure parts are oriented correctly. Sometimes a part may appear similar but has a specific top/bottom or left/right orientation.
