

Aoxun G37007-0303BR

Aoxun 3x2 FT Outdoor Storage Shed Instruction Manual

Model: G37007-0303BR

1. PRODUCT OVERVIEW

This manual provides essential information for the assembly, operation, and maintenance of your Aoxun 3x2 FT Outdoor Storage Shed. Designed for compact spaces, this metal shed offers a practical solution for organizing outdoor items.

Key Features:

- **Compact Design:** Ideal for balconies, patios, and narrow yards.
- **Weatherproof Construction:** Durable metal panels with a sloped roof for efficient water drainage.
- **Secure Storage:** Features a lockable single door to protect contents.
- **Easy Assembly:** Includes all necessary hardware and detailed instructions.

2. SAFETY INFORMATION

Please read all safety warnings and instructions carefully before assembly and use. Failure to follow these instructions may result in injury or property damage.

- Always wear appropriate personal protective equipment, including gloves, during assembly to prevent cuts from sharp edges.
- Ensure the shed is assembled on a level, stable surface. A proper foundation is crucial for stability.
- Do not assemble in high winds or adverse weather conditions.
- Keep children and pets away from the assembly area.
- Do not store flammable liquids or hazardous materials inside the shed.
- Regularly check all fasteners to ensure they remain tight.

3. SETUP AND ASSEMBLY

Assembly typically requires two people and can take several hours. Follow the included detailed assembly guide and use the provided hardware kit. Complimentary work gloves are included for hand protection.

Preparation:

1. **Unpack Components:** Carefully unbox all parts and verify against the parts list in your assembly guide.
2. **Site Selection:** Choose a level, firm area for installation. The shed does not include a floor, so a prepared base (e.g., concrete slab, wooden platform) is recommended.
3. **Tool Requirements:** You will need a screwdriver or an electric drill for faster assembly.

Assembly Steps:

Refer to the illustrated instructions provided in your product packaging for step-by-step guidance. Pay close attention to panel orientation and screw placement.

- Begin by assembling the base frame, ensuring it is square and level.
- Attach the side and back panels, securing them with the designated screws.
- Install the roof structure, ensuring the sloped design is correctly oriented for water runoff.
- Mount the single door, ensuring smooth operation and proper alignment for the lock mechanism.
- After assembly, check all connections for tightness and stability.

SECURE & STURDY CONSTRUCTION

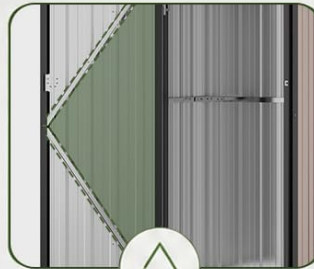

Corner Protection

Reinforced corner caps help protect against impacts and the elements.

Lockable Door

Secure latch design helps keep your tools and belongings safe.

Triangular Reinforcement

Diagonal braces reinforce the structure for greater stability.

Enhanced Stability

Sturdy base frame provides a solid foundation for long-term use.

4. OPERATING INSTRUCTIONS

Using your Aoxun storage shed is straightforward. Follow these guidelines for optimal use.

Accessing the Shed:

- The shed features a single door with a latch mechanism. To open, disengage the latch and pull the door outwards.
- To close, push the door firmly shut and engage the latch. For added security, a padlock (not included) can be used with the integrated lockable design.

Storage Capacity:

The compact vertical design is suitable for various items. Organize your gardening tools, cleaning supplies, or other outdoor equipment efficiently.

5. MAINTENANCE

Regular maintenance will extend the lifespan and ensure the continued performance of your storage shed.

- **Cleaning:** Clean the exterior panels periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Fastener Check:** Annually, inspect all screws and bolts. Tighten any loose fasteners to maintain structural integrity.
- **Weatherproofing:** While designed to be weatherproof, consider applying silicone sealant to any small gaps or seams for enhanced protection against water intrusion, especially in areas prone to heavy rain.
- **Door Mechanism:** Lubricate the door hinges and latch periodically to ensure smooth operation.

Built to Stand Up to Rain, Sun & All Seasons

Sloped Roof, Rain Runs Off Instantly

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your storage shed.

Issue: Holes do not align during assembly.

- **Solution:** Ensure all panels are correctly oriented according to the instruction manual. Sometimes, slight adjustments to the frame or panels are needed before fully tightening screws. Do not overtighten screws until all components are loosely fitted.

Issue: Door does not close properly or flies open in wind.

- **Solution:** Verify that the shed is on a level surface. Uneven ground can cause the frame to twist, affecting door alignment. Adjust the door hinges if necessary. For windy conditions, ensure the latch is fully engaged and consider

adding an additional padlock for security.

Issue: Water leakage inside the shed.

- **Solution:** Inspect the roof and panel seams for any gaps. Ensure all screws are tight. Apply a weather-resistant silicone sealant to any areas where water might penetrate. Confirm the sloped roof is clear of debris that could impede water runoff.

7. SPECIFICATIONS

Attribute	Detail
Brand	Aoxun
Model Number	G37007-0303BR
Color	Brown
Material	Metal (Alloy Steel)
Product Dimensions (D x W x H)	30"D x 22"W x 60"H
Item Weight	60 pounds
Water Resistance Level	Waterproof

8. WARRANTY AND SUPPORT

For warranty information or customer support, please refer to the documentation included with your purchase or contact Aoxun customer service directly. Contact details are typically found on the product packaging or the manufacturer's official website.
