SETUP AND INSTALLATION

1. Attaching Your Device

The AM-AC03 head mount supports both action cameras and smartphones. Use the appropriate adapter for your device.

- **For Action Cameras:** Attach your action camera directly to the magnetic quick-release base using the provided T-shaped screw.
- **For Smartphones:** Insert your smartphone into the phone clamp. Then, attach the phone clamp to the magnetic quick-release base using the mini adapter and T-shaped screw. The phone clamp also features a 1/4-inch threaded hole and a cold shoe mount for additional accessories.

Wide Compatibility

Comes with a phone clip (width: 6cm- 9cm), which is compatible with most action cameras and mobile phones.

Image: The head mount shown with both an action camera and a smartphone attached, highlighting its wide compatibility. Various camera and phone models are depicted as examples of compatible devices.

Not Just for Action Cameras

Also Compatible with Smartphones

Image: A close-up of the phone clamp accessory, detailing its 1/4-inch threaded hole for mounting on the head strap and a cold shoe mount for attaching additional accessories like lights or microphones.

2. Adjusting the Head Strap

The head strap is designed for comfort and stability. Adjust the elastic strap using the buckles to fit your head circumference securely. Ensure the strap is snug but not uncomfortably tight.

Comfortable to Wear

Use high-quality elastic band to fit comfortably even when recording videos for a long time.

Image: A detailed view of the high-quality elastic head strap, featuring adjustable buckles for a comfortable and secure fit. The design also indicates breathability for extended wear.

OPERATING INSTRUCTIONS

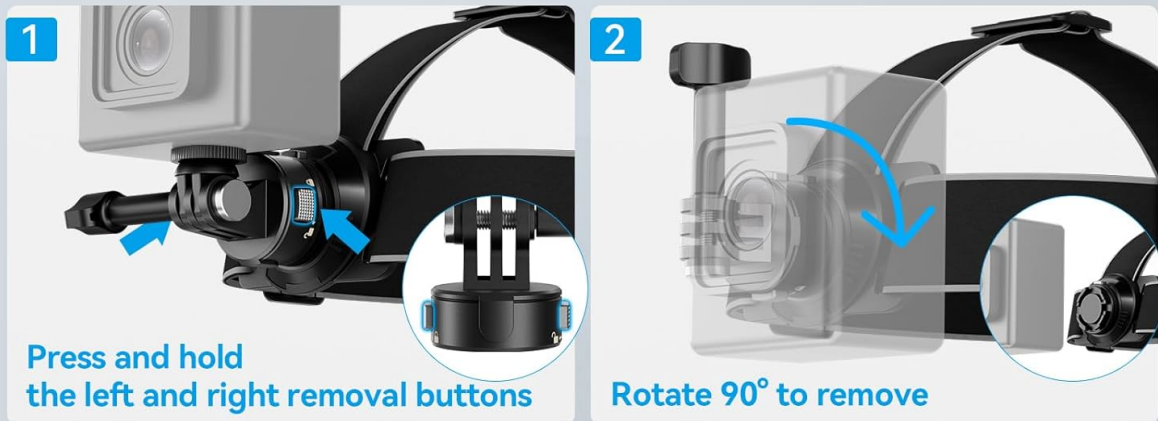

1. Quick Release Function

The magnetic quick-release system allows for easy attachment and detachment of your camera or phone.

1. To detach: Press and hold the left and right removal buttons on the quick-release base.
2. Rotate the attached device 90 degrees to remove it from the base.
3. To attach: Align the device with the base and push until it clicks into place, ensuring a secure connection.

Quick Release System

The base adopts magnetic quick-disassembly structure, quick assembly and disassembly, refusing cumbersome operation.

*Only the head strap mount included.

Image: A diagram demonstrating the magnetic quick-release mechanism. It shows how to press the side buttons and rotate the device 90 degrees to detach it, and the magnetic connection for secure attachment.

2. Adjusting Shooting Angles (90° Rotation)

The head mount features a 90-degree rotation capability, allowing you to switch between horizontal and vertical shooting modes directly.

- To switch orientation: Rotate the camera or phone 90 degrees on the quick-release base to achieve either vertical or horizontal framing.

Experience different shooting angles

Rotate 90° to realize multi-angle adjustable to meet various shooting needs.

90° Direction Rotation

*Only the head strap mount included.

Image: This image displays the 90-degree rotation capability of the head mount, allowing users to easily switch between vertical and horizontal shooting orientations for their camera or smartphone.

FEATURES AND BENEFITS

- **Hands-Free POV Shooting:** Ideal for capturing first-person perspective footage during activities like outdoor sports, water activities, travel recording, and everyday life.
- **Enhanced Stability:** Designed with a full head strap style, offering both side and top support to reduce camera shake and provide greater stability compared to single head strap designs.
- **Comfortable Wear:** Made from breathable, skin-friendly, high-elastic material with adjustable buckles for a secure and comfortable fit during extended use.
- **Wide Compatibility:** Includes a phone clamp (6cm-9cm width) and adapters for compatibility with most action cameras and smartphones on the market.

Hands-Free POV

Always keep your hands free while capturing fantastic video footage.

*Only the head strap mount included.

Stability Structure

AM-AC03

- Side and Top Support
- Reduces Camera Shake

Others

Only Side Support

Image: This image compares the AM-AC03's design, which offers both side and top support for reduced camera shake, against other head strap designs that provide only side support.

SPECIFICATIONS

Model	AM-AC03
Material	ABS, Nylon Elastic Strap
Compatibility	Action Cameras, Mobile Phones (Phone Clamp width: 6cm-9cm)
Mounting Type	Head Mount
Additional Features	Magnetic Quick Release, 90° Vertical Rotation, Adjustable Strap
Dimensions	63mm x 45mm x 110mm / 2.48" x 1.77" x 4.33"

TROUBLESHOOTING

- Device not attaching securely:** Ensure the quick-release mechanism is clean and free of debris.

Press the release buttons firmly when detaching and ensure a clear click when attaching.

- **Head strap feels loose:** Adjust the elastic strap using the buckles until a snug, comfortable fit is achieved. The strap should be firm enough to prevent movement but not uncomfortably tight.
- **Excessive camera shake:** Ensure the head strap is properly tightened and positioned. The AM-AC03 is designed with side and top support to minimize shake. If using a heavy phone, ensure it is centered and balanced.
- **Phone not fitting in clamp:** Verify your phone's width is within the 6cm-9cm range supported by the phone clamp.

MAINTENANCE

- **Cleaning:** Wipe the head strap and plastic components with a damp cloth. Avoid harsh chemicals.
- **Storage:** Store the head mount in a cool, dry place away from direct sunlight when not in use.
- **Inspection:** Periodically check the straps, buckles, and quick-release mechanism for any signs of wear or damage.

WARRANTY AND SUPPORT

The SIRUI AM-AC03 Magnetic Quick Release Action Camera Head Mount comes with a **2-Year Manufacturer Warranty**.

For technical support, warranty claims, or further assistance, please contact SIRUI customer service through their official website or the retailer where the product was purchased. Please retain your proof of purchase for warranty validation.
